ODAY'S MARKETS

Notable Decrease is Shown in Demand for Package Brands of Coffee in the Pacific Northwestern Markets in the Past Season.

PACKAGE COFFEES DISAPPEAR

Demand Is Decreasing at Rapid Pace in All Pacific Coast Markets.

ROASTING PLANTS ARE SHOWING HEAVY INCREASE

Continues in Chicken Market and Prices Are Very Fire Unchanged - Delayed Bananas Arrive Overripe.

Exit the Fackage Coffees.

Of late there has been a notable decrease in the consumption of package brands of coffees on the Facific const, and especially in those centers near to the large cities. At this time the demand for package brands is so small that a change in quotation in that line does not interest the trade to any extent, while a few years ago package coffees were as staple as sugar and swery change in value was eagerly anticipated by the retail as well as the jobbing trade. Hence for this great change in the package coffee situation is the heavy increase in bulk asion and the opening up of many new places where coffee is roasted. Bossted coffee is being purchased in bulk and cans more than ever. The trade in timed coffee is showing a vast increase over that of a year of two ago. The fact that coffee is this does not deteriorate in quality is in all probability the reason for this new condition. In former years the sales of unreasted coffee were very beavy to this section, but the business of coasting the beans has been developed so extentifically that few people care to buy the green groduct and roast it themselves.

Coffee Production Is Heavy.

Production of coffee shows a heavy increase during the past season. According to the San Francisco Commercial News, the latest advices from Contral America concerning the coffee situation are decided in reference to the large yield of last year over 1905. Violent and unseasonable atorms have occurred in that region, and a delay of 10 days to two weeks in delivery has resulted in consequence. The large increase in the yield is undoubted, and the quality of the new crep is fully equal, if not superfor to that of 1905, it is said.

Pacific Mail advices are to the effect that the crop of Guatemala will be fully 550,000 bags, and Costa Rica 500,000, a total of 1,000,000 bags, or about 400,000 bags larger than in 1905.

300,000 and Costa Bica 500,000, a total of 1,000,000 bags, or about 400,000 bags larger than in 1905.

Of the fotal San Francisco expects to handle from 330,000 to 400,000 bags, and of the balance 500,000 bags will be shipped to New York and the rest to European markets.

The first coffee cargo of the year is due to arrive on the 12th last, by the steamship Feklar, which has been greatly delayed on passage. The steamers Artec, Indiana and Barracouts will follow during the season.

The new pure food law will make quite a difference to the branding and sale of coffee by the jobling trade, but until a new state haw is emacked will cut no consideration with the trade within the state. Interstate orders for Java coffee must be coffee that is grown in Java and no other place, and it will be noted that higher prices will rule for the guaranteed variaties.

Egg Market Stiffens Again.

Weak Tone in Flour Market. Considerable weakness is reported in the flour market locally on account of the extreme low price for wheat and the duliness in that market. Oriental business remains on a small seals with prices (ecidedly easier, though un-

changed.

Coarse grain markets are firm but unchanged.

Hay is firmer with supplies small. Scarcity
of cars the feature in ...is market.

Brief Notes of the Trade.

Several cars of banancs which were due to
arrive in several days ago came in resterday
in a rather ripe condition.

in a rather ripe condition.

Potato market is firm, though rather quiet. Scarcity of Cars.
A few orders have been received from the outside for onlous. Couldn't be accepted. No

Hop market is quiet, but inquiries from the cast are more frequent. Better movement in oranges and apples. Latter market would find demand for better qual-Cabbage market galaing in firmness with supplies controlled by a few large growers who keep the market quite bare.

The trade pays the following prices to Front attect. Prices paid shippers are less regular

GRANT COUNTY SHEEP

Inspector Reports a Great Many Head Now Held in County.

(Special Dispatch to The Journal.)
Canyon City, Or., Jan. 7.—George Irvin, stock inspector, has filed his report on stock conditions in Grant county for the year 1908, which shows that during the year there have been sold and expected from the county 75.751 sheep and there now remain in the county 198.687 sheep. There have been seven bands of scabby sheep in the county during the year, all of which have been dipped. A few cattle have been killed on account of lumpy jaw. Otherwise the cattle and sheep are in fine condition.

HEAVY WOOL CLIP

Estimated That Harney and Mal heur Have 4,000,000 Pounds.

(Special Dispatch to The Journal.)
Vale, Or., Jan. 7.—It is estimated that there
are over 70,000 head of horses, \$50,000 head of cattle and 500,000 head of sheep ranging in the territory comprising the counties of Harney and Malheur. The wool cilp is esti-mated at about 4,000,000 pounds a year.

SHEEP TRADE AT HEPPNER

Morrow County Man Buys 1,470 Head at Good Values.

(Special Dispatch to The Journal.)

Heppings, Or., Jan. 7.—Mr. Fawnsworth of this place has bought 1,470 head of sheep from Mr. Kennedy of Monument, about 900 of which are even and rest lambs. The price paid was \$3 for lambs and \$3.50 for ewes.

