ALMOST PERFECT

The annual banquet of the V. I. A. chapter of the White Temple girls was held in the lower temple on Friday evening, and proved a delightful affair. Plates were laid for 100, the tables arranged to form the letters V. I. A. This is one of the organized classes of the White Temple Sunday school, there being a number of others. The girls of this class

Constipation unchecked brings inand piles too often superinduce tumor of malignant nature

It is utmost folly to allow this con-dition to continue. If you have piles the veins of the rectum are congested, and the excessive straining of the ab-dominal walls to force a passage in many cases leads to rupture and crack-

ing of the tissues.

There is no greater suffering than this. If you are a sufferer from piles you know it. It is foolish to think that any amount of catharties will relieve you. On the contrary purgatives are favorable to the production of hemor-rholds. Do not be ecceived either by the illusion that an operation always cures. It sometimes does, but the agony

East Side Department

In the annual recommendations for new apparatus and other general im-provements submitted to the executive board this week by Fire Chief Campbell, the east side is very generously provid-ed for and if the recommendations are acted upon favorably by the council, and there is every reason to believe they will be, the east side will be very effi-ciently secured against any considerable loss by fire.

Some time ago before the time for

loss by fire.

Some time ago before the time for preparing the annual budget had arrived, the East Side Business Men's club appointed a committee of 12 men from among their number, of which Councilman Kellaher was chairman, to investigate the needs of the east side in the way of fire protection, and they went at the matter in a systematic way and in an endeavor to see just what was wanted. The improvement associations in the outlying districts were asked to send in delegates and no district was overlooked. After they had made their investigations, they made them known to Chief Campbell, who was very generous to them in consider was very generous to them in considering their wants and incorporated nearly every one of them in his re-

Delay Causes Anxiety.

The fact that no move has been made to begin the work on the new Grand avenue bridge over Sullivan's gulch is causing some anxiety among the east side business men. No one seems to So far as the temperature was con-cerned, the month of November was al-most perfect, the mean temperature be-ing 46 degrees, while 45.9 degrees is the know why the delay in commencing the work has been made. When asked concerning the matter

ing 46 degrees, while 45.9 degrees is the mean temperature for the month during the past 36 years. Many Novembers have been much cooler and some have been considerably warmer.

The precipitation was above the average by a little more than two inches, the average being 6.44 inches. The heaviest rainfall was recorded on November 14 was the hettest day, for then the thermometer registered 65 degrees. November 24 was the coldest, with 30 degrees. It rained more or less on 22 days of the month and only five were perfectly clear. The wind braveled 5.102 miles during the 30 days, mostly from the southeast.

We hen asked concerning the matter last night. City Auditor Devlin said that he felt no uneasiness in regard to the bridge; that the contract had been duly awarded and that a limit had been established within which time the bridge must be completed. Mr. Devlin said further, however, that he supposed that the reason the contractors were delaying was that they were probably waiting for their steel and did not wish to go shead with the excavation or the placing of abutments until the steel had begun to arrive.

W. L. Boise said practically the same thing, and as near as can be determined this is the reason for the delay, although there may be other reasons for not entering upon the work at once.

this is the reason for the delay, al-though there may be other reasons for not entering upon the work at once.

County Poots the Bills.

As a result of the new law as verified by Judge Sears in the circuit court this week the running expenses of Justice Olson's court of the east side justice jurisdiction are paid by the county. The expenses of conducting the court since July 1 were itemized by Justice There were 99 building contracts filed There were 99 building contracts filed during the week, representing an aggregate expenditure of \$1.122,350, the bulk of which will be expended in the burned district on permanent improvements. The work of reconstruction is steadily broadening out, and almost every week shows a noticeable betterment in the class of buildings, particularly in the would not exceed \$12. The expenses broadening out, and almost every week shows a noticeable betterment in the class of buildings, particularly in the downtown districts. The work of demolishing the walls of the Palace hotel is making rapid progress, and from present indications the site will be cleared for building operations before the expiration of the time limit in the contract.
