FEDERATION SLAPS BACK AT I. W. W.

Trades Council Orders A. F. of L. Members Not to Help Strikers in Any Way

Drastic Resolution Introduced by Longshoremen's Union Delegate is Adopted—Industrial Workers of World Roast Local Leaders of Federation Unions.

The Portland Federated Trades and Labor Council, which represents 45 of the A. F. of L. unions in this city, went flatly on record last night as opposing the Industrial Workers of the World, the labor body which is conducting the strike of the mill laborers.

The central body of the old line trade unions not only failed to express sympathy for the striking organization, but it declared that to take such action would be a breach of loyalty to its own cause.

Extremely hostile resolutions were introduced by a unanimous vote and the delegates were instructed to inform their respective locals that any member known to extend assistance to the I. W. W. must be regarded as a traitor to the principles of the A. F. of L. and indirectly inimical to the true cause of labor.

Calls Hoeswood Responsible.
A separate set of resolutions was adopted endorsing the stand taken by President C. H. Gram of the Oregon State Federation of Labor against the I. W. W., denouncing the charges made against Gram by Organizer Fred W. Hoeswood and calling the latter an irresponsible person.

The open rupture which has at last come in Portland is but a repetition of the conflicts which have sprung up between the two labor bodies in other places. In presenting one of the two sets of resolutions last night the Longshoremen's union submitted a bundle of newspaper clippings tending to show that the A. F. of L. and the I. W. W. have clashed in numerous other places.

Circular Strips Reply.
The hostile attitude taken by the Federated Trades Council was undoubtedly precipitated by the circular denouncing Gram, which was published by the strike committee of the I. W. W. The strike organizers still insist that there is no fight between the two organizations, but that the fight is between the I. W. W. and the "grading" leaders, or "labor fakery" of the old line unions.

At a big mass meeting held by the strikers last night in Arton hall, Gompers, Mitchell, Gram, Leabo, McDonald and A. F. of L. leaders in general were roundly roasted. The form of organization of the A. F. of L. unions was held up to ridicule, but the speakers insisted that the rank and file were true blue and were heartily in sympathy with the strike.

The resolutions denouncing the I. W. W. were introduced in the labor

LORD ROSEBERY'S SON WILL WED AN ACTRESS

MISS PHYLIS DARE

PEER TO MARRY WOMAN HE LOVES

Lord Dalmeny, Son of Former Premier, Incurs Parental Wrath for Rejecting Pauline Astor for Poor Actress.

London, March 15.—For incurring the paternal wrath by becoming engaged to Miss Phyllis Dare, a well-known English actress, Lord Dalmeny, son of Lord Rosebery, former prime minister of England, has been called to Scotland by his noble father.

The young man's deputation followed immediately upon the announcement of his engagement to Miss Dare.

Lord Rosebery wished his son to marry Pauline Astor, but the youth, being of an independent disposition, refused to bow to the wishes of his father. He met Miss Dare at the Pleydilly theatre and soon fell in love with her.

His acquaintance with the actress was kept a secret from Lord Rosebery until the engagement was announced.

Through the son, Lord Dalmeny, is heir to \$15,000,000 in his own right, and he is independent even though his father should choose to cut him out of his will.

LOCKJAW KILLS A BOILERMAKER

George Galloway Dies in Convulsions at Hospital After Suffering From a Cut Finger for One Week.

Prothung at the mouth and in throes of terrible convulsions, George Galloway was taken to St. Vincent's hospital this morning in the patrol wagon from Baumann's hotel.

Nineteenth and Vaughn streets, and died soon after being admitted to the hospital.

The case is shrouded in considerable mystery and an investigation is to be made by the authorities.

From the attendant circumstances, however, it is believed Galloway died from lockjaw.

An autopsy to be performed this afternoon will effectually determine the exact cause of death.

MORGAN IS NAPOLEON OF RAILROADS

Intimated That Financier Controls Harriman Holdings in the Traffic Systems

Bulls in Control and Stocks Climb Upward—Standard Oil Said to Have Cooperated With Hill in Crushing Harriman—President's Part in Program.

