

# ONLY PLUMBERS GREET ICE KING PLEASANTLY

### Everybody Else Wonders Why Hot Bricks Are Not Really Hot, and Why Warm Cloths Will Not Bring Any Water From the Kitchen Faucet.

Did you go downtown this morning without washing your face, and why? Was it because the pipes were all frozen and there was no water to be had, or was it because the cold chills that chased down your back when you viewed a pitcher full of ice overcame your will power and you got over the washing habit until the temperature moderated? Anyway, there was many a guilty-looking unwashed face this morning, and the small boy—the boy who will some day perhaps be at the head of the city water department—was tickled to death when his physiognomy escaped the daily scrubbing.

It was a night of flat-irons, hot bricks and water bottles, and even the best of these radiated but cool sympathy towards the cold, gray dawn of the morning. Even the electric light globe held away as a disseminator of warmth to the sorrow of a lumber dealer of Astoria, who, sinking blissfully to sleep with the bulb at his feet, awakened shortly afterwards to find himself warmed most of the way through by the fire which was consuming the bedclothes. Later he reversed conditions and applied ice compresses to cool the burns. The arctic atmosphere was then balm to the overheated spots on his anatomy.

"FIGHTING THE CHICAGO BEEF TRUST"

# LOSING JOBS FOR CHRIST

### Unjust Steward Exemplifies Some Latter-Day Conditions and Some Modern People.

## SUBJECT OF DR. BROUGHER AT THE WHITE TEMPLE

### If Personal Gifts Are Not Employed in the Service of the Master Duty Is Being Shirked by Stewards of Present Day.

Under the subject, "How He Lost His Job," Dr. Brougher preached Sunday morning on the parable of the unjust steward, with particular reference to the words of the text, "Render an account of thy stewardship, for thou canst be no longer steward." He said: "The principles laid down here could be applied to secular life. My subject is 'Why He Lost His Job,' and as you will see that the principles that apply to our losing our stewardship in the service of Jesus Christ will apply equally well in the losing of our positions in the service of men in the world of business.

"This parable shows very distinctly that there will be a time of reckoning; that we are stewards in this world, and that what we have is to be used for the purpose for which God gave the goods to us. The gifts that we have are to be used for the development of a Christian character and the establishment of God's kingdom in our lives and in the world.

**Use Your Gifts.** "Let us note some of the gifts that the Lord has bestowed upon us to be used. If you have the gift of song, God gave it that you might make the world better. If you were given the gift of conversation, it was for the purpose of talking for Jesus Christ. If you were given the power of personal attractiveness, of strong personality and magnetism, these were for the distinctive purpose of winning men and women to Christ. Our personal influence is to be used to lead men into a better life, and not to a wrong life. There is not a man or woman before me who will not have to stand before God and face the record of how your influence has been used. It makes no difference what the gift may be, you must stand and face the responsibility that God has placed upon you. Are you using or wasting your gifts? Answer this by another question, How far have you been put out of the stewardship? If you have lost your influence and power to win men and women to Christ, you have been put out of the stewardship. We must face the solemn question, Are we losing this because we have become indifferent and unconcerned?"

## LINN COUNTY GRANGES DEMAND OPEN RIVER

(Special Dispatch to The Journal.) Albany, Or., Jan. 14.—The granges of Linn county are thoroughly alive on the subject of forcing legislation along the lines of having the locks at Oregon City opened and the extra tollage now exacted from the shippers eliminated. The organizations throughout the county have generally discussed the matter and passed resolutions favoring the acquisition of them by the state or the federal government. Regardless of expense the residents and the members of the farming class feel that this should be done, and that its carrying out would materially add to the prevailing prices of products and lessen the prices on heavy commodities which they have to buy. The Linn county council has expressed itself in very decided terms, and many other organizations are taking up the fight with a determination to have something definite accomplished.

"Dean's Ointment cured me of eczema that had annoyed me a long time. The cure was permanent."—Hon. S. W. Matthews, Commissioner Labor Statistics, Augusta, Me.

