

GIRL FACES GRAVE CHARGE

Mabel Bozarth, Aged Eighteen, Arrested for Contributing to Delinquency of a Minor.

INDUCED OTHER GIRLS TO MEET YOUNG MEN

When Taken in Custody Two Years Ago, Her Mother Pleaded Her Extreme Youth, and She Did Not Go Under Eye of Juvenile Court.

Mabel Bozarth, who was the second child ever brought before the juvenile court in this city, was arrested yesterday charged with contributing to the delinquency of a minor girl, and was later released by Judge Fraser upon furnishing bail in the sum of \$200. The bond was signed by the girl's mother and Warren Phillips.

The specific charge against the girl is that she induced the minor into meeting with young men at the Oaks skating rink, Merrill's dancing hall and other places where her morals were destroyed by her associations. Lloyd Purdie was one of the young men charged with associating with the young girl and he was arrested and released last night on bail. It is said there are three or four other young men about town who will be arrested on the same charge.

Mabel Bozarth is a beautiful girl of 18 years, and has always borne a bad reputation with the local authorities. She was brought before the juvenile court June 10, 1935, as an incorrigible, but was dismissed because her mother swore that she was a few days over 16 years of age. In the proceedings in the juvenile court it is shown that the Bozarth girl had had some surroundings. Even when Judge Fraser wanted to have the girl placed under the jurisdiction of the juvenile court Mrs. Bozarth objected.

DR. ZIEGLER MUST PROVE HIS RESIDENCE

If He Has Not Been Here Three Years He May Not Become City Physician.

If Dr. Ziegler, the newly appointed city physician, does not prove that he has been a resident of Portland for three years preceding his appointment he will find himself out of a position. An investigation into Dr. Ziegler's case was made by the council committee on judiciary and elections yesterday afternoon. The committee found that the doctor had been a resident of Portland only five months. The charter requires a residence of three years before an appointment can be made. The matter of Dr. Ziegler's appointment was taken up informally by the committee yesterday afternoon. No evidence was taken, but it seemed to be the opinion of the council that Dr. Ziegler was not a legal resident of the city, according to the provisions of the charter. Consideration of the case was postponed.

The committee recommended that the salaries of the city attorney and the city engineer be increased to \$3,000 and that the salaries of the chief deputies shall not exceed \$2,500 a year.

The resolution of the Fourth street franchise of the Southern Pacific company was taken up, but action was postponed until Monday, as all the members of the committee were not present.

GILLETT KILLS BILL FOR FRISCO EXPOSITION

(Hearst News by Longest Leased Wire.)

Sacramento, March 16.—Governor Gillett will not sign the Pacific Coast Exposition bill for 1937 under any circumstances. No amount of influence will induce him to sign the bill. He is opposed to the exposition itself, but because he is fully convinced in his own mind that the resolution has been sprung too early and at a time when the taxpayers of the state will be burdened enough to repair the damages inflicted on state institutions and on California cities by the disaster of last April.

This declaration on the part of the governor would not have been made at this time had it not been that such a determined effort has been put forth during the last few years to force his signature to the measure, which provides for an appropriation of \$1,000,000 on the part of the state to set the ball rolling.

HOPELESSLY INSANE BUT SURGEON CURES

(Hearst News by Longest Leased Wire.)

Oakland, Cal., March 16.—Relieved by an operation of pressure on the brain, which for 14 years had been increasing, finally resulting in violent insanity, Edison Wilcox, the son of Dr. W. J. Wilcox, has been restored to reason just two weeks after he had been committed to the state hospital at Ukiah as hopelessly demented. The operation by which the mind of the young man was restored was performed yesterday morning at Eastbay sanitarium.

Silver Wedding at Newberg.

(Special Dispatch to The Journal.)

Newberg, Or., March 16.—Mr. and Mrs. J. W. Coffin celebrated their twenty-fifth wedding anniversary yesterday with a family dinner and a reception in the evening. Relatives from Portland and Dayton were in attendance.

