ATHLETIC OUTLOOK AT STANFORD

Track, Rowing and Baseball Men Are Getting Ready for an Active Season.

BALL NINE TO BEGIN PRACTICE THIS WEEK

Plans Are Under Way for the Team to Take a Trip to Japan—Track and Field Performers May Meet the Oregon University Men.

(Special Correspondence to The Journal.) Stanford University, Cal., Jan. 19.—Within a week spring athletics at Stanford will be well under way. With the return of the Rugby team from British Columbia, the football question has been dropped for the present and the undergraduate is looking over the prospects of track, boating and baseball. The Stanford athletic teams have not been materially weakened in the waning out process this Christmas. The failure of a few veterans in the different branches of sport to return has been more than offset by an exceptionally strong freshman class and by the return of several former Stanford stars.

training. Until the lake is filled, Murphy will put his men at work on the machines at the boathouse. To Now California. Something of an innovation in boating will be attempted at Stanford this spring. For the first time in the history of the university, in place of the usual varsity and freshman fours, Stanford will meet California in a regatta, including varsity and freshman eights and a substitute varsity four. This is a step which has been long contemplated, but which it was feared to take through a lack of material. This will do much to put boating in the west on an even footing with the sport in the eastern colleges. The development of 20 men into such form that a creditable showing in the big regatta may be made is more of a complex problem than was faced by Murphy last year. The Cardinal coach thinks, however, that the material is here and with the veteran four of last year as a nucleus the varsity eight which meets the Blue and Gold will be up to the high standard of former crews. Fred Zimmerman of Portland will captain the varsity eight, and he can be relied upon to get the best out of his men. Over 40 candidates have signed up to date.

(Special Correspondence to The Journal.) Stanford University, Cal., Jan. 19.—The first electric car—a Waverly—will make its appearance in Portland within a few days. The car was ordered by the H. L. Keas company and it is said that it is a fine machine. Dan Murphy, the veteran oarsman, who has been engaged to coach the Cardinal crews again, is already on the campus, and will start active training at once. During the past week Murphy and his candidates have been at work repairing the flume line which brings the water into Lagunita, the artificial lake, where Stanford does her spring

LOGISTILLA WINS THE LISSAK

Sandy Made a Great Finish on His Mount in Oakland's Best Race.

PROPER, THE FAVORITE, WAS NOT IN THE MONEY

Sir Edward, an Outsider, Led the Way From the Start and Managed to Keep in Front Until the Wire Was Reached, Losing by a Head.

(Heart News by Longest Leased Wire.) San Francisco, Jan. 19.—The Lissak handicap was the feature at Oakland today and brought out a good field to try for the \$2,000 added money. Proper, although carrying top weight, was heavily played at 11 and 2 to 5 on his recent races. The Hildreth pair, Logistilla and Rapid Water ruled second choice at 14 to 5. To a perfect start, Sir Edward, one of the two outsiders in the race, jumped to the front, and closely followed by Lissak, led into the stretch with Proper third. Then Sandy on Logistilla started from the rear with the Hildreth mare and in a furious drive to the wire beat Sir Edward by a head. Temesco, the Durnell entry, also came

with a big rush and was only a neck behind Sir Edward, with Proper in fourth place. Dr. Leggo and Joe Coyne, the McCafferty pair, were last. Favorites had a hard time, the big Saturday crowd only picking one first choice. Hildreth won another 2-year-old race with Love of Gold, a filly by Goldfinch out of Love Chase. Futurity course, selling—David Boland (Brown), 2 to 1, won; Lugano, second; Box Elder, third. Time, 1:13 1-5. Six furlongs, selling—Dollie Dollara (Sandy), 10 to 1, won; Earl Rogers, second; Burleigh, third. Time, 1:19 4-5. One mile, Lissak handicap, purse \$2,000 added—Logistilla (Sandy), 5 to 2, won; Sir Edward, second; Temesco, third. Time, 1:42 1-5. One mile and sixteenth, selling—Voladay (W. Miller), 6 to 5, won; Gateway, second; Beechwood, third. Time, 1:50 3-5. Five furlongs, purse—Cloudlight (McBride), 5 to 1, won; Ocean Shore, second; Escamado, third. Time, 1:02 3-5. Three and a half furlongs, purse—Love of Gold (L. Williams), 6 to 1, won; Jeremiah, second; Whimora, third. Time, 0:49 2-5.

O. A. C. GIRLS PLAY SPLENDID BASKETBALL

(Special Dispatch to The Journal.) Corvallis, Or., Jan. 19.—The O. A. C. girls defeated the Chemawa girls at basketball last night in an exciting contest, the score being 12 to 11. The agricultural girls have thus far played and defeated Monmouth, the Roseburg high school and Willamette university. Milwaukee Country Club. Eastern and Oregon City cars at First and Alder.

