WHAT DEALERS SAY

By W. B. Glafte Co.

Under heavy receipts and light demand the price of poultry this past week was considerably weaker, 12½ cents being about the top price, with a few extra fancy lots going at 13 cents. This will have a tendency to reduce shipments very materially the present week. The steady shipper, however, is the one who will get the beneft of such conditions. There is some interest being shown in turkeys in anticipation of the Thanksgiving trade.

Constructing Union Men Leave Work in Sympathy With Plumbers.

(Journal Special Service.)
Tacoma, Wash., Nov. 12.—A strike involving the carpenters, painters, lathers, plasterers, plumbers, electricians, buildplasterers, plumbers, electricians, building laborers and sheet-metal workers
commenced here this morning and
threatens to stop all building operations.
The strike is only partial in its operation as yet, and is the result of a sympathetic alignment on the part of the
Building and Trades council with the
striking plumbers who have been out
for three weeks.

The trades assembly has adopted the
card system, by which carpenters and

Syphilis, Blood Poison

A person afflicted with Blood Poison cannot feel safe while any of the virus or poison remains in the system. This disease, with little doubt, is one of the most howerble and deadly which affects the human family, from the fact that though its beginning is manifested by only a small sore, in a short time it becomes constitutional; the blood is contaminated, the tissues break down, and a multitude of terrible symptoms follow, such as unsightly skin eruptions, sore throat, falling of the hair, pains in various parts of the body, inflamed eyes, general emaciation and debility. Later may follow disease of the nerves, such as paralysis, locomotor ataxia, softening of the brain, insanity, etc. We will cure you if your case can be cured. Write if you cannot call.

ARRESTED AT DEPOT UPON THEIR ARRIVAL

Police Believe That Girl Has Been Drugged by Her Swarthy Companion and Decoyed to Portland for Unlawful Purpose.

Lured away from her home in San Francisco under promise of marriage by Sam Fukuchi, a Japanese merchant, and apparently suffering from the effects of some opiate, Annie Bell, a beautiful 15-year-old girl, and her brown admirer were taken into custody by Patrolman Ace Welch upon the arrival of the Cali-

The girl was taken before Judge Fra-zer of the juvenile court, and Fukuchi was held in the city prison pending ad-vices from the authorities in the Bay

nia prohibit the intermarriage of Jap-anese and whites, he decided to come to Portland. On the train the Japanese to Portland. On the train the Japanese inquired of the brakeman if he could secure a marriage license in this city.

Fukuchi maintains that his intentions were entirely honorable. Upon a searching examination he finally admitted that he had first met the child in Walnut Creek, California, at the home of her agent. From admissions made by the aunt. From admissions made by the girl to Patrolman Welch, the police be-lieve that the tale told by Fukuchi is

untrue.

It is thought by the police that drugs may have been administered prior to departure from San Francisco and that while in a semi-conscious condition the girl was induced to board the train. Fukuchi admits purchasing the railroad and sleeping car tickets but declares that the Pullman section was never occupied, as the trip was made in a chair car. A telegram has been sent to Chief of Police Dinan of San Francisco advising him of the arrest.

CURE

wenty-five years, and one year of my practice represents a greater volume of good experience than several years brings the average physician or specialist. In explanation of this statement will say that I have been the busiest specialist upon this coast, curing several cases to other physicians' one. I began my practice with accurate knowledge concerning men's diseases, and my patients have received thoroughly acientific treatment, have not only treated an unusual number cases, but have treated them rightly, thus acquiring an abundance of the very best kind of experience — experience of positive value to those I treat and experience that enables me to offer cures with certainty of effecting them.

WEAKNESS

My ability to cure those derangements commonly termed "weakness" has done more to extend my reputation as a specialist in men's diseases than any other thing. I was the first symptom resulting from a chronically in-flamed prostate gland, and that to remove the inflammation is the only method of permy system of local treatment is the only scientific one in use. In years I have not failed to effect a complete cure. There are two reasons for this. First, the unequaled effectiveness of my method; second, because I attempt to cure no incurable cases. long experience enables me to recognize those that have passed into an incurable stage, and I treat only such as I can cure.
