CONGRESS DEBATE IN RECIPIROCAL CONCESSIONS GIVE PRESIDENT POWER

Discussion Will Bring Before Country Question of Changing Schedules to Enlarge Foreign Trade Through Foreign Agreements.

(Washington Bureau of the Journal.) Washington, Jan. 2.—Everybody expects a tariff debate to begin in congress after the holiday recess is over.

There is keen curiosity also as to what the president will say in the message with which it is understood he will transmit to congress this report upon the commercial relations between Germany and the United States.

Congress is very jealous of its control over the tariff, and up to this time much doubt has been expressed whether the legislative branch of the government would consent to give the executive the authority to reduce duties within a limit of 20 per cent.

HUNTS AND FINDS RADIUM THROUGH PHOTOGRAPHS

Six Thousand Dollars Worth of Substance Recovered by Aid of Negatives.

(Journal Special Service.) New York, Jan. 2.—The peculiar properties of radium enabled George H. Pogram, instructor of physics at Columbia university, to recover recently \$6,000 worth of radium salt.

REFUSE TO INSURE LIVES OF NEGROES

(Journal Special Service.) New York, Jan. 2.—The increased death rate among negroes is the reason given by the Metropolitan Life insurance company for refusing to accept more applications for policies from them.

CARAMEL HAZARD

I Will Make Millions—Invest With Me—If You Want to Share With Me You Must Come Quick—Your Money Will Grow Into Thousands

I run a machine shop and brass foundry in Minneapolis. I did the repair work for the Electrical Street Railways of St. Paul and that city. I was so successful as a mechanic and electrician in this repairing that I was requested to change every dynamo put in by the General Electric Co. I saw all the troubles of the street railway managers. I found the present system of running streetcars was entirely wrong.

I Have at Last the Greatest Invention of This Century

It will remodel the whole railroad business. There is not a railroad in this country but that will be later be compelled to adopt my system, because it is cheaper, faster, safer and more money-making than any other system.

You'll Have to Be Quick to Get in Before Next Advance

To prove that you will get a square deal I have had the following contract printed on the back of every certificate:

All or any shares of the capital stock of the Leffler Electric System will be redeemed by it at par or face value up to, and including, the 10th day of MAY, A. D. 1923, upon written notice properly given to said company at its executive offices in Chicago, Illinois.

THIS CONTRACT MEANS That this company will pay you full face value for every share of stock you buy out of the royalties paid by railroad companies using my system.

EVERY SHARE ON THE SQUARE Every share of stock in our company is on the square. Not a dollar's worth of the stock will be sold which does not represent exactly the same value in cash.

WHAT EXPERT ENGINEERS SAY I am not the only one who thinks this is the most perfect, simple, cheap and comfortable system.
