

BETTER SERVICE ON MORRISON New Schedule Adopted by Street Car Company Goes Into Effect Tomorrow.

CROSS-TOWN SERVICE IS ONE IMPROVEMENT Twelve New Cars Promised Within Next Three Months to Accommodate Rapidly Increasing Traffic—Other Changes of Schedule.

A new schedule adopted by the Portland Railway, Light & Power company will send Morrison street cars to Mount Taber and Sunnyside instead of north on Third street to the union station, and is expected to improve the service for the suburbs, eliminating congestion of street cars of all lines on Third, and give a cross-town car service from east to west Portland that will accommodate many people.

The schedule will vary as to the frequency of cars at different times of the day. Manager F. I. Fuller said: "Early in the morning the tripper service added to the regular cars will make a five-minute schedule between the junction at St. Vincent's hospital and Sunnyside. Every alternate car will run to the fair grounds. After the morning rush is over the cars will run every 10 minutes until 1 o'clock p. m. and from that hour to 3 o'clock p. m. there will be a five-minute service.

"Extra in the evening will be run as usual on the Sunnyside line. The Morrison street cars will be taken off Third street for the reason that the cars of nearly every other line in the city operate over that street. The Morrison street bridge has been watched for some time and it has been decided that this bridge offers less interruption to cars than any other bridge in the city, because the cars are not delayed there by teams. The Washington and Morrison street lines will transfer at Fifth street for the union station. On Fifth street between the city hall and the union station there is a three and one-half minute service."

Promises Benefits. Manager Fuller said further that the change had been made with a view to benefiting the entire service, and that it is the intention of the company to add instead of detract from the present service. No relief has been given the crowded condition of morning and evening cars on the Sellwood line for the reason that every standard gauge car in service. Six new 48-foot cars for the O. W. P. lines will be out of the shops late in February. Three new narrow gauge cars came out of the Washington shops this week, three more will be finished before Christmas, and three in February.

The change of schedule on Morrison street will not affect the Montgomery street cars. On December 1 the Broadway cars will change to run over the Burnside street bridge instead of the steel bridge.

FURIOUS RIOT FOLLOWS ARREST OF CABMEN (Special Dispatch to The Journal) New York, Nov. 24.—It seemed to-night at Twenty-eighth street and Broadway that some 300 men were trying to kill the entire police department in a furious riot which followed the arrest of two men in front of the Eversard Baths.

Policemen rushed in from every direction and soon there seemed to be as many policemen as rioters. When the crowd was finally finished with Burns and Howe the ransomed looked like scarecrows in their tattered clothes, and when the policemen finished with the crowd it looked as if it had been through a machine.

BABY WITH TWO HEADS IN OLD NORTH STATE (Special Dispatch to The Journal) Norfolk, Va., Nov. 24.—A baby with two heads was born to Mr. and Mrs. William G. Davis, a prominent family of Watauga county, North Carolina, near the town of Edenston. This strange freak of nature came into the world several days ago, but the facts have just become known. The child lived only 29 minutes.

The two heads were perfectly formed and each gaped for breath, struggling alike to live. The strange freak weighed six and one half pounds. Doctors offered the father and mother a large sum of money for the child after it died. It was refused.

SOMETHING DOING WHEN JEFF IS SEATED (Special Dispatch to The Journal) Brookhaven, Miss., Nov. 24.—"There will be something doing in the old town of Washington when I get to the United States senate," declared Governor Jeff Davis, of Arkansas, who addressed a big audience of farmers here this afternoon. "What needs in that old bone-yard," continued Governor Davis, "is an old-fashioned row and a shaking up of the fossils. With General Lee, kind-spirited Bob Taylor, of Tennessee; Pitchfork Tillman, of South Carolina; and the fearless Vardaman, of Mississippi, and myself, there will be a first-class sensation."

MIDWINTER CARNIVAL AT COOK HELD TO ANSWER STATE UNIVERSITY Placed Under Bond on Accusations of Embezzlement and Forgery.

