

"Eclipse" Steel Range

\$1.00

Place it in Your Home

Seven Chief Points of Superiority

- Quick Baking with small consumption of fuel.
- Simplicity of Management—no complicated flues or dampers.
- Sliding damper, which admits of perfect control over oven.
- Broiler ratchet, an unrivalled convenience for broiling or toasting over coals.
- Front grate, which admits of perfect and complete draft upon entire length of fire.
- Scientifically proportioned oven, which guarantees thorough and rapid baking. This is the main secret of its success. Be sure to investigate this feature.

Three walls—outer and inner wall of rolled planished steel and middle wall of thick asbestos. Most cheap ranges have but one wall of steel.

"Eclipse" Steel Range

Why is the "Eclipse" Best?

The secret of the success of the "Eclipse" as a baker becomes no secret at all after a little investigation. It all lies in the fire box and oven proportions.

The fire box area is just about ONE-FIFTH that of the baking (or oven) area. Most other ranges on the market have fire boxes a great deal smaller in proportion to the oven—about ONE-EIGHTH.

It requires no great knowledge of mechanics to understand that the larger the fire box attached to an oven the quicker that oven will be heated to the baking point.

And there you have the true reason of the great success of our range.

The "Eclipse" oven is built on scientific principles—the principles underlying hot air furnace and locomotive or steam engine construction. All manner of heating devices and apparatus are mathematically figured according to certain known laws of heat.

In the hot air heating furnace, one cubic inch of fire box capacity will heat one hundred cubic inches of hall space. That is, the ratio is 1 to 100. Radiators are installed upon this basis.

NOTE THE DIFFERENCE

—Other ranges on the market have a fire-box and oven ratio of 1 to 8, which gives a fireplace too small to properly heat the oven. Hence, the complaints of "slow baking" our competitors have to listen to.

Now the heating capacity of the fire box in the "Eclipse" Range is fully 1 to 5.

AND THAT IS THE SECRET

Of its great success as a baker. The fire-box is built on the right proportion to the oven.

Free Luncheons Served to Everybody Tomorrow, 10 a. m. to 5 p. m

Come in and partake of the dainties and learn the secret of the great success of the "Eclipse" Steel Range. No other range is its equal as a quick baker. It costs little money, saves your fuel bill and will last a lifetime.

Come, Let Us Be Sociable

If you already have an "Eclipse" come in and tell us how you like it. If you have it not, then let us tell you of its superior points over all other ranges.

Sold on Easy Payments

The "Eclipse" is sold on easy payments—\$1.00 down with the order, and then \$1.00 a week until the entire cost is paid, and it is sold at a lower figure than any high-class range on the market.

\$1 IN CASH

As a guarantee of good faith—that you really mean business—secures one of our great "Eclipse" Steel Ranges. We deliver and install the "Eclipse" in your kitchen for that one dollar; then, if the range proves to be all we claim for it and is perfectly satisfactory to you, then you pay us a dollar a week.

GEVURTZ & SONS

THE HOME FURNISHERS

173-175 First St.

219-227 Yamhill St.

\$1 A WEEK

It costs us about \$5.00 to deliver and install an "Eclipse" Range, but our confidence in the "Eclipse" is so great that we are perfectly willing to entail this trouble and expense for ONE DOLLAR. We know our range and are confident that you will be glad to keep it, once you try it, and pay us a dollar a week.

WILL DIG GOLD OUT OF SHIP

Syndicate Formed to Recover Treasure From Hold of Long-Lost Golden Gate.

OVER MILLION DOLLARS THE PRIZE SOUGHT

Vessel Was on the Way From San Francisco to New York With Bullion, and Was Wrecked Off the Coast of Mexico.

(Journal Special Service.) New York, Jan. 7.—A special to the World from Manzanillo, Mexico, says: A vessel has just arrived here from San Francisco, having on board B. F. Richardson of Philadelphia, J. E. Phillips of Denver, Colorado and S. E. Phillips of Danville, Illinois. They are members of a syndicate that is financing operations to recover treasure said to lie in the hold of the American vessel Golden Gate, which was wrecked off the

coast of Mexico about 50 miles southeast of here.

