

CROWDS ATTEND OPENING OF TULL AND GIBBS STORE

New Building is Admirably Sited for Big House Furnishing Business Conducted by This Well-Known Firm.

The big new store of Tull & Gibbs at Seventh and Morrison streets is now numbered among Portland's great attractions. A magnificent display of furniture attracted immense crowds of appreciating persons yesterday afternoon and evening during the grand opening that marked the firm's change of location. Both sexes in amazing numbers contributed to the throngs that visited the big store and all were astonished by the wonderful exhibit of draperies, suitcases, stoves and cabinets of all descriptions that have been added to the stock to make it one of the most complete in the United States.

Tull & Gibbs' Magnificent New Store Building at Seventh and Morrison Streets.

It is estimated that fully 10,000 people visited the large furnishing house and were entertained by the firm between 2 o'clock yesterday afternoon and 10 o'clock last night. Everything that could possibly be evolved by the fertile brain of Mr. Hall, the man who was in charge last night, was put to use in the entertainment of these thousands. Three orchestras discoursed music in three different sections of the building, refreshments were offered to all who cared to partake and obliging persons were always at hand to supply any information regarding the different pieces of furniture on all floors.

Building Well Equipped.
The building itself is one of the best equipped structures in the city. It is thoroughly fitted out with modern heating and lighting systems and automatic fire extinguishers so that it is thoroughly secure from any inconvenience that might occur from fire or other disaster. So that as far as advantages in modern appliances are concerned Tull & Gibbs will be equal-

ly provided with the best in the northwest. Last night the elevators were not nearly equal to the emergency and the sightseers thronged to the sixth floor by way of the stairs in their eagerness to view the display. The elevator was early forced to suspend the duty of taking passengers down and only those "going up" were admitted. The sixth floor is devoted exclusively to draperies and carpets and is the only department that has its own separate force of salesmen. All other salesmen work on all the floors except this one. The annex to the sixth floor contains the carpet-sewing machines and the workers that prepare the draperies for use. The arrangement of portieres and lace drapery in this department is especially noteworthy and many people lingered here to listen to Wilder's orchestra and wander through the labyrinth of curtains hung before the curious on this floor.

Fifth and Fourth Floors.
The fifth and fourth floors contain complete sets of furnishings for up-to-date suites and the more costly pieces that the finer dwellings require. On the third floor is the now popular father-furniture and different makes of the old colonial styles that are now in such big demand. This furniture is expensive, but its heavy simplicity appeals to the critical purchaser. The second floor contains kitchen cabinets and dining-room furniture of all kinds and most anything that would appeal

to the householder is shown on this floor. In the basement are arranged the heating stoves, of which Tull & Gibbs have a most complete stock. The basement is where all the shipping is handled.

BOGUS CHECK PASSER SWINDLES MERCHANTS
A daring crook is busily engaged in flooding the business section of the city with worthless checks and is being eagerly sought by the police. Frank R. Kerr, of Wadsworth & Kerr, wholesale grocers, was notified yesterday that a man representing himself to be James McGrath had passed a check on the Portland Hardware company for \$25 purporting to be signed by Mr. Kerr. F. Dresser & Co., grocers, were victim-

DR. R. A. THOMPSON,
Oregon Optical Co.,
Portland, Or.

Dear Sir:
Permit me to state a few words in behalf of your scientific work in fitting eyeglasses. You are entitled to the gratitude of all unfortunate who are compelled to use glasses in aid of eyesight. I have been wearing glasses for several years, and I must admit that the ones you fitted to my eyes are the best and the most satisfactory of all that I have had. I have put you down, in my opinion, as the most scientific optician I have ever met, recommending you to all my friends.

Yours very sincerely,
REV. CHAS. SEROSKI.

You can do no better than Father Seroski did with his troubles. Come to us. We will please you as we did him. Examination Free and Painless.

A Large Bump of Prejudice Exists in the Minds of Many Men

And one of the prejudices to which some men cling most tenaciously is that clothes cannot be had ready to put on and wear good enough to satisfy them. Our appeal to such men is that we will show you a product in CHESTERFIELD SUITS and OVERCOATS ready to put on and wear vastly superior to the clothes you are wearing, both in style, in tailoring and exclusiveness of effect, as much superior as is the shoe you buy at the good store compared to what you get from the shoemaker who in this age puts in his time repairing old shoes. The reason we can give you better than you have been getting is that the greatest designer in this country designs CHESTERFIELD CLOTHES, that only the most artistic and skilled tailors are engaged in their manufacture, the most skilled are there because the manufacturer pays his price. We can fit you, no matter what your build may be, having five distinct models, and will ask you to bear in mind that CHESTERFIELD CLOTHES are hand-tailored by the best tailors, that they are guaranteed to retain their shape and to prove entirely satisfactory as no tailor or other ready-wear maker has ever dared guarantee. If the front of coat in any CHESTERFIELD SUIT sold curls back at edge or breaks in front, causing coat to lose shape in one year's wear, we will give customer a new suit FREE.

sent to the extent of \$10 in the same manner, and another firm lost \$21.50. The checks are all drawn on the Bank of California and bear a forgery of Kerr's signature. The police desire to warn all merchants to be on their guard and a strenuous effort is being made to capture the criminal.

DR. HARRY E. ESTEY DIES AT GOOD SAMARITAN

House Surgeon Passes Away From Typhoid Fever After Two Weeks' Illness.

Dr. Harry E. Estey, house surgeon of the Good Samaritan hospital, died at that institution about 6 o'clock last evening from typhoid fever contracted two weeks ago. Death was not unexpected as the young physician had been growing weaker for several days and no hope was entertained for his recovery. The disease was particularly acute and resisted everything medical skill could do to check its ravages.

Dr. Estey was one of the most popular and efficient surgeons ever connected with the Good Samaritan hospital. He entered the institution as an interne last June upon matriculating with high honors from the medical department of the University of Oregon. During his senior year he was elected as class president, which testified to the high esteem in which he was held. He was 27 years of age and a native of Nebraska. His mother, Mrs. F. E. Hubbard, resides at Portsmouth, in this city. The remains were taken to Finley's funeral parlors last night and will be interred at the cemetery at that establishment. The death of Dr. Estey came as a great shock to all of the attaches of the hospital, by whom he was highly regarded.

Ellen Beach Yaw in Concert
Ellen Beach Yaw opened the concert season at the Liberty theatre in Oakland the other day, and a splendid audience gathered to hear the young woman who is so fond of calling "The California Nightingale." For Miss Yaw is a native daughter, and a very much beloved one, too.

Personality has as much to do, perhaps, with a singer's success as the voice. Yaw has that rare personal magnetism that wins all hearts, and as she is a beautiful woman, with a grace and style that compel admiration, her conquest on the concert stage has been an easy one. She has spent the past eight years in serious study abroad, and in devoted consideration of the best to be found in the musical atmosphere and training of the old world.

WOOLERY WAS BORN UNDER LUCKY STAR

R. Woolery was evidently born under a lucky star, for, after falling from the bridge over Montgomery gulch, at the foot of Larrabee street, 70 feet to the ground below, at an early hour yesterday morning, he will be able to leave the Good Samaritan hospital in a few days without having suffered any permanent disability. It was at first thought by the surgeons that he had

Shepherd takes his sentence coolly and shows not the slightest fear of the fate which awaits him.
