

AMATEUR SPORT IS WAVING

Athletes in Canada Are Fast Becoming Members of Professional Ranks.

HABIT IS GROWING IN EVERY LINE OF SPORT

Reports From the Dominion Show That the Amateur Spirit Is Deteriorating Even in the Big Athletic Clubs—Gossip of the Sports.

By A. P. Garvey. (Journal Special Service.)

Vancouver, B. C., Feb. 8.—Athletes in Canada are deteriorating. This is astounding, but nevertheless it is only too true. A year ago the dominion gave promise of having some of the best amateur athletes in America. Today we find that over 75 per cent of the athletically inclined young men of the country are either out and out professionals or do not belong to any amateur organization where they could receive just recognition should any question as to their standing arise.

In Eastern Canada, in eastern Canada the shattered Canadian Amateur Athletic union, although deserted by all of the old clubs, and even the Montreal club which is looked upon as the best athletic organization in Canada, is still endeavoring to keep professionalism out of sport, but the organization is rapidly losing ground and it is only a question of time before the professionals will have absolute control of the situation insofar as the east is concerned.

While it seems reasonable to suppose that men should receive remuneration for their services in some branches of sport when money is demanded in all branches it is sounding the death knell of good clean sport. It is a business, pure and simple, in eastern Canada today. Men are being paid enormous sums in hockey and if the report is true, and it has never been contradicted, one player in Montreal was offered \$1,000 to participate in a Stanley cup match.

In British Columbia, while there are no professional organizations, it is known that players have been paid to play in crosses. Yet, at the same time, there is no amateur association in the west which could take any action. The result is that the young men who are growing up and to whom we look to represent us on the athletic field in a few years are not given enough encouragement. They cannot mix with the professionals, and without any organization to look to they become disgusted and quit sport. In a few years even money will not be able to secure athletes to play the games.

In La Crosse, Wis., notices have been issued by the secretary of the Western Canadian La Crosse association in Manitoba to the effect

"Dinner's Coming—I Smell It"

Does Your Stomach Feel Happy When Meal-Time Comes?

When you sniffle in the air the appetizing aroma of something cooking, do you feel that you could sit down, open your mouth, pin back your ears and eat with a delicious gusto, everything set before you, and not feel any bad effects from it?

In other words, can your poor stomach take care of everything and anything you put in it? These are the questions and thousands of people who do not know what it is to have a good, strong, healthy stomach, nor do they realize what it is to have a good appetite.

You can have an all-powerful stomach and a fetching appetite for every meal, and every day, if you give your stomach a rest, and let something else take hold of your food for you, and digest it as it comes into the stomach, something that is harmless but that really does the work of digesting, quickly and thoroughly.

This "something" is Stuart's Dyspepsia Tablets, the most effective little tablets in the world for curing anything that may be wrong with your stomach. One ingredient of these precious little workers digest and use grains of the coarsest or richest food into the stomach. Think of it, 5,000 grains! They are really an artificial stomach, because they act just like the stomach. They digest your food, just as though you didn't have a stomach at all. It supplies the stomach with the digestive juices which have become weak and scanty. Then your indigestion, dyspepsia, sour risings, burps, belchings, acidity, fermentation, loss of appetite, aversion to food, bloated feeling, heartburn and nausea, will be no more. You can then eat anything you wish, and you know whenever you want, and your stomach will feel fine before and after your meals. Your appetite will be a thing of pleasure to have, your meals will be a pleasure to eat, and your digestion will be thorough and soothing to the whole body.

You can't do your work well, or be cheerful, or have energy or vim or ambition, when your stomach is bad. Make yourself feel good after a hearty meal, feel good all over, clear your mind and make you enjoy life, by taking Stuart's Dyspepsia Tablets. Give your stomach a rest, so it can rest itself, then you need fear nothing. Send us your name and address today and get a free sample package of Stuart's Dyspepsia Tablets by return mail. After you have tried the sample you will be so thoroughly convinced of what they can do for you that you will go to your nearest drugist and get a box of them. Send us your name and address today and we will send you by mail a sample package free. Address: F. A. Stuart Co., 21 Stuart Bldg., Marshall, Mich.

SPORTING GOSSIP

Tommy Burns wants to meet Jeffries, as Jeff is still in the west, Burns will probably want to meet him more when he gets to New York.

A New Jersey seaman has made himself popular in places where sports are wont to congregate by introducing a bill to revive boxing. He argues that, as everything else goes in New Jersey, it might as well be made unanimous.

Andrew Carnegie has given Yale a \$40,000 swimming pool, and it was only recently that he slipped a lake to Princeton. No doubt the conditions of the gifts require that some other philanthropist shall donate the soap and towels.

It is only natural that the ministers are sore on fighters and jockeys. Ministers get, on an average \$700 a year. A jockey gets \$60,000 a year, and fighters make that much in a couple of scraps.

MULTNOMAH HAS A FINE YEAR

Treasurer Jones Issues the Financial Report to the Club Members.

FOOTBALL LEADS LIST AS A MONEY-MAKER

Figures Show That Receipts and Membership Have Nearly Doubled in Two Years—The Debt Is Being Reduced at a Considerable Rate.

The annual financial report of the Multnomah Amateur Athletic club has been issued by Treasurer Arthur Jones, and shows the club to be in fine condition. The report is of a most flattering nature, and reflects great credit upon the men who are at the head of the institution.

Comparison of the condition of the club two years ago with that of the year just closed reveals the fact that the receipts and membership have nearly doubled in 1936-7.

The report speaks for itself, furnishing as it does sufficient information about each department to give the members a general idea about the workings of the club.

"Football proved to be the greatest money maker of the club," says Treasurer Jones in speaking about the report, "and special mention should be made regarding it."

"The football team in 1936 made nearly twice as much money net as any other team in the history of the institution."

"In 1934 football cleared about \$1,500, which was a fine showing considering the bad weather encountered and the expensive California trip."

"In 1935 the net receipts were somewhat less than in 1934, due principally to rainy days and the big expense incurred in fitting out the first and second teams with entire new uniforms."

"In 1936 considerable was saved over 1935, in the salary of a coach, the work of 1936 having been directed by the players themselves."

"The entire report is an evidence of what can be accomplished when all the members lend a hand toward the building up of the club and the improving of it in every way."