The vessel was beached in a terrific storm in 1861. The tops of the masts are still seen a few feet above the surface. The vessel is said to have carried about \$2,000,000 gold in bullion and coins, which was being transferred from San Francisco to New York. The owners of the vessel recovered bullion to the amount of \$300,000 from the hold in 1862.

Salvage operations that time were in charge of J. H. Johnston. His brother, C. W. Johnston, organized the present expedition, and is directing the work. A storm stopped operations in 1882, and filled the hold with sand. The present expedition is well equipped, and it is believed the treasure will be located.

AURORA'S FIRST LEVY FOR CITY PURPOSES

(Special Dispatch to The Journal.) Aurora, Or., Jan. 7.—At the last meeting of the city council an ordinance was passed making a tax levy of 2 1/2 mills on the dollar on valuation as taken from the county assessor's books. The money obtained is to be used for general municipal purposes. This is the first time in the history of the city that a city tax has been levied, all the expenses of the city heretofore having been paid by the license money, \$1,300 obtained from the three saloons here.

Aurora Water Works. (Special Dispatch to The Journal.) Aurora, Or., Jan. 7.—Work on the city water works system is progressing nicely, and the wall borers are now down about 100 feet, having made quick work since starting. It is proposed to go at least 200 feet in order to get a good flow of water. The council has not yet decided what kind of a storage system they will install, whether an air-pressure tank or an elevated tank. The air-pressure proposition seems to meet with the most favor, as the water can be kept in better condition for domestic use.

M. W. A. Officers at Enterprise. (Special Dispatch to The Journal.) Enterprise, Or., Jan. 7.—At the last meeting of the Modern Woodmen of America the following were elected officers: Consul, J. G. Rennie; adviser, W. J. Putnam; banker, E. E. Rodgers; escort, H. M. Flowers; sentry, E. E. Flowers; watchman, F. J. Chauvet; clerk, Thomas M. Dill.

MACHINE SHOP AT ROSEBURG

Land Purchase by Southern Pacific Explained on This Supposition.

SIXTY-FOOT STRIP NEXT COMPANY'S ROUNDHOUSE

Valuable Mill Property Bought to Clear the Ground—Negotiations Pending for More Than a Year—Ground to Be Vacated Soon.

(Special Dispatch to The Journal.) Roseburg, Or., Jan. 7.—For \$5,000 the J. G. Flook company, consisting of W. L. and J. G. Dyringer and Elias Rhodes, have sold the half acre of ground on which their planing-mill stands, to the Southern Pacific company. The land is situated on lower Mosher street and abuts upon the site of the Southern Pacific company's new brick roundhouse. Negotiations for the transfer have been pending for over a year, terminating today, when the purchaser closed the deal through its agent, J. W. Morrow.

The Flook company is to move its mill and machinery off the premises within the next 30 days. W. L. Dyringer stated this afternoon that his company had not yet selected a new location for its mill, but had several sites under consideration. It is believed the land just bought will be the site of a large machine shop to be annexed to the new roundhouse. Several months ago it was semi-officially announced that the company had planned to build a machine shop here, but that the project was being held in abeyance pending negotiations for a suitable location. This requirement, however, is now thought to have been met by the deal just closed with the Flook company, and

official announcement to this effect is expected within a short time.

With this deal ends the controversy over the extension of Flint street, commencing at the Flook company's mill and running through the Southern Pacific company's property back of the roundhouse to Joseph Mitchell's premises opposite the brewery. In order to open this extension it was necessary to secure the 60-foot space between the Flook company's mill and the W. L. Dyringer property. On petition of the Southern Pacific company the city council several months ago appointed a board of viewers to appraise the damage, and this board awarded the Flook company \$250. This sum the Southern Pacific company refused to pay, and condemnation proceedings were threatened. The matter is now ended by the Flook company executing a separate right-of-way deed for a street through the 60 feet involved.

