

DRYDEN DEFEATED ASKS FOR RELIEF FOR REELECTION FROM TRUST

Prudential Life Insurance President Will Be Succeeded by Governor Stokes.

EVERETT COLBY TO BE GOVERNOR OF STATE

Stokes to Resign Governorship—His Successor Will Be President of Senate, to Which Position Colby Will Be Re-elected.

(Special Dispatch by Leased Wire to The Journal) Trenton, N. J., Dec. 1.—It is understood among the politicians that Governor Stokes has won the fight for election as United States senator to succeed John F. Dryden. The only difficulty that stands in his way has been solved by a plan that will

Senator John F. Dryden.

startle the state and produce a totally unexpected result. It will make Everett Colby, the belligerent reform senator from Essex county, governor of the state.

In order to become constitutionally eligible for United States senator, Governor Stokes will have to resign his present office. His successor under the New Jersey constitution will be the president of the senate.

When the senate organizes in January it will elect a president to succeed President Bradley, of Camden county. The present combination is to make the anti-Dryden senator from Dryden's county of Essex president of the senate.

Then, according to this program, Stokes will resign the governorship and Colby will be installed in the legislative chambers. Thus made eligible for the senatorship, Stokes will get his promotion to Washington, which he nearly won six years ago, when Senator John Kean came to the rescue of the Prudential president and gave him the vote from Union county with which he won.

In Low Esteem. From the Pittsburgh Post: "Lead me a hundred, old man." "Don't do it." "I'll pay you 6 per cent interest." "Say, if I thought you'd pay 6 per cent of the principal I'd let you have the money."

Independent Oil Operator Declares Railroads Are Forcing His Ruin.

APPEALS FOR HELP TO COMMERCE COMMISSION

Details Brought Out in Lackawanna Investigation Shows That Trunk Lines Give Standard Rates That Kill Competitors.

(Special Dispatch by Leased Wire to The Journal) New York, Dec. 1.—Declaring that he would be forced to abandon the oil business which he had been 16 years in building up in Brooklyn unless the government could afford him protection and relief, former State Senator David F. Davis made a strong plea today as he witnesses stand to the interstate commerce commission to force the Delaware, Lackawanna & Western railroad to continue to receive his tank car oil shipments at their Brooklyn terminals. He renewed the charge that to the best of his belief the railroad company had been influenced by the Standard Oil company to refuse his shipments.

He declared that he had been called on the telephone in January, 1904, by an employee in the Lackawanna general offices, who said: "I want to tell you that the standard oil is after you. They are urging on our traffic department the enforcement of the trunk line agreement prohibiting the delivery of bulk oil in tank cars in New York City. Commissioner Frouthy asks if this trunk line agreement regarding oil did not shut out practically every independent dealer except the Standard Oil, which piped its supply from Bayonne, New Jersey. The railroad attorney suggested that there was nothing to prevent the Preston & Davis company from establishing its own terminals. Commissioner Frouthy declared that the firm did not have the money to build its own terminals.

Senator Davis testified that Brooklyn consumed 100,000 gallons of oil per day and that the Standard Oil furnished 95 per cent of it. He said that his firm furnished but from 1 1/2 to 2 per cent and that owing to the piping they had to pay the special agents of the Standard they were sometimes forced to operate at a loss.

FULTON HAS BILLS FOR NEW BUILDINGS READY

Two Million-Dollar Postoffice for Portland — Four Other Towns on List.

(Washington Bureau of The Journal) Washington, Dec. 1.—On the opening of the session of congress Senator Fulton will introduce a bill providing for the purchase of a site and the erection of a new postoffice building at Portland, to cost \$2,000,000. He will also introduce bills for public buildings at \$100,000 each at Albany, Oregon City, Pendleton and La Grande. As there will be no public buildings bill passed at the coming session, Senator Fulton expects to get his bills through, but wants to get them under way so that they will be well under way at the subsequent session.

TOOLS OF LAND FRAUD MEN DESERT THEM

(Special Dispatch by Leased Wire to The Journal) Omaha, Dec. 1.—Efforts were made by the defendants in the land fraud cases this morning to show that secret service men intimidated entrymen. Witnesses denied this and said they did not intend to settle, but defendants offered to lease at \$50 a year and to pay \$300 when the lands were proved up. They told them this method of leasing for grazing purposes complied with the law demanding improvements. The testimony showed that the defendants paid the expenses of entrymen in groves at the land office.

Monarch Malleable Ranges

Requires no more fuel, no more time and no more labor to do the work after 10 or 15 years' use than they do at first. The satisfaction they give is not alone for the first year of their use, but continues the same year after year. This superiority is accounted for in the use of malleable iron, to which the sheet steel is riveted, not bolted. Only in this way can absolutely air-tight joints be made. Ordinary ranges are made of cast iron. Such ranges are fasteners, because it is impossible to make tight joints without the use of stove putty. In time the putty hardens and falls out; outside air leaks in, through every seam and joint, and it takes twice as much fuel to keep up the fire.
