With such a record as has been made

Every afflicted man is invited to write me a description of his case. Such is my knowledge of men's diseases and so perfect are my methods in treating them, that I am able to effect cures in all ordinary cases without seeing the patient in person. All correspondence strictly confidential. Those visiting Portland may feel free to call at my office for personal consultation. You Pay When Cured My Fee in Any Un-

There is no ailment peculiar to men that I cannot cure.

My methods have been perfected by actual experience,

For sixteen years I have devoted my entire time and energy

with a thorough theoretical knowledge as a basis. I am the

only physician thoroughly and permanently curing those functional derangements commonly classed as "Weakness," and

my success in overcoming such cases has placed me foremost

among specialists treating men's diseases, and has brought me

Bo-called "Weakness" in men is curable—fully curable. It has not been cured by those measures commonly employed, for they are methods based upon supposition and not upon fact. Prematureness and loss of power in men is due to a chronic state of inflammation in the prostate gland, and not to a disordered nervous condition, as has been supposed. I treat the inflammation by a local process that does not fail to accomplish its purpose, and with this condition corrected full and complete strength and vigor returns.

Contracted Disorders

dition corrected full and complete strength and vigor returns.

I have the largest practice because my method of curing.

STRICTURE—My treatment is absolutely paniess, and perfect results can be depended upon in every in male anatomy and affording an instance. I do no cutting or dilating study in man's diseases blood-cleansing remedies that remove the last poisonous taint.

Every case of contracted disease I treat is thoroughly oured; my patients have no relapses. When I pronounce a case cured there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the disease will return in its original form or work its way into the general system. No contracted disorder is so trivial as to warrant uncertain methods of treatment, and I especially solicit those cases that other doctors have been unable to cure.

I have the largest practice because I without using knife, ligature or caustic, without pain and without detention from business. I cure Varicocele in one week. If you have sought a cure elsewhere and been disappointed, or if you fear the harsh methods that most physicians employ in treating this disease, come to me and I will cure you soundly and permanently by a gentle and painless method. Don't delay. Varicocele has its dangers and brings its disastrous results. If you will call I will be pleased to explain my method of curing.
