

JUST THREE TELLS ALL ABOUT IT

Famous Assay Office Embezzler Loves Seattle Best of All.

FEARS HIS REPUTATION WILL HURT THE TOWN

Makes Clean Breast of It, and Hopes Society Will Take Him Back When He Has Done His Ten Years on McNeil's Island.

(Special Dispatch to The Journal.) Seattle, Nov. 17.—George Edward Adams, for the first time, took the newspapers into his confidence today and told of his reasons for pleading guilty to the indictment of stealing gold dust and other valuables.

He said he realized that he was pleading when there was much doubt as to whether the government could have obtained a conviction.

He said he understood the incorrect reports about his actions were partly due to the fact that he had refused to talk before the public and while he was ready to tell just why he had not pleaded guilty.

After expressing a strong affection for Seattle and its future, and a desire to see the assay office here recognized as the most important character, he said it was only this great regard for the city and the office that compelled him to act as he did, realizing the penalty he must pay.

"I was afraid," he said, "if I did plead guilty and stick to my confession, I would be other arrests made, and it would greatly hamper the work of the assay office. I do not mean to imply that there were others involved, but in order to get at the truth the government would have been obliged to arrest others, and the business of the office would have been retarded and its reputation would have suffered most seriously."

With tears streaming down his cheeks Adams said he would take his punishment and he does not see why he should not be forgiven and taken back into society when he has done his ten years on McNeil's island behind, 18 years hence.

He intends to have a correspondence course in the sciences during his incarceration and will devote the subsequent days of his life to scientific research.

MOTHER KILLS CHILD TRYING TO SAVE IT

(Special Dispatch by Leased Wire to The Journal.) New Orleans, Nov. 17.—While attempting to take from her 6-year-old baby daughter a loaded revolver which the child had found in a trunk, Mrs. Florence All, a native of the East Indies, today accidentally shot and killed the little one at the home of the family.

The child found great sport in playing with the pistol and related the mother's attempts to secure it. The baby clung desperately to the dangerous toy, which exploded as it was wrenched from the child's grasp. The bullet entered the baby's head, and caused instant death, and the corpse fell at the feet of the horror-stricken mother.

STATE OF BARK IS KILLED BY IMMENSE WHALE

Thomas Ogden of the Andrew Hicks Meets Death at Sea.

(Special Dispatch by Leased Wire to The Journal.) San Francisco, Nov. 17.—The whaling bark Andrew Hicks returned here today, after an eleven months' cruise during which Thomas Ogden, the first mate of the vessel, was killed by a whale and several of the crew were so badly injured that they were confined to their bunks for weeks.

The catch of the season amounted to 13 whales, which brought about 750 barrels of oil. The cruise extended to the South seas and then to the Arctic. In the latter waters not a whale was captured. Mate Ogden met his death on July 15, while off the Alaskan coast, in the vicinity of Kodiak island. A boat in charge of Ogden had struck a whale and the men were waiting about it again, when it struck Ogden in the back with its tail and cut through the gurnale of the boat. Ogden fell unconscious in the bottom of the boat and the whale was cut loose. The boat returned to the vessel, where 10 hours later Ogden died.

Ogden was well known on this coast and one time was master of the bark Alice Knowles.

The Andrew Hicks reached port short of provisions, and the crew stated that if the trip had lasted another week they would have been without food. The men complained bitterly of the food and said the most they had been fed on salt beef and cracker hash.

Ogden was well known on this coast and one time was master of the bark Alice Knowles.

POISON MAY HAVE CAUSED DEATH

Autopsy Fails to Reveal Secret of Mrs. Creffield's Sudden Demise.

(Special Dispatch to The Journal.) Seattle, Wash., Nov. 17.—The autopsy on Maud Creffield, completed today at 11 o'clock this morning by Coroner Carroll and other surgeons, showed that the heart, lungs, liver and kidneys were in a healthy condition. The stomach was taken out and will be analyzed tomorrow.

The coroner's report says that death might be due to poisoning, neuralgia of the heart or uremia.

Lawyers who have been preparing the defense of her brother George, have blamed the homicide to the sinister influence Maud Creffield exercised over the girl's marriage. It was established at the time of the killing that Mrs. Creffield bought the revolver and urged Esther Mitchell on to the commission of the crime. She acknowledged her part in the plot, shortly after her arrest, and said that she and Esther had a perfect understanding in the whole matter, and Esther was selected to do the shooting because she, as the avenging wife of her husband's murderer, would be watched too closely.

This influence was exercised over the murderer during the many days the pair have shared the same prison cell. The younger woman followed her companion around like a dog would stay at the heels of its master. Companions frequently remarked that Esther Mitchell looked like a subject under hypnotic spell. On these grounds, asserted by the attorneys for the girl, whose hands are stained with her brother's blood, they will seek to secure her release from imprisonment or incarceration in an insane asylum.

They say that the girl is brighter and happier since her companion died.

ONLY WHAT HE EXPECTED. Sorrowful Comment of Faithful, Heart-broken Father of the Victim.