WORKINGMEN TO BUY CITY BONDS

Unionists of San Francisco Consider Taking Up Twelve-Million Issue.

(General Special Service.)

San Francisco, March 16.—The labor unions of San Francisco affiliated with the building trades council and the individual members of those unions, numbering 33,568 men, according to President H. J. McCarthy, feel that they can purchase all of the city bonds voted for municipal improvements about three years ago, an investment involving more than \$12,000,000.

The members of the unions favor in the city's 3 1/2 per cent securities was made in the building trades council executive committee Tuesday night. Thursday night the council approved the plan and passed a resolution on it to the affiliated unions.

Last night local union No. 22, United Brotherhood of Carpenters and Joiners of America, ordered the purchase of \$200,000 of the school bonds and also decided to take up the matter of the purchase of bonds by individual members. Already orders from the 4,000 members for from \$400,000 to \$500,000 of the securities have been received. The members in attendance at the meeting have appointed committees to act in conjunction with the executive officers of the union in attending to the details of the purchase.

President McCarthy said last night that the members of the labor organizations of the city, as indicated by union 22, felt that the bonds were among the safest investments and furthermore, the purchase of these bonds at this time would assist greatly in the rehabilitation of San Francisco.

EVERYTHING ON TABLE IS GREEN

J. B. Yeon Surprised by Manager Dickinson of the Oregon by Souvenirs of the Day.

Saint Patrick's day comes but once a year, and J. B. Yeon, the local capitalist, returns from a trip to New York and other eastern points only once in a number of years. Because of this fact M. F. Brady, a business associate and lifelong friend of Mr. Yeon, invited a number of their mutual friends to a dinner at the Oregon hotel last night.

Manager Dickinson surprised the diners by a unique arrangement of the dinner ordered by Mr. Brady, which culminated when the feast of good things had been cleared away and the guests were ready for their after-dinner smoke. Saint Patrick suggests the Irish if nothing more, and the Irish suggest the clay pipe to Mr. Dickinson, so he gave each diner a regulation Irish meerschaum. Each pipe had a livid green ribbon tied about the stem.

Everything connected with the dinner was decorated with green. Green carnations on the table, green favors spread about everywhere and to cap the climax, a green beverage that inspired green recollections of green old Ireland was served to the guests.

The present speaker, Mr. Yeon, was ready for their after-dinner smoke. Mr. Brady were: Lawyer E. E. Covert, Superintendent of Motive Power J. S. Graham, T. W. Youinger, master mechanic of the Southern Pacific railway; the under of the First National bank, and Captain V. M. C. Silva, superintendent of the Chamber of Commerce building.

GRANGERS' NEW HALL IS FORMALLY OPENED

Golden Keys Presented to Worthy Master, Ceremony Ending Day's Function.

A housewarming was held in the new hall at Milwaukie by the Milwaukie Grange, Patrons of Husbandry, yesterday afternoon at which were present several notable men. The Grange is awaiting the decision of the state supreme court, which he hopes will grant him a change of keepers and more freedom.

Ruef, in an interview today, declared he believed the prosecution was preparing to stuff a jury to convict him. He said he was ready and willing to give bail so he might attend to important business that was being neglected, and believed the supreme court would see the injustice of his present condition.

Assistant District Attorney Henry H. Biggs charged that the prosecution was planning to stuff a jury. Elias Biggs today denied the rumor that the guards in and about Ruef's apartment had been increased. It is not anticipated that Ruef will attempt to escape, but with a hostile police force and a sheriff who has so openly expressed his sympathy with the indicted politician, Elias Biggs considers it necessary to be prepared for any emergency. The guard is composed of six men, divided into night and day watches, with the alternative watch always close at hand when off duty.

FIRST NUMBER OF SPECTATOR OUT

New Weekly Given Promise to Become Factor in Progressive Life of City.

