

MORE LAND IS BOUGHT BY LUMBER COMPANY

St. Johns Concern Purchase Property Along the Water-front.

The Peninsula Lumber company purchased this morning from M. F. Brady 461 feet of river front adjoining its present holdings on the east. The purchase price was \$17,500. The parcel has a depth of 300 feet, with a total area of a little over eight acres. The price, \$2,000 an acre, is considered cheap for river fronting so advantageously situated. The lumber company will use the tract for proposed extensions and additional yard facilities.

The half block fronting on the west side of East Seventh street, between Tamhill and Taylor was sold yesterday to the Harbo Shoe company by Russell & Blyth for \$17,500. It is understood that the purchasers have in view the establishment of a shoe factory on the site, although it is announced that nothing definite along that line has been determined. The half block is now occupied by three small dwellings.

W. J. Hoffman broke ground this morning for a \$1,000 residence on the corner of East Twenty-sixth and Hancock streets. T. B. Schellhammer has the contract.

D. E. Keasey & Co. are having the tract at the head of Twelfth, Thirteenth and Fourteenth streets, back of the Portland academy on Portland heights, surveyed and will soon have 77 lots there ready for the market. This firm reports that it is more than \$1,000,000 worth of heights property during the past week.

Transfers of realty filed for record yesterday aggregated a little less than \$40,000.

I Read It On Approval—You Wear It—If You Are Not Satisfied, I Refund Your Money.

and costs less than many ordinary trusses. I have put the price so low that any person, rich or poor, can buy, and I absolutely guarantee it. I make it to your order—send it to you—you wear it and if it does not satisfy you send it back to me and I will refund your money. That is the fairest proposition ever made by a rupture specialist. The banks or any responsible citizen in Marshall will tell you that is the way I do business—always absolutely on the square.

Here is what Mr. J. E. Brooks, a prominent manufacturer of Portland, Ore., writes: "C. E. Brooks, Esq. Dear Sir—I have been ruptured six years and have always had trouble with it till I got your appliance. It is very easy to wear, fits neat and snug, and is not in the way in any way. I had it on. It just adapted itself to the shape of the body and chafed to the spot no matter what position I was in. It would be a veritable God-send to the unfortunate who suffer from ruptures. If all could receive the Brooks Rupture Appliance and wear it. They certainly would never regret it. My wife is all healed up and nothing ever did it but your appliance. Jas. Britton." If you have tried most everything else, come to me. Where others fail, where I have my greatest success. Write me today and I will send you my book on Rupture and my Cure, showing my appliance and giving you prices and names of people who have tried it and been cured. If it instant relief when all others fail. Remember I use no salves, no harness, no sea. Just a straight business deal at a reasonable price. C. E. Brooks, 2276 Brooks Bldg., Marshall, Mich.

FOLLOWED PRESIDENT WITH BRASS KNUCKLERS

German Named Khell Deported From Panama to Avoid Serious Consequences.

(Journal Special Service.) Colon, Panama, Nov. 27.—President Roosevelt's visit was attended with an incident which might have been serious. Chief of Police Stanton received from the state department a few days before Roosevelt's arrival a request to detain a German named Khell, represented as having sailed from Venezuela for Panama. Khell was arrested on landing. He carried three revolvers, a

A STRONG COMPANY

Plan of Pacific Coast Securities Company a Big Winner

The Pacific Coast Securities company of this city is one of the strongest mining corporations that has been formed in the northwest and will undoubtedly meet with deserved success in their plan of giving the investor absolute security on the principal invested. In no line of industry is more change in promotion methods needed as greatly as in mining and it is to say the least a move in the right direction. The security and guarantee of the principal is a Bank Certificate of Deposit for the full amount invested, this Certificate of Deposit being directly under the control of the investor until he is satisfied with the earnings and the ability of the company to continue the payment of dividends.

This is an entirely new departure from the ordinary mining investment, the risk or gamble having been eliminated and will appeal to those who want an investment rather than a speculation. The company will send upon request several booklets issued by them that contain many facts of interest to any investor in corporate enterprises.

bowie knife and brass knuckles. He was deported to Venezuela the day after Roosevelt sailed.

Khell had been watched by the United States authorities since he was arrested a couple of years ago near the White House in Washington, when heavily armed. He told the officials here that after his arrest he had been in Bellevue hospital and then deported. Khell declared he was a merchant and said his former visit to Washington was to interest the navy department in a new propeller, but that he came here to interest himself in canal work. He carried considerable electric apparatus and his conversation indicated he is an inventive crank.

HERE'S A DOG THAT'S GOOD FOR SOMETHING

A Portland minister who believes that nothing is more discouraging than lack of appreciation will be plunged into the darkest depths of despair when he returns to his flock. The dominie in question is absent from the city, and if what is told is true, his parishioners will not be overjoyed at his return.

A visiting minister delivered a sermon from the vacant pulpit Sunday. The congregation noted that one of the characteristics of the sermon was a refreshing brevity. After the benediction was pronounced the visitor apologized for the shortness of the sermon to some of the brethren with whom he was talking. He excused himself by saying that on Saturday afternoon his pet fox terrier had chewed up most of his notes. With a grin a member of the congregation asked: "Say, you couldn't give our minister a pup, could you?"

HIGH OFFICIALS INDICTED FOR LAND FRAUDS

Salt Lake Federal Grand Jury Returns Five True Bills for Coal Land Swindles.

(Journal Special Service.) Salt Lake City, Utah, Nov. 27.—The federal grand jury, which has been sitting here for the last two weeks, has voted to return five true bills against corporations and against some of the persons who have been implicated in the wholesale stealing of public lands in the state of Wyoming. The work of the grand jury is not completed and it is stated that before the investigation ends it is likely it may reach out and lay its hand upon a United States senator, a judge of the supreme court of the state and an official high in the employ of the government.

The indictments which have thus far been voted, but which have not been returned into court are against three corporations and two officials of those corporations. An Eddyville man will put bells on all his sheep and goats, as a protection against coyotes.