(Journal Special Service.)
New York, March 15.—Bulls were in control of the stock market again today and substantial gains on the whole list were made early. Many who were forced to sell out bought back today at a good advance.

It is impossible to confirm the report that Harriman was squeezed during the last week. It is still intimated, however, that J. P. Morgan with Standard Oil aid controls what has been known as the Harriman holdings. The market closed strong.

Harriman Discarded.
Another denial was issued today at the Harriman headquarters, but denials were expected and taken at a discount.

Whatever foundation there may be for the sensational story regarding Hill's coup, the fact remains that it is generally believed in Wall street that the Standard Oil interests have discarded Harriman, who is no longer regarded as fit to execute their plans.

on account of the unenviable notoriety he received through the recent railroad investigation.

Now that Harriman's methods, which are the methods of the Standard Oil crowd, are known, his every move will be watched and the secrecy essential to successful manipulation of the market, cannot longer be enjoyed.

In other words, Harriman, having proved a useful tool, is discarded now that his usefulness is over.

Harriman's Offense.
In addition, Harriman is said to have offended the powers back of him by his growing independence and power.

He is said to have become almost as arbitrary with those not unappreciative financially as he was with his subordinates.

It is believed that the flurry in the stock market was the work of H. H. Rogers and others of the Rockefeller clique cooperating with the Hill-Morgan forces, and brought about solely to crush Harriman.

In preparation for the coup, large sums of money have recently been borrowed throughout the country, which enabled the manipulation of the market.

There is another story going the rounds to the effect that the whole result was due to Roosevelt.

President's Deceit.
It is stated that some weeks ago Morgan, representing the alarmed railroad heads and their banking affiliations, sent an emissary to the White House to find out whether the president would implicitly support the railroads of the country, or if he were disposed to differentiate between good managements and bad.

Roosevelt's return message was that he was not making war on the railroads, but was fighting the railroads that persistently and brazenly broke the law, and that he intended to pursue the law-breakers to the last ditch.

REAL COLLEGE WIDOW CAUSES STIR AT YALE

MRS. EDWIN KENNETH NORTON

SONS OF OLD ELI IN HIDING

Exodus of College Students Follows Divorce Suit Brought Against Gay Young Woman Who Eloped With Millionaire's Son

(Journal Special Service.)
New Haven, Conn., March 15.—There has been a hasty exodus of Yale students following the divorce proceedings brought by Edwin Kenneth Norton, the gay young son of the multi-millionaire president of the American Can trust against the pretty young woman he secretly married some months ago after a romantic elopement in a big red sleigh to Bridgeport.

Miss Josephine Cleve Birney was far and away the prettiest young woman in New Haven, perhaps in all New England. She was and is still a favorite among the sons of old Eli. She is but 22 years old, and her husband is two years her junior.

The marriage created consternation in the Norton family. Steps were taken to invalidate the ceremony by the elder Norton who threatened to disinherit his son unless the latter consented to a separation.

Young Mrs. Norton was forced to go to work and her every step was dogged by spies in the employ of the traitor father-in-law.

The groom was hustled off to Europe and the bride left in her humble home with her mother and sister. She asserts that her husband was kidnaped.

According to the evidence so far admitted, the bride developed a fondness for ginger ale highballs and did not even dispense champagne when treated by friends who helped her over her temporary somnolence during the period of her detention.

However some of the witnesses for the plaintiff have confessed to perjury.

Mrs. Norton prophesies the failure of the suit. Then she will sue her father-in-law for a million for alienating the affections of her husband.

CUT DOWN WIDTH OF PAVEMENTS

Initiative Hundred's Committee Recommends Narrow Highways in Districts

Hard Surface Pavement on Scores of Residence Thoroughfares Would Then Become Possible, and Parking of Grass Would Improve Looks.

By adoption of a committee report on improvement of streets in the residence districts, the Initiative One Hundred went on record last night as favoring reduction of roadways of residence streets to a width from 18 to 28 feet where there are no car lines.

A special committee was appointed to wait upon President E. L. McKenna and urge him to reconsider his resignation and consent to act as president another year.