The "Spectator" is the suggestive heading of a new weekly publication that made its first appearance yesterday under the editorial guidance of Ed. Hume, and the business management of James E. Tyler. "A Journal of Progress" is a conspicuous line on the title page. In the foreword the editor states the paper will be independent in all things, and will stand for the higher life of Portland.

The initial number is well written. The editorial page is prominent, and the news and comment crisp and original. In appearance the paper will improve as the publication department completes its organization and gets everything running smoothly. The editor, supported by well known writers, added materially to the strength and interest of the first number.

TETANUS CAUSED DEATH OF GEORGE GALLOWAY

An autopsy performed on the body of George Galloway, who died at St. Vincent's hospital yesterday morning soon after being brought to that institution in an unconscious condition from Bauman's hotel, Nineteenth and Vaughn streets, has shown that tetanus was the cause of his death.

Galloway, who had been employed as boiler maker in the Willamette Iron & Steel Works, sustained an injury to one of the fingers of his left hand about a week ago and was compelled to cease work on that account. Apparently the wound was not properly cleaned and afforded an excellent breeding ground for the bacillus of tetanus. No insect was found.

BATTLING NELSON LOSES TONSILS BY OPERATION

(Publishers' Press by Special Leased Wire.)

Chicago, March 16.—As a result of a cold contracted on his trip to Europe, Battling Nelson went to a hospital today to have his tonsils removed. The operation was performed successfully and tonight he was much relieved. Nelson is going to Hot Springs to fully recover and persuade that he will forego Gans to come to his terms and sign articles for another fight.

Contract for Vale Bank Building.

Vale, Or., March 16.—The contract was let yesterday for the building of the First National bank of Vale. The building is to be of brick and stone, 28 by 70 feet. It will be equipped equally with any other bank in eastern Oregon, and will be under the supervision of the United States government.

GOVERNMENT TO FIGHT PEONAGE

Employment Agencies in Northern Cities Under Investigation by Uncle Sam.

HELD RESPONSIBLE FOR CONDITIONS IN SOUTH

Washington, March 16.—The scope of the government's aggressive crusade against peonage practices in southern states has been greatly broadened. Leading northern cities have become involved. The department of justice has ordered an investigation of certain employment agencies in New York City, Philadelphia, Pittsburgh and Chicago will come next. It has been through concerns in those cities that the victims of involuntary servitude have been secured.

The disclosures of astounding conditions said to exist in certain parts of Florida, Alabama and South Carolina have pointed strongly to the concern of the part of men in the northern cities. Government officials hope shortly to make a number of arrests and fully establish the exact relations between the employment agencies and the southern contractors who have already been indicted for holding men in a condition which they declare is far worse than slavery.

It has been the flattering but false stories told by the employment agents that have sent men into the lumber and turpentine camps of the south. It is declared that the scheme is so plainly monstrous that the managers of the employment agencies can be proceeded against under the kidnapping law, which makes it a misdemeanor to entice a man away with the intention of making him a slave. If this action is brought it will be the first case of the kind.

The government is determined to test the constitutionality of the laws of certain southern states which makes it a misdemeanor for a laborer to leave his employment without just cause where he has been working on shares and where he has received advances. The original intent was to protect the farmer against negro labor. The laws have been effectively used in the peonage cases by the contractors of the South.

On the 25th of the month the government will fight the constitutionality of the South Carolina law in a habeas corpus case coming before Judge Brantley of the supreme court at Charleston.

Ernest Brayton, who escaped from what the government charges was a peonage camp, has been imprisoned because he was working on shares and where he has received advances. The original intent was to protect the farmer against negro labor. The laws have been effectively used in the peonage cases by the contractors of the South.

GRANGERS' NEW HALL

Golden Keys Presented to Worthy Master, Ceremony Ending Day's Function.

A housewarming was held in the new hall at Milwaukie by the Milwaukie Grange, Patrons of Husbandry, yesterday afternoon at which were present several notable men. The Grange is awaiting the decision of the state supreme court, which he hopes will grant him a change of keepers and more freedom.

