Of Interest To Women.

To such women as are not seriously out of health but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to sursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeons' knile, would it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. ## PYROLINGUAL SECT THA IS AMUSING SALEM

Zealots Who Gibber, and Claim That They Have Gift of Tongues.

(Special Dispatch to The Journal.)
Salem, Or., Dec. 4.—The evangelistic meetings held here under the auspices of the Pentecostal mission are contin-uing with unabated vigor. Such a "re-

uing with unabated vigor. Such a "revival" has never been known here before. Not that it is large in its scope or in the number of its converts, but rather for the radical and eccentric displays of religious enthusiasm incident to warning the ungodly.

Every afternoon and night for several weeks past the "Tongues of Fire" have held forth at the mission on tweifth street, and on account of their peculiar anties hundreds, moved by curiosity, throng the hall almost to suffocation each night. Sunday night the crowd was the largest that has ever attended the meeting. All classes were represented, and business men, lawyers, workingmen, students, "society" people and judges jammed the hall.

The meetings at their inception were

The meetings at their inception were led by two workers from Los Angeles, who assisted Rev. L. M. Ryan, pastor of the mission, but since that time ad-ditional workers have arrived from Cal-ifornia points, where the "Pentecostal Apostolic" faith has numerous adher-

This speaking "in tongues" comes only to the "saints" at special times when fired by the spirit.

The Los Angeles fire-tonguers who

are here all claim to possess the gift, but none of the local apostles have as yet been sufficiently imbued with the spirit to acquire the gift, for which some of the ardent members of the sect are praying daily and throughout most of the night.

No Color Line Here

Among the workers from abroad are two negre women, who harrangue the crowds with sermons in slang and in commonplace, almost vulgar, language. The talks of these colored women are great drawing cards, and the congrega-tions almost go into hysterics of laugh-ter at their intensely literal interpre-tation of Bible texts.

A recent arrival, a negro woman, claims she was the first to get a vision from the Lord of the destruction of San Francisco. Last night she recounted how she arose from a sick bed and told her husband of her vision and then went limping on the streets of San Francisco, warning people of the impending doom.

Claim Healing Through Prayer. On account of the great press of the people and the noise, the altar meeting had to be abandoned last evening. Still the crowd remained in the hall, awaiting the peculiar demonstrations of these fanatical people, who pray loudly and shout and jump and roll on the floor.

Finally Rev. Ryan stated that the meeting could not continue, and that

meeting could not continue, and that the lights would be put out. The crowd then dispersed. The workers of the mission claim that several persons afflicted with diseas have been healed through prayer.