SPORTING NEWS AT BERKELEY

California Loses Two of the Best Track Men on the Pacific Coast.

FACULTY DROPPED HALL, STANTON JOINS PRINCETON

Loss of Those Men Will Make It Difficult for Blue and Gold to Turn Out a Winning Combination—Molfino Enters University.

(Special Correspondence to The Journal.) Berkeley, Cal., Jan. 19.—The University of California is in a quandary as to what will become of her supposed good track team for the coming spring. Last fall she had excellent chances for turning out a winning list of athletes but at the beginning of the new term the chances are not so favorable. Already one of her best men and one of coast reputation, Channing Hall, has been forced to leave college on account of failure in his studies, and yesterday advice was received to the effect that Forrest Stanton, champion sprinter and football man, has left the university to enter Princeton. It is rumored about the college campus that Stanton came to grief with the authorities owing to his prominence in class rushes during the fall term. In Stanton, California will lose one of her best sprinters, and it was to him that the Blue and Gold looked to win laurels in the 100-yard and 200-yard dashes. But, while the southern institution has lost two men, she is gaining others which will materially help in other field events. The latest one to enter Berkeley is A. A. Molfino, one of the mainstays of the Stanford varsity for the past two years. It was a great surprise to the undergraduates to see Molfino among those seeking admission to the university for the spring semester. Molfino while at Stanford did some exceptionally good work on the track and his appearance on the Berkeley oval, while it cannot aid California for another year—in his contest with Stanford, will lessen the Cardinals' chances for winning. Molfino also has the record as one of the best centers that ever represented the cardinal on the gridiron. According to many rumors floated on the Berkeley campus, the above named athlete is not the only one who has deserted his alma mater for the Blue and Gold ranks. The slaughter of athletes by the "elch" route was very great this year at Stanford and a majority of those will try and enter Berkeley. The number of students who were not allowed to reenter California this term number 153. Of this number it is expected that at least one-third will re-enter by special examinations. High Rank in Tennis. In the tennis game this season Berkeley can claim the honors hands down, for in Melvin Long the coast has as yet failed to produce a worthy opponent. Long entered college on Wednesday and is keeping in trim with the two college champions, Claude Wayne and Varrel. Long recently won the title of coast champion in the single series class. In the rowing line little as yet can be said of the varsity crew. Active training commenced last Thursday for the intercollegiate regatta. And with the purchase of two eight-oared shells from Cornell on Monday it can safely be said that rowing will be a favorable sport at Berkeley from now on.

The Players Are Reading From Left to Right—Miss Claire Holgate, Forward; Miss Mamie Scoggin, Guard; Miss Helen Pelland, Guard; Miss Kate Moore, Center; Miss Faye Roadruck, Forward.

May Visit Japan.

At present the members of the baseball squad are looking forward with a great deal of interest to a proposed trip to Japan, sometime next summer. It will be remembered that two years ago, the Waseda baseball nine came over from Japan and after playing in California and in Portland, went on a tour of the eastern cities. Now arrangements are being made for a return series. In regard to the proposed post-season trip, the Japanese manager will make no guarantee, but states that the team would undoubtedly make all of its expenses. He says further: "We have never taken gate receipts here, but we could charge 10 cents in our games with you. There is more enthusiasm over baseball here than in America, and I believe you can secure for you five or six games besides those with us." If such a series is arranged it will be the second international contest that Stanford has taken part in within six months.

Track Meet With Oregon.

There is a possibility that Stanford may have a track meet with the University of Oregon this spring. Track Captain J. C. McFarland, who was also a member of the Rugby team, has just returned from the north. While in Eugene McFarland had a talk with P. McArthur, an alumnus of the University of Oregon, who informed the Cardinal captain that Oregon is over-anxious to hold meets with both Stanford and California this spring. If satisfactory arrangements can be made, the Webfoot athletes will come south sometime during the latter part of March. Oregon has many men whom Californians would like to see perform, and especially Dan Kelly. In addition, Oregon has Moores, McKinney and Moulton, all of whom are consistent performers. Such a meet would be close and interesting and would greatly benefit both institutions.

WALLA WALLA MEN ARE GETTING BUSY

(Special Dispatch to The Journal.) Walla Walla, Wash., Jan. 19.—At a meeting of the Walla Walla Rod and Gun club it has been decided to introduce a bill into the Washington legislature appropriating \$2,500 for the establishment of a state trout hatchery near this city. Another proposed bill is one which provides for the screening of all canals, ditches and flumes. It was also decided to import 200 Chinese pheasants into this county and a like number of Hungarian pheasants.