Improvement of streets in residence districts was the special order of the evening. The committee having investigation of this question in charge, composed of Geo. P. Lent and E. A. Kempe, made an exhaustive report and discussion of its various features occupied the evening. The keynote of the report was "more paved streets, narrower roadways."

Out Facing Cost.
In the opinion of the committee, many more streets would be paved, if it were not necessary to have so wide and thus make the improvement so expensive.

There is not a man in this meeting who has a home in the residence district can say there is any traffic upon use for all the wide roadway in front of his residence," declared a speaker.

"Why go to the expense of covering this wide expanse of street with an expensive and unattractive pavement? Why not have wider space between the sidewalk and the street pavement, and beautify with green grass and flowers, in this climate where grass is green the year round and flowers bloom nine months in the year?"

Successful Elsewhere.
The roadways of most of the residence streets in Portland are 30 to 50 feet wide, which is more than necessary for any demand of traffic upon them, it is declared in the report.

Where there are no car lines, 18 feet in many cases is said to be a sufficient roadway, and 25 feet the maximum. In some cities larger than Portland the average popular width of residence streets without car lines is 14 feet, and the city engineers of these cities report that the width is satisfactory.

The committee suggested the following rule:
On streets over 50 feet in width the sidewalk, of concrete, should be placed four feet from the lot line, and the walk should be six feet wide. The shade trees should be four feet from the sidewalk, making the line for the shade trees 14 feet from the lot line.

On streets 50 feet wide and less, the sidewalk should be two feet from the lot line, and six feet wide, or four feet from lot line if sidewalks are four feet wide, and shade trees four feet from sidewalk, making line of shade trees

Taft to Visit in Wall Street

Secretary Will Find a Way to Clear Railroad Situation—Mellen Makes Appointment With the President.

(Journal Special Service.)
Washington, March 15.—C. S. Mellen, president of the New York & Hartford road, today made an appointment to call on the president Tuesday.

The president received a telegram from Mr. Mellen this morning asking for an interview. The president sent a favorable reply.

It is stated officially that the president will not give out any statement regarding the financial situation, and that he regards the situation as not alarming.

He received some callers, including Banker Speyer, and read extracts from his speeches and messages. The inference that these were from a statement in which he considered

The announcement that Secretary of War Taft is to spend Sunday, Monday and Tuesday in New York aroused considerable interest in financial circles. He announced that the purpose of his visit is to attend a meeting at New Haven Monday of the Yale corporation and Tuesday a meeting of the board of beautification of Niagara Falls park.

PRINCE OF WALES IS CAUGHT FOR MILLIONS IN FINANCIAL CRISIS

London, March 15.—The Prince of Wales, according to the stock exchange report, has lost heavily by the collapse of American and Canadian securities, and needs assistance.

The prince always affects disapproval of his father's friendship with Sir Ernest Cassel and other financiers and nothing was known of his own speculative ventures until the break.

It appears that the prince acted on the advice of an aged Canadian multi-millionaire who was himself seriously hurt. The difficulties of the Prince of Wales have caused much gratification among the king's set, as he has been severely criticizing the conduct of the latter in becoming involved in the Siberian mine scheme. It will take the prince many years of tight economy to liquidate his liabilities.

COMPLAINANT IS SENT TO JAIL

When William Kidd Was Found Not Guilty J. A. Miller Was Unable to Pay the Costs of the Suit.

A case that had an unexpected termination was heard in Justice Bold's court this morning when the defendant was discharged and the complainant sent to jail.

J. A. Miller was the complainant, charging William Kidd with larceny by bailee. It was charged that Kidd appropriated \$100 to his own use, when the money really belonged to the two men jointly. They were contractors and Kidd had gone to Umatilla county to attend to the work.

Miller swore to a complaint in this county alleging that the offense was committed here and Constable Lou Wagner made the trip to Pendleton to serve the papers of arrest. Kidd was brought to Portland at the expense of Multnomah county and a preliminary hearing was held last Monday.

The case was heard in Justice Bold's court this morning and Kidd was found not guilty. The costs of the proceedings, amounting to \$100, were assessed against Miller, the complaining witness against his co-partner.