Ruef, in an interview today, declared he believed the prosecution was preparing to stuff a jury to convict him. The guard is composed of six men, divided into night and day watches, with the alternative watch always close at hand when off duty.

MILEAGE CONCESSIONS IN STATE OF WASHINGTON

(Special Dispatch to The Journal.)

Seattle, March 16.—The state railway commission, in conference with Hill and Harriman representatives, today obtained an agreement whereby interchangeable mileage books will be placed on immediate sale in this state at the rate of \$200 a mile for 1937. This is the first concession of its kind west of Chicago.

J. Will Lysons, secretary of the commission, will resign April 1 and will be succeeded by Owen O. Calderhead, rate maker, who will probably be succeeded by Royal local agent at Winlock.

E. W. Parley, an O. R. & N. engineer, chairman of the Republican central committee of Whitman county, has been appointed inspector of safety appliances and trackgans. Parley's home is at Tekoa.

TWO FROM PENDLETON SENT TO STATE PRISON

(Special Dispatch to The Journal.)

Pendleton, Or., March 16.—Thomas Evans was today sentenced to 18 months in the penitentiary by Judge Bean for passing a bogus check at Echo some time ago.

James Lawless was given one year for stealing a saddle, which he sold, and keeping the proceeds.

MIDNIGHT FIRE CAUSES PANIC AT HOTEL WEST

A midnight fire in the store of the Kater Harness company, located in the building occupied by the Hotel West, 49 and 51 North Sixth street, caused a small loss to the harness shop and considerable excitement among the guests of the hotel, many of whom hastily packed their grips and trunks and moved to the sidewalk when they were warned of the fire. A quick run by the fire department and active work on the flames, many of whom extinguished the flames and the frightened guests returned to their rooms. The origin of the fire is unknown.

BAILED OUT WHITE MAN BUT LEAVE CHONG IN JAIL

(Publishers' Press by Special Leased Wire.)

Chicago, March 16.—As a result of a cold contracted on his trip to Europe, Battling Nelson went to a hospital today to have his tonsils removed. The operation was performed successfully and tonight he was much relieved. Nelson is going to Hot Springs to fully recover and persuade that he will forego Gans to come to his terms and sign articles for another fight.

ABE RUEF SAYS HENEY WILL STUFF THE JURY

At Which Henevy Scoffs—Boss Held as if Dangerous Criminal Already Convicted.

San Francisco, March 16.—Abraham Ruef is still a prisoner in the hands of Elias Biggs at the St. Francis hotel, awaiting the decision of the state supreme court, which he hopes will grant him a change of keepers and more freedom.

Ruef, in an interview today, declared he believed the prosecution was preparing to stuff a jury to convict him. He said he was ready and willing to give bail so he might attend to important business that was being neglected, and believed the supreme court would see the injustice of his present condition.

Assistant District Attorney Henry H. Biggs charged that the prosecution was planning to stuff a jury. Elias Biggs today denied the rumor that the guards in and about Ruef's apartment had been increased. It is not anticipated that Ruef will attempt to escape, but with a hostile police force and a sheriff who has so openly expressed his sympathy with the indicted politician, Elias Biggs considers it necessary to be prepared for any emergency. The guard is composed of six men, divided into night and day watches, with the alternative watch always close at hand when off duty.

PHONE POLES ALONG THE ROADS OF CLARKE

(Special Dispatch to The Journal.)

Vancouver, Wash., March 16.—The board of county commissioners today granted the application of the Northwestern Long Distance Telephone company for a franchise to use the county roads with its poles and wires. This is the company to operate in connection with the Home Telephone company of Portland.

The franchise was practically decided upon by the commissioners several days ago and the company was assured that, in consideration of the terms upon which the company was willing to accept the grant, it would be granted. Accordingly, the company has already begun construction work upon the line from this city to Puget sound. Poles have been distributed along the line for quite a distance and a large force of men are at work putting them up. It is stated by persons connected with the company that two months will see the line completed.

