The Table Linens in the sale consist of the finer grades of the Richardson Linens, the beautiful hand-made and Embroidered Scarfs, Tea Cloths, Doilies, Dresser Cloths, Table Tops, etc., products of the expert Irish needlewomen's Winter handwork, made at a time when their labor costs but little, thus making the goods to cost us—and you—less. ## IN PROGRESS--Another of Those "Satisfactory Sales" of Good Shoes

**FOR MEN AND WOMEN—ANNEX—FIRST FLOOR**

It will be remembered by many of the store's shoe patrons that some few weeks ago we introduced an innovation in Shoe Sales, calculated to do away with the dissatisfaction usually encountered in the ordinary sale. We told you how difficult it is to advertise a sale without disappointment to some one who comes in response to the advertisement, only to find that their size is not to be had in the collection advertised. The OLDS, WORTMAN & KING store will not disappoint—if 'tis possible to avoid doing so. We demonstrated how our clever shoe chief had solved the problem of how to conduct a sale and eliminate the "disappointment" feature. So successful was that "Satisfactory Sale," and so many were the encomiums bestowed upon us in the originating of the same, that we resolved in the future, in all similar sales, we would follow out the plan. In the diagram below one may see at a glance just exactly what the stock consists of which goes to make up this great Shoe Sale now on. Read the sizes from the top line, the widths from the letters at the left; follow down the column which is designated by the numeral representing your size until your eye reaches the line on which your width of foot is shown. The number of dots in the intersecting square shows you the exact number of styles in shoes in the sale which will fit your foot. You will easily get a perfect understanding of the exact sizes in the sale in this way, and if your size is not shown you'll know it isn't here. If there are a large number of shoes in the size worn by you, as shown by numerous dots, then you'll know you needn't hurry to the sale—there's plenty to pick from. If, on the other hand, the dots be few, it behooves you to hurry—or all may be sold out ere you reach the store. Most stores would say—"That's foolish; let 'em come. What do you care if some people are disappointed? Chances are they'll buy something else anyhow. Get 'em in. What do you care?"—but this is a "Different Store." And this is a "Satisfactory Sale" of good shoes. Look at the diagram carefully, see if your size is there—see how many pairs; then get to the store soon as possible to share in the wonderful bargains.
