Shepherd's Measure Increasing License of Wholesalers Also Defeated-Retail Dealer Thinks Proposed Restrictions Are Too Severe

At the meeting of the council com mittee on liquor licenses yesterday afternoon the Shepherd ordinance was defeated and a substitute ordinance introduced by Councilman Gray was ended for passage by the council. The Gray ordinance raises the

license from \$600 to \$800 a year, but affects retail dealers only.

The ordinance provides that when salloons are closed new licenses shall not be granted until the population of the city shall be in excess of 500 to each license outstanding. The ordinance

A committee from the Retail Liquor Dealers' association, consisting of Henry Hanno, J. W. Wagonblast, Charles Kirchner. Theodore Trautman, Louis Dammasch and Frederick F. Beich, attended the meeting. No remarks were made, except by Beich, who asked whether, if he should be compelled to retire from business temporarily, he would lose his license.

"You would unless you kept the license slive," answered Gray.

"But if my building were condemned and I could not get another location for a year or more, would I have to pay the license all that time?"

Passengers Transferred at Montgomery Gulch Fill Complain to Police.

A number of complaints have been made to the police relative to the dan-gerous condition of the treatlework across Montgomery gulch in Lower Albina. Pending the time the fill is completed at this point the streetcars run to the center of the bridge and pas-sengers are compelled to transfer to another car. A few boards loosely thrown across the stringers furnish the only walk and the place is most danger-

Chief Gritzmacher has decided to consuit with the railway officials about the matter and will endeavor to have them construct suitable railings on each side of the transfer point. It is under-stood that several persons have fallen off the bridge and others have had narrow escapes from serious injury owing to the absence of guard rallings.

COMPLETE INCINERATION MEANS BETTER HEALTH

Private Company Offers to Install Crematory If City Will Give It Contract for Fifteen Years With Privilege of Buying Plant.

Should the city build a new crematory or should it have the garbage incinerated by private contract?

Those were the questions that the joint meeting of the council committees on ways and means and health and police and the health board had to face Former Surveyor-Ceneral to Be
Witness in Binger Hermann Case.

Hice and the health board had to face yesterday afternoon. The argument in favor of city ownership was that by the levying of a tax for the collection of garbage and the operation of the crematory all the garbage of the city would be disposed of.

The death rate of the city now is, said Dr. Esther C. Pohi of the health board and Health Officer C. H. Wheeler, the lowest of any city in the world.

A decision denying a motion for a new trial was handed down by the United States circuit court of appeals in Ban Francisco yesterday in the case of Henry Meldrum, former United States surveyor-general for Oregon, He is under sentence to serve a term of three years in the federal penitentiary on McNeil's island and to pay a fine of \$5,250.

In 20 days the mandate of the court will issue and Meidrum will be sent to prison. He is now on the way to Washington, D. C., where he has been subpoensed to appear as a witness against Binger Hermann. He will be taken into custody upon his return to Oregon and the filing of the court's mandate.