The Home Telephone company, it is believed, will at the meeting of the city council of Vancouver on Monday night make application for a franchise within the city. The route of the line to this city from Portland has been established and will soon be constructed, and it is desired to install the local exchange as soon as possible. The line from Portland will cross the Columbia river just east of the government reserve and one mile above the main portion of the city.

THIS MAN IS SAID TO BE A PORTLAND TAILOR

(Special Dispatch to The Journal.)

Bellingham, Wash., March 16.—Carrying with him it is alleged, more than \$1,500 belonging to other people, J. H. Johnson, a Portland tailor, has disappeared from the prosperous town of Lynden, near Bellingham, and he is badly wanted by his alleged dupes there. Deputy Sheriff George E. Rex was sent to Portland to find him. Rex has returned to Bellingham without his man.

Four months ago Johnson organized a suit club, securing 25 members and a large sum of money. Meanwhile he became interested in a skating rink in Lynden, which he was enabled to do by borrowing \$175 on a note signed by Dr. Phillips and R. M. Brown. The skating rink did not succeed, and Johnson, after investing in another rink at Everett, quietly disappeared.

POWDER IN CHIMNEY AND FUSE ATTACHED

Dastardly Attempt to Blow Up Dwelling at Palouse, Wash.—Black Powder Used.

(Special Dispatch to The Journal.)

Palouse, Wash., March 16.—Unknown parties tried Wednesday night to blow up the residence of C. Colliard, a prominent furniture dealer, by putting black powder in the chimney. Colliard lives in the rear of his store building. The powder was exploded at 7 o'clock Thursday morning while Mrs. Colliard was getting breakfast. It completely wrecked the chimney and scattered the bricks all over the room. Mrs. Colliard escaped by having just left the kitchen. It was found that a piece of fuse had been attached to the powder from the outside of the building, which would indicate that the miscreant intended to set it off in the night, but that for some reason this idea was abandoned and the powder was left to explode when the fire was started. The fuse is the kind used by railroad men, and is unlike anything kept here by local dealers. It is supposed it was stolen from the inland railway camp here. There is not the slightest clue.

Mr. and Mrs. Colliard have not an enemy in the world that they are aware of, which makes the case most mysterious.

Not Like Patti's, However. Life is a farewell tour.

DEAFNESS AND CATARRH SUCCESSFULLY TREATED BY "ACTINA"

Ninety-five percent of the cases of deafness through to our attention is the result of chronic catarrh of the throats and middle ear. The ear passages become clogged by catarrhal deposits stopping the action of the vibrator bones. Until these deposits are removed, the ability of the ear cannot be reached by probing, sprays, hence the inability of the specialist to always give relief. There is a scientific treatment for most forms of deafness and catarrh is demonstrated every day by the "Actina" vapor generated in the "Actina" passes through the Eustachian tube into the middle ear, moving the catarrhal obstructions and loosening the Eustachian tube. The "Actina" vapor generated in the "Actina" passes through the Eustachian tube into the middle ear, moving the catarrhal obstructions and loosening the Eustachian tube. The "Actina" vapor generated in the "Actina" passes through the Eustachian tube into the middle ear, moving the catarrhal obstructions and loosening the Eustachian tube.

GAS COMPANY WILL INSTALL-MAMMOTH TANK

Outlying Districts of Piedmont, Woodlawn, Mt. Tabor and Sellwood to Be Supplied.

(Special Dispatch to The Journal.)

The Portland Gas company is preparing to install its mammoth storage tank on the east side so that it will be in full operation early this fall. With the completion of the reservoir the company will be in a position to supply all the outlying districts, such as Piedmont, Woodlawn, Mount Tabor, Sellwood and others.

It is contended that by supplying these districts with gas property values will increase and owners will be able to obtain higher rents for all houses fitted with gas. Solicitors are canvassing the districts in order to ascertain the size of gas mains to be run in these districts. The laying of the mains will