(Special Dispatch to The Journal.) Corvallis, Or., Nov. 17.—This is what I have been expecting for a long time," was the remark of O. V. Hurt upon reading the telegram this morning announcing the death of his daughter, Mrs. Maud Creffield, at Seattle. Mr. Hurt and his daughter had left at noon today for Seattle. The mother does not go. Hurt will not bring the remains here.

Mr. Hurt, who has been lavish in his attentions to his wayward daughter all along and recently sold his little home here, supposedly to get home to defend her, was overcome with emotion on the receipt of the news this morning. The townspeople generally, while sympathizing with the father, say death was a merciful solution of the problem.

SEATTLE RABBIS DECLARED TO BE IMPOSTER

Jewish Clergyman Unmasked by Highest Church Authority.

(Special Dispatch to The Journal.) Seattle, Nov. 17.—Rabbi H. Gens, who for a decade and a half has been regarded by the Gentiles of Seattle as the authorized head of the Orthodox Jewish church of this city, is declared by the highest authority in the church and by many of his former followers to be an impostor who for years has acted upon his own account and performed the functions of a rabbi when he had no testimonials or rabbinical training.

The main authority for this statement, which will come as a surprise to hundreds of Seattle Gentiles, who know Gens as Rabbi G. A. Halpern, who was regularly appointed the head of the Bikkurohlin congregation about a year ago, and who came here from Fort Worth, Texas, after having been duly elected by the people of whom he is presiding at the present time.

WALTER WELLMAN IS BACK FROM PARIS

New York, Nov. 17.—Walter Wellman, the Arctic explorer, who will try to reach the north pole by airship, arrived in this city today from Havre. Mr. Wellman expects to remain in this country for five weeks, then return to Paris, where he will superintend the reconstruction of the motors and other apparatus for his airship.

Major Henry will join him with the rest of the expedition next June. Mr. Wellman said today:

"Next year we go back, ready for the real work before us. Our plant is complete and ready. The framework of the balloon globe is under the cover, and some 10,000 yards of canvas has been taken down. It is cut and fitted and ready to put up. The airship, the America, has been taken to Paris to be enlarged. When completed she will be 130 feet long, 53 feet in diameter and will contain 350,000 cubic feet of gas, with a lifting power of 15,250 tons."

TWO WHITE MEN FOUND AT REST IN OPIUM DEN

Policemen Mallett and Keenan raided an opium den, at 434 Second street, at 1 o'clock this morning and took Ab Louie and white man, Frank L. Lawrence and Harvey W. Clark, to the station. Lawrence and Clark were locked up on the charge of smoking opium and Ab Louie \$100.

Ab Louie is a Chinese, and in answer to the charge of running a den.

Wishing to conceal his identity Lawrence chewed up an envelope while being searched at the jail, but the officers knew him. They say he hails from Butte, Montana.

SECRETARY ROOT OFF ON SPEAKING TOUR

Washington, Nov. 17.—Secretary of State Root left this evening for Kansas City and St. Louis to deliver addresses on the relations of the American republic. A number of South American diplomats will hear him in Kansas City Tuesday evening. The inauguration of this movement by the foreign secretary is credited highly significant in view of his recent trip to South America and the assurance he gives the people of the Latin republic that the United States felt friendly to the Draga or Calvo doctrine.

I NEVER GUESS

Experiment or take chances of any sort, to attempt to cure those diseases that I have been curing for the past sixteen years, and I believe am justified in saying that I have learned all about them. I have learned in knowledge pertaining to my specialty I would never have attained my present success, nor would I today be recognized as the leading specialist treating men's diseases. If afflicted, you can depend upon it that the service I offer you is the service you need, and is service such as can be rendered by no other physician.

My practice is the largest because I invariably fulfill my promises.

VARICOCELE. Under my treatment the most aggravated cases of varicocele are cured in a few days' time. There is no pain, and it is seldom necessary that the patient be detained from his occupation. Normal circulation is at once restored throughout all the organs, and the natural processes of waste and repair are again established. If you are afflicted with varicocele, consult me at once. Delay can but bring on aggravated conditions and nervous complications that will impair the vital functions and involve the general health.

Contracted Disorders. In the treatment of disorders I offer a service such as no other physician can render. The remedies I employ have a most thorough and positive action in cleansing the membranes of all infection and subsiding all inflammation. My manner of application insures absolute thoroughness, and removes every possibility of relapse or a chronic stage. My cures are not only thorough, but are accomplished in the briefest time possible.

I AM NEVER IN DOUBT

I am never in doubt as to what the results from my treatment will be. Day after day for sixteen years I have been curing cases after case of the several diseases peculiar to men. No case comes to me now, the like of which I have not treated scores of times in the past, and I can always say definitely whether I will be able to effect a permanent cure. I never hold out false hopes or make promises that I cannot fulfill, and you can rely absolutely upon my unswerving determination to be able to offer you. If I promise you a cure, a cure will follow.