BROOKLYN SEWER WORK PROGRESSES

Will Be Largest in Portland and Among Largest on the Pacific Coast.

Good progress is being made on the Brooklyn district sewer, which, when completed, will be the largest in Port-land and one of the largest city drainage aystems on the coast.

The heavy rains of last week softened

the earth over the tunnel so that some eight square feet of dirt settled down on the roof timbers at East Nigth street. As the timbering had been made amply however. The contractors, Gjebisch & Joplin and Paquet, say this will not interfere with the progress of the work in the least.

The tunnel, whose diameter is 10 feet runs from the river at foot of Taggar

NEW YORK VALUES ARE

DESCRIPTION.

C. A. Bigelow, advertising manager for W. H. Markell & Co., 121-128 Grand avenue, says that their general clearance sale, just beginning, will af-ford some of the greatest bargains ever secured in this store. Being out ever secured in this store. Being out of the high rent district, this store always offers very low prices. Increased business is demanding larger quarters so insistently that the new building on East Morrison and Union streets will be rushed with all possible speed. Excavating has just been begun, but it is hoped to have it finished by spring. It will be a two-story brick, 100 by 100 feet, and the tory brick, 100 by 100 feet, and the store will occupy the larger part of

"We simply must have larger quar-tera, said Mr. Bigelow. "The growth of business has been tremendous."

Mr. Strowbridge, of the Strowbridge Mr. Strowbridge, of the Strowbridge
Hardware company, 124-126 Grand
avenue, has added several new lines to
his regular stock, comprising cutlery,
wall papez, building materials, household goods, stoves, etc. The store is
large, light and pleasant, and gives
svery evidence of being well up in the
prosperity procession. "We are doing a constanty increasing business,"
said Mr. Strowbridge.

Dispatch the Cymeric

H. M. Lambert, assistant cashier of the Citizen's bank, 110 Grand avenue, says that deposits have mounted up amazingly the past year; people are evidently not spending all they make, in spite of the records of shopping activity at the stores. The Citizen's bank added its savings department last year, and finds this a success especially among women, girls and little children who take a great interest in owning one of the tiny banks and getting it filled with coins, then carrying it to the bank to be opened and added to their account. H. M. Lambert, assistant cashier of added to their account.
"Nothing breeds a love of saving like

Nothing breeds a love of saving like starting a savings account," said Mr. Lambert. "When one gets a few dollars in the bank he finds a constantly growing delight in increasing the board, adding to it little by little. The habit of saving induces a healthy spirit of thrift and responsibility."

MOTHER AND CHILD **BURIED TOGETHER**

runs from the river at foot of Taggart street, 1,600 feet eastward to East Tenth street. It passes under the riverside bluff at an extreme depth of 75 feet leep has been sunk, and gangs of men are working east and west from this shaft. Much of the tunnel must be cut through hard cement gravel, and though the excavation is slow this gravel forms an excellent roof, and the danger of cave-ins is minimised.

The funeral of Mrs. C. H. Labbe and infant son was held yesterday afternoon at 1:30 at the residence of her noon at 1:30 at the residence of her parents. Mr. and Mrs. John F. Bradley, Mrs. Labbe was the wife of C. Henri Labbe, the French consular agent, and an attorney of this city. The funeral was conducted by Rev. Ben Exra Stiles-Ely, Jr., pastor of the Calvary Presbyterian church, assisted by Dr. J. R. Wilson, principal of the Portland academy, of which institution Mrs. Labbe was a former teacher.

The funeral was attened by repre-sentatives of all the French ships in the harbor, the flags of the vessels being kept at half mast in respect to the dead. The pall bearers were; R. A. Leiter, Frank Wilmot, Dr. Herbert Nichols, John K. Kollock, Fred Strong and John Bain. The interment at Riverview cemetery.

Officers of Long Creek Masons.

Officers of Long Creek Masons.

(Special Dispatch to The Journal.)
Long Creek, Ort. Jan. 7.—The following officers have been installed for Long Creek lodge No. 20, A. F. & A. M., for the ensuing year: P. P. Kilbourne, worshipful master; G. M. Robertz, senior warden; W. H. Shank, junior warden; Frank Kahler, secretary; T. F. Hail, treasurer; Frank McGirt, tyler; Orin Ledgerwood, senior deacon; W. W. Dunlap, junior deacon; S. P. Fanning, senior steward.

Experiment or take chances of any sort. I sitempt to cure only those diseases that I have been curing for the past sixteen years, and I believe I am justified in saying that I have learned all about them. Were I lacking in knowledge pertaining to my speciality I would never have attained my present success, nor would I today be recognized as the leading specialist treating men's diseases. It afflicted, you can depend upon it that the service I offer you is the service you need, and is service such as can be rendered by no other physician.

My practice is the largest because

Under my treatment the most aggravated cases of varicocele are cured in a few days' time. There is no pain, and it is seldom necessary that the patient be detained from his eccupation. Normal circulation is at once restored throughout all the organs, and the natural processes of waste and repair are again astabilished. If you are afflicted with varicocele, consult me at once. Delays can but bring on aggravated conditions and nervous complications that will impair the vital functions and involve the general health.