(Special Dispatch to The Journal) Salem, Or., Nov. 24.—The midwinter carnival is the latest innovation launched by the students of Willamette university at a recent meeting of the student body. Wallace G. Trill of the law school will act as manager of the enterprise. Mr. Trill is also a candidate for the rectorship of the city of Salem at the coming election. He is decidedly popular with the students and has been chosen as director of this big student enterprise on account of his business and managerial ability. He seldom has the entire student body rallied to the support of an enterprise as they do for this carnival, which is the first one ever attempted at the old Methodist U. There will be all sorts of booths, circus tricks, athletic performances, vaudeville stunts, underground passages leading to labyrinths and of new feats galore, modeled after those seen on the Trail and the Pike.

"Ahead of the carnival at the James-Johnson exposition," is the watchword. The big show is to be something like the Elk skidoo that was given here by the local anti-laws last July. Committees will be appointed this week and active preparations will be made for the big attraction. The "goods," too, are taking active interest in the venture and will work in the decoration features of the show. The ladies' glee club will sing. Roy Heater, the physical director, will perform, and all sorts of attractions will be put on the boards. The affair will continue for several days on account of the expenses that will be connected with the preparations. The purpose of the carnival is to raise money to defray the expenses of the student body and to remove all deficits from the treasury. It is also hoped that sufficient money will be raised to justify the putting out of the Wallulah, the biennial student publication, which was published for the first time in 1903.

COMPROMISE ARRANGED OELRICHS WILL CASE (Special Dispatch to The Journal) New York, Nov. 24.—A petition was filed in the surrogate's court by Charles Oelrichs, brother of the late Hermann Oelrichs, asking the acceptance of a compromise with the widow of the deceased as to the terms of the will. Decision will be given on Thursday in which the request was granted, thus ending the litigation over the estate.

Under the compromise, Mrs. Oelrichs gets 100 bonds of the Southern Pacific railroad, valued at \$1,900 each, and her share of the real estate. The late Hermann Oelrichs, who was a wealthy shooting ranch known as the Cygnus, valued at \$50,000. Furthermore, Mrs. William K. Vanderbilt releases all claims to the estate. These claims were made by the late Hermann Oelrichs, who was a resident of California, his brother claiming the estate, and the widow making the latter assertion.

S. H. ELLIOTT WINNER IN AUTOMOBILE RACE (Special Dispatch to The Journal) New York, Nov. 24.—A New York Times feature at the Point Breeze auto races this afternoon. This was S. H. Elliott, whose 50-horsepower car finished first in the 50-mile race. It was in this race that there came near being another fatal accident. The racers were just swinging into the stretch at the end of the sixth mile when the 50-horsepower car driven by Phil Kirk left the track and plunged through the Hermann Oelrichs' fence. The fence was lined with spectators, who were almost mowed down as the big car came whirling into their midst. As luck would have it, the car was stopped and the driver, both Kirk and his machinist, Eddy Barrett, were hurled from the car and badly bruised.

With Kirk thus put out of the race for the 50-mile race, the fight for the first prize settled down to a duel between Elliott and H. V. Johannessen, who was hurt yesterday. HUNDREDS OF TEACHERS BOUND FOR PENDLETON (Special Dispatch to The Journal) Pendleton, Or., Nov. 24.—About 300 teachers will be in Pendleton Monday to attend the annual convention of the Eastern Division State Teachers' association, of which County Superintendent Frank K. Welles is president. Most of the attendance will be from Union, Baker and Umatilla counties. Dr. A. E. Winship of Boston will be the principal lecturer. Other speakers of note will be J. H. Ackerman, state superintendent, and W. G. Harttraf of San Francisco. An excellent program has been arranged.

Car Shortage Kurts Sheepmen. (Special Dispatch to The Journal) Baker City, Or., Nov. 24.—The O. R. & N. car famine is having its effect on Baker county stock shipments. As a result of the lack of cars, B. F. Saunders, the big Ute sheep king, was forced to load 10,000 head of Baker county sheep at this place while he waited for the cars which were promised him weeks ago.