WEEK'S INSTALLATIONS IN AURORA LODGES

(Special Dispatch to The Journal.) Aurora, Or., Jan. 7.—The following lodge officers were installed in this city in the past few days: "Una temple, No. 26, Rathbone Sisters—M. E. C. Alice Roth; E. S. Nora Miller; E. J. Art Stahl; M. of T. Alma Will; M. of R. and C. Lizzie M. Will; M. of F. Thille Wehert; P. of T. Thille E. Fry; G. of O. T. Emma Snyder; organist, Anna Will; trustee, Clara Will. Aurora Lodge, No. 58, K. of P.—P. C. A. H. Kraus; prelate, L. I. Snyder; M. W. G. W. Fry; K. of R. and S. E. A. M. Fry; M. F. L. Wehert; M. E. E. J. Snyder; M. A. H. Berkamp; outside guard, A. F. C., Frances Ryan; T. C., Frances Mercer; R. K., Ella Feller; E. K., Anna Scheurer; chaplain, Mary Dawson; sergeant, Alice Maycock; M. at A., Bertha Mathison; sentinel, Ellen Woolworth; picket, Violet McCully.

URGES WORK FOR Y. M. C. A. BUILDING FUND

Richard C. Morse Delivers Enthusiastic Address at Men's Meeting Yesterday.

Richard C. Morse of New York was the speaker at the afternoon meeting at the Y. M. C. A. yesterday and urged upon the members the necessity of raising funds for the proposed new Y. M. C. A. building. Mr. Morse is general secretary of the International committee of the Y. M. C. A. and has been associated with the committee for nearly 40 years. He is on his way to Japan, where he will take part in the world student conference that will be held under the auspices of the mikado next summer.

Mr. Morse said that there are now 2,000 branches of the Y. M. C. A. in this country and that the association has more than 50,000 men on special committees. There are more than 400,000 members who own 550 buildings valued at \$5,000,000. He said that the committee had been offered \$5,000,000 for the improvement of these buildings and speaking along this line, Mr. Morse said:

"I do not consider the Portland Y. M. C. A. building adequate for the work that is being done here.

"The papers of the land have told of the large growth of the country during the past year, but I believe there has been a larger percentage of growth among the various bands of the Y. M. C. A. than in any other line.

"The railroad owners have told us that if we would eliminate the word 'Christian' from the name of the association they would donate large sums of money for the work. We have not heeded their advice, yet they have given us lately \$350,000 for our work in the various railroad terminals of the country."

Architects Meet at Capital. (Special Dispatch to The Journal.) Washington, D. C., Jan. 7.—Several hundred members of the American Institute of Architects gathered at the annual meeting and semi-centennial of the organization. Of the members living who joined the society during the first

CUTS THAT ARE WORTH ALL YOU PAY FOR THEM

HICKS-CHATTEN ENGRAVING CO. 20 years of its existence there are but 51. A bronze tablet is to be unveiled commemorating the founders, and a gold medal is to be given to Sir Aston Webb, president of the Royal Institute of British Architects, for his achievements as an architect.

Wednesday night the convention will conclude with a grand banquet at the New Willard. President Roosevelt, the members of his cabinet, foreign ambassadors, senators and representatives in congress will be the guests of the society.

PENDLETON DEGREE OF HONOR OFFICERS

(Special Dispatch to The Journal.) Pendleton, Or., Jan. 7.—Magnolia Lodge, Degree of Honor, has just installed officers for the ensuing year, as follows: Past chief, Lottie Gillette; chief of honor, Laura Tweedy; lady of honor, Augusta Koy; chief of ceremonies, Ella Ross; recorder, Nellie McGee; financier, S. J. McHain; inside guard, Emma Minger; outside guard, P. C. Peterson; usher, Anna Weber. The ceremony of installation was conducted by installing officer B. J. McHain, assisted by Emily Sloan, past chief of honor of Greenleaf lodge, Albina, Oregon.

Shingle Weavers' Convention. (Special Dispatch to The Journal.) Bellingham, Wash., Jan. 7.—Delegates from half a dozen states are attending the annual convention of the International Shingle Weavers' union. The reports of President Joseph C. Bolzer and other officers show the past year to have been one of gratifying gains for the union. Plans will be discussed for more thoroughly organizing the shingle weavers of British Columbia and Oregon, and in the state east of the mountains. At present the membership is confined largely to the state of Washington.

Farmers, mechanics, railroaders, laborers rely on Dr. Thomas' Eucalyptic Oil. Takes the sting out of cuts, burns or bruises at once. Pain cannot stay where it is used.