Contracted Disorders

In the treatment of disorders I offer a service such as no other physician can render. The remedies I
employ have a most thorough and
positive action in cleansing the membranes of all infection and subduing
all inflammation. My manner of appilcation insures absolute thoroughness, and removes every possibility
of relapse or a chronic stage. My
cures are not only thorough, but are
accomplished in the briefest time
possible.

You Pay When CURED

Consultation Free

IAM NEVER IN DOUBT

I am never in doubt as to what the results from my treatment will be. Day after day for sixteen years I have been curing case after case of the several diseases peculiar to men. No case comes to me now, the like of which I have not treated scores of times in the past, and I can always say definitely whether I will be able to effect a permanent cure. I never hold out false hopes or make promises that I cannot fuffil, and you can rely absolutely upon any encouragement I may be able to offer you. If I promise you a cure, a cure will follow.

"WEAKNESS"

I cure functional weakness in men. I know of no other physician curing this aliment. Most doctors treat wrongly. They give stimulants and tonics. These things can't cure. "Weakness" is a symptom of prostatic disorder, and the treatment must be local. This is a truth that I myself revealed. I have perfected the only system of local treatment that cures "weakness." A few doctors over the country claim to cure by the same method, but their treatment is only an imitation of the genuine Taylor method. The genuine is here and is administered by its originator. Don't hope to find it alsewhere.

Specific Blood Polson

No dangerous minerals to drive the virus to the interior, but harmless, blood-cleansing remedies that re-move the last poisonous taint.

Dispatch the Gymeric From Portland.

Still another large tramp steamer will be dispatched for the Orient from this part during the next few weeks with a full cargo of breadstuffs. Frank Water-

orders.

Not long ago the above named shipping firm chartered the British steamers Aymeric and Suveric to load here for ports in the Orient. The Suveric is due

ports in the Orient. The Suveric is due to arrive here any day from San Francisco to load, and the Aymeric is expected to follow shortly. The Suveric is the largest of the three carriers, but either of them can get away with at least \$,000 tons of freight.

The demand for flour and wheat in the Orient is unusually heavy, and said to be on the increase, and it is predicted that a large number of cargoes will be sent from here before the end of the season. Japanese steamers, too, are in the field carrying away the product of the fields, and indications are that the wheat shipments to the Orient this year will far exceed all former records.

day afternoon in search of her tow. She will probably experience considerable difficulty in finding the bark, ever if she is affeat, because of the uncer tain currents and the varying winds.

HAD ROUGH VOYAGE

Harriman Freighter Aztec Is in Port From San Francisco. The Harriman freighter Astec, cap

tain Frazer, arrived at Alneworth wharf yesterday morning and is now loading for her return trip. The officers report a very rough voyage coming north, and they say the steamer rolled fearfully because of being almost light, with only 750 tons of freight on board.
In speaking of the voyage one of

full cargo of breadstuffs. Frank Waterhouse & Company this morning announced that the British steamer Gymeric will be sent here from Seattle to
load wheat, flour and general cargo for
ports in China and Siberia. The Gymeric arrived on the sound Christmas day,
and has been there since then awaiting
orders.

Not long ago the above named shipning firm chartered the British steamers
ning firm chartered the British steamers
over the rail and swept the decks clean. The bar was a perfect sea of milk when the steamer crossed in.

The Astec will probably remain in the harbor all of this week.

the field carrying away the product of the fields, and indications are that the wheat shipments to the Orient this year will far exceed all former records.

SEARCHING FOR TOW

Tug Samson Starts Out to Find Bark
Big Bonanza.

News concerning the fate of the American bark Big Bonanza is awaited with deep interest. Nothing has been heard of her since she was let go by the trug Samson off the Oregon count during the storm of last Thursday. The tag put into Marshfield Saturday for a few minor repairs, and her officers reported having had to let go her tow in order to save the tog, which was in constant danger of being swamped by the tramendous seas.

The Big Bonanza was being towed from San Francisco to the Columbia river, where she is to load lumber for a return cargo. Luckily, she was in and Coos Bay this evening. In her cargo is included three earloads of ralls for the new electric line to be built eat of how with ballast, however, it is feared down with ballast, however, it is feared that she might have turned turils.

The Bamson left Marshfield yester-

The schooner Gardiner City arrived in the harbor today and dropped anchor in the stream. She will be towed to the O. W. P. wharf this afternoon to load humber for San Francisco.

The Portland dredge has completed its work in the channel between Vancouver and the mouth of the Williamette, and will be inid up for some time for repairs. The dredge Columbia is finishing deepaning the channel at Slaughter's bar in the lower Columbia.

The San Francisco at Portland Steamship company's steamer Columbia sailed for San Francisco last night.

Bids for the repairing of the derelict British bark Melanope have been received and opened but no award of the contract was made. Prices ranged from \$25,000 to \$27,500. While the lowest bid was not considered exhorbitant, in all probability the wreck will be thrown back on the hands of the underwriters and the owners will collect from them. The insurance people will also settle with the owners of the steamer Northland.