OREGONING THE DRESSING PARTMENTS RELATIONS WITH U. S. C. Eugene Playgoers Subjected to Many Indignities by Corvallis Sympathizers.

(Special Dispatch to The Journal) Eugene, Nov. 24.—As the result of the treatment accorded the Oregon variety today at Corvallis it is likely that the athletic relations will be severed in the future with O. A. C. After the game the Oregon team was almost mobbed. Mud and a few blows, amid hoots, were given the Oregon eleven while entering the dressing apartments. The ladies from Eugene were also hooted and insulted by the O. A. C. students. To make the situation worse, Corvallis friends of Oregon said that last night the field was flooded to make the awful sea of mud which existed today. The circumstances appeared suspicious, as after three days of dry weather great pools of water stood on the sloping field.

FRANK HENNESSY GETS HIS DOG BACK (Special Dispatch to The Journal) Seattle, Nov. 24.—Members of the Seattle Bar association have determined to purify the bar of King county, and morning hours will be devoted to the removal of three attorneys who were cited to appear before Superior Judge Prater and show cause why they should not be disbarred from the practice of their profession and have their licenses as attorneys taken away.

Attorneys Forrest and Ferree have both pleaded guilty to felonies. The statutes provide that an attorney convicted of felony or misdemeanor involving moral turpitude shall be disbarred. Paul Dormitzer more than a year ago was summoned to appear and defend disbarment proceedings. Disbarment proceedings against Dormitzer have not been pressed. Judge Prater will set a certain day upon which disbarment proceedings against Dormitzer will be heard.

H. L. Forrest last week pleaded guilty to having attempted to commit a criminal assault and was sentenced to five years in the penitentiary. R. E. Ferree, in March, 1905, before Superior Judge Griffin, pleaded guilty to having obtained money under false pretenses, and was sentenced to serve six months in the county jail. After he had been imprisoned a few weeks his sentence was commuted by Governor Mead.

Dormitzer was accused of obtaining money in a case as an attorney when in fact he was not connected with the litigation. Since the commencement of the disbarment proceedings Dormitzer has left Seattle and gone to Alaska.

METEOR GIVES PROOF OF STORM'S POWER (Special Dispatch to The Journal) Seattle, Nov. 24.—With her huge iron stanchions, the vessel was encountered and her between deck partitions more or less damaged, the steamship Meteor, of the Globe Navigation company, has arrived at Everett from San Francisco. The Meteor was encountered all the way up and the vessel, owing to having aboard a heavy cargo, simply twisted herself out of shape. The terrific power of the seas was evidenced by the fact that the Meteor was removed from the vessel. In her hold was a cargo of concentrates, ore and cement. Investigation of No. 2 and No. 3 holds showed that the heavy iron beams between the decks were broken and bent. Stanchions were also badly twisted and everywhere was evidence of the terrific strain brought to bear on the vessel.

AMERICAN ELECTED TO RUSSIAN DOUMA (Special Dispatch to The Journal) New York, Nov. 24.—The surprising news came here from Russia that Professor Isaac A. Horowitz, a noted scholar, leader of the Russian-Jewish intellectuals of the United States for many years, has been nominated for member of the new douma from the city of Minsk. Professor Horowitz has been living in this country for 18 years and has not only been to all intents and purposes an American, but has been associated with our government as a stationer in the bureau of census. This position Mr. Horowitz held for a number of years, during which time he and his family made their home in Washington.

Mr. Horowitz gave up his government position a year ago in order to go to Russia and make study of conditions in his native land, and also, if possible, to do some practical work in the struggle for the freedom of Russia. It is generally believed that he will be elected, and the election will be of the greatest significance to Russia and to Russians everywhere. Professor Horowitz will be the first man of political and parliamentary knowledge for this position.