**THE FIRST NUMBER.**

The first of the series of 15 beautiful popular songs to be issued in connection with The Sunday Journal, commencing on January 20, will be entitled "Like I Love You." This is a beautiful little love-song, with an extremely catchy air. It is from the pen of those well-known and clever song writers, Joseph S. Nathan and Harry Gordon, and is considered one of their most popular hits. No music rack should be without this clever song, and you cannot afford to miss one of the series.

Subscribe for The Journal at once, so that you can take advantage of this exceptional music offer, which starts next Sunday and continues for at least 15 weeks, a sheet of music accompanying every copy of The Sunday Journal. Order The Journal and get a sheet of music every Sunday.

## DEVIL IS NOT REPULSIVE

### Does Not Spend Time Jabbing Pronged Spear Into Victims.

"The devil is a gentleman. Should you look for him in the red-light district or where a murder has been committed you would not find him. He inhabits the home of culture, the home of wealth, the home of the man of genius." This startling statement was made in the pulpit of the White Temple last night by Rev. F. E. Dark of Beatrice, Nebraska.

The devil is a real entity, said Rev. Mr. Dark, but he is not the imp of darkness such as he has been painted throughout all the ages. He wears neither a pair of horns nor a barbed tail. His body is not red and his countenance is not all repulsive. He does not stand beside a glowing pit all day jabbing his three-pronged spear into the breasts of his howling victims as they are brought up one at a time, and then hurling them over the precipice.

## TRUE COIN MIRACLES

### Father O'Hara Says Counterfeits Possible Because of Real Wonders

"Throughout the gospel narratives we find accounts of the miracles of Christ inseparably connected with the sacred history. The miraculous is part and parcel of the narrative. The gospels stand or fall with the authenticity of the miracles they record." So said the Rev. Father E. V. O'Hara in the course of his sermon at St. Mary's cathedral last night. Father O'Hara took as his subject "Miracles of the Gospel." He said the miracles withstood the most searching historical criticism.

miscellaneous without examination. That there have been many counterfeit miracles does not discredit all such accounts. Rather, the counterfeits would never have gained currency if there had not been true coin in circulation.

## Y. M. C. A. HOME AT PANAMA

### Government Officials Approve of Conversion of De Lesseps' Palace.

"Four buildings will be erected by the Y. M. C. A. on the lethargus of Panama for the benefit of members in the canal zone," said J. R. Thompson, international secretary of the association, in the course of an address upon the work of the year yesterday. Mr. Thompson, who arrived from Washington, D. C., Friday, addressed the members of the local branch of the Y. M. C. A. at a luncheon yesterday afternoon. He said that when it was proposed to erect branches on the Isthmus an investigation was made at Washington, and he learned that success was assured. Government officials favored the movement. The De Lesseps palace was donated to the association and work was actively begun.

Of the work in the United States, Mr. Thompson spoke encouragingly. A building has been erected at Proctor, Vermont, by the Vermont Marble Workers for the exclusive use of its employes. At Wilmington, Pennsylvania, the Westinghouse Airbrake company has erected and donated to the association a building worth \$110,000. The Northwestern Improvement company of Roslyn, Washington, helped to organize a coal miners' association and provide a building for their use. The company pays for the light and heat and also the salary of the secretary. The lumbermen at Raymond, Washington, have asked Mr. Thompson to establish a branch there. They have agreed to pay one-fifth of the cost of the building. At the Tacoma smaller the association has a large building, and Mr. Thompson says good work is being done among the smelter employes.

## GREAT CHANGE COMING

### Socialist Speaker Declares Revolutionary Movement Is On.

"The capitalist is simply a parasite on society, consuming the product of other men's toil and producing nothing," declared E. H. Holman in his lecture on "The Fundamentals of Socialism," delivered at Socialist hall, 309 Davis street, last night.

The trusts want the people to experience the higher life—that is, higher priced.
