

WILLIE'S POLISHER WORKED ALL RIGHT, ONLY JIM LET GO OF THE HANDLE

Dear Tommy—Jim has to come up to the house every week and polish the floors. It takes him a whole day—

And is such hard work that I made Jim a polisher like this diagram.

I was just showing Jim how to use it when Papa came in. It made the floor shine like glass.

We were all admiring the floor when Jim let go of the handle.

Then the handle spun around and the thing ran amuck.

It banged holes in the walls and furniture, and Papa blamed it all on me when it was Jim's fault.
Yours, Willie.

THE ALMOST FAMILY---DOES UNCLE LEAVE THEM MINING STOCKS? NOT QUITE