JUDGE LANDIS SCORED BY FEDERATION MEN (Special Dispatch to The Journal) Minneapolis, Minn., Nov. 24.—Judge Landis of the United States court for the northern district of Illinois came here for a scorching today in the American Federation of Labor convention. The executive council was instructed to send a committee to Chicago to find out why several employment agencies that had pleaded guilty of violating the law had not been punished. The charge was that the defendants had hired seamen at Chicago to take the places of strikers at San Francisco. The defendants pleaded guilty of violating the law, and Judge Landis, it was stated, refused to punish the guilty men.

FORBID DIXON'S PLAY TO PREVENT RACE RIOT (Special Dispatch to The Journal) New York, Nov. 24.—It is altogether probable that the production of Thomas Dixon's play, "The Clansman," at the Broadway theatre, Brooklyn, on Monday night, will be forbidden by the city authorities, on the ground that the drama tends to excite racial hatred and that lawlessness and riot might result if the production were permitted. There are 60,000 negroes in Brooklyn, and they have been holding meetings of protest against "The Clansman" school in the northwest part of Washington. Mr. Newell while delivering his lecture dresses as a Sioux chief. He speaks the Sioux language fluently.

LUCKLESS CAPTAINS TO LOSE LICENSES (Special Dispatch to The Journal) Seattle, Nov. 24.—Captain Percy Lomond of the steamer Dix, which was sunk in Seattle harbor last Sunday, and the captain of the four boats which collided in the harbor during the fog on the following Tuesday—the Kittap, Monticello, Manette and the ferryboat City of Seattle—will probably lose their licenses as masters. This is assured if some new evidence does not appear in the case soon. While the masters of the boats in the collision on Tuesday have not had their cases before the inspectors on account of the Dix investigation, they will be taken up as soon as that is concluded. County Prosec-

cutting Attorney Mackintosh has decided to bring criminal action against Captain Percy Lomond and may include the owners of the vessel if it can be shown they are within the law. The proposal to sink long grappling hooks and attempt to tear off the upper works of the Dix in order to release the bodies of the victims, was made today, but it is doubtful whether any plan except that of sinking mines near the vessel and exploding them will be adopted.

NEW SUIT AGAINST WARNER VALLEY CO. (Special Dispatch to The Journal) Salem, Or., Nov. 24.—A new suit will be brought by the state against the Warner Valley Stock company. At least Governor Chamberlain has sent a letter to the attorney-general in which he states that he has been asked to bring a new suit against the company. The state lost its case some time ago when it was before the supreme court. The communication to the attorney-general reads thus:

"If in your judgment the facts exist which will sustain a suit in the name of the state, I wish you would commence a suit against the said company, as I feel that great injustice has been done to the interested parties as well as to the state, and therefore you are hereby authorized and directed to bring suit in the name of the state against the said company."

PEARY IS UNABLE TO LEAVE FOR NEW YORK (Special Dispatch to The Journal) Sydney, N. S. W., Nov. 24.—At the last moment Commander Peary was unable to leave for New York today. He will be detained until Monday. The crew insists that the Roosevelt in no condition to be brought to New York and demand that the ship be put in drydock. There is no dock in Sydney large enough to accommodate the Roosevelt.

Commander Peary today got a diver to examine her bottom. Captain Bartlett has had much trouble with the crew, and said today that it must leave the Roosevelt. He has sent home for a new crew to man the vessel. Some of the anchorages men hung from the main rigging portions of the meat served them to "show folks ashore the kind of stuff served to the men." Officers ordered the meat cut down.

CHANCES AGAINST ALGECIRAS TREATY (Special Dispatch to The Journal) Washington, Nov. 24.—Moroccan affairs will come to the fore immediately the senate meets in December. At the last session, December 12, it was fixed upon as the date for taking up the Algeciras treaty and voting upon it. Under the international agreement entered into at Algeciras the convention must be accepted or rejected by the senate by December 31. Congress takes
