

NEW FENDER PICKS UP INVENTOR

C. H. Hale and His Life-Saving Device.

An invention in the street car fender line has been completed and tested by C. H. Hale of 285 Hall street and found to work perfectly from the tests made. The inventor calls his production "Hale's double chance fender," for the reason that in its operation two chances are given the person struck by the car for safety. As will be seen from the illustration a person who was struck would be caught on the upper seat and receive no injuries except possible bruises. Should the person be struck fall in front of the car the swinging

apron would be the first thing to touch him. This contact would automatically throw the fender swinging in front of the wheels, which would drop upon the rails and pick up the prostrate body. In the trials made a few days ago the inventor allowed the car to take a run at him and was picked up by the chair with no injury. A dummy thrown in front of the car was picked up time after time by the under fender. A contest will be held in a short time between the Hale fender and several other new inventions which have lately been perfected.

WOMAN ELEVATOR OPERATOR DELAYS CASE IN JUSTICE COURT

Justice Reid, entering his courtroom in the Alameda block this afternoon with watch in hand, remarked that it was a very peculiar circumstance that the four or five young lawyers who were to appear in a trial set for 2 o'clock had not shown up and it was then 20 minutes till 3 o'clock. The principals were waiting—restless and were eyeing one another as if on the verge of settling the account by an appeal to arms. "Lou, I wish you would step out and see if you can see anything of those truant attorneys," said the justice to Constable Lou Wagner. When Wagner arrived at the elevator

shaft, he was just in time to see the elevator "going up" loaded with men. When it came down it still had its load. As the circumstances struck him as being unusual he took a closer view of the contents of the elevator and was startled when he recognized the lawyers he was after and the key to the whole problem. In the absence of her spouse the elevator man's wife was tending the elevator, and the gallant barristers were carried away with the novelty of woman at the lever. Attorney Lotus Langley, one of the lawyers enjoying the innovation of riding in an elevator run by an elevator woman, explained that he had been riding in an elevator for 25 minutes and did not intend to leave the elevator until the rest did.

To Owners of Bad Breath

Foul Odor of Indigestion, Smoking, Eating or Drinking Stopped at Once With Stuart's Charcoal Lozenges.

Trial Package to Prove It Best Free.

Bilious breathers, onion eaters, indigestion victims, cabbage consumers, smokers, drinkers are in a class all by themselves, distinguished by a powerful bad breath.

They all breathe, and as they breathe they whiff out odor which makes those standing near, turn their heads away in disgust. The pitiable part of it is that these victims do not realize what a sickening thing a bad, offensive breath is to others.

Charcoal is a wonderful absorber of gases and odors. It absorbs 100 times its own volume of gas.

Stuart's Charcoal Lozenges will put a stop to your bad, offensive breath and to your belching, whatever the cause or source, because the charcoal quickly absorbs all noxious, unnatural odors and gases.

If you suffer from indigestion and belch gas as a result, Stuart's Charcoal Lozenges will absorb all the gas and make you stop belching.

If on getting up in the morning you have such a bad, bilious breath, that you can almost smell it yourself, Stuart's Charcoal Lozenges will get rid of it for you quickly.

Charcoal is also the best laxative known. You can take a whole boxful and no harm will result. It is a wonderfully easy regulator.

And then, too, it filters your blood—every particle of poison and impurity in your blood is destroyed, and you begin to notice the difference in your face first thing—your clear complexion.

Stuart's Charcoal Lozenges are made from pure willow charcoal, and just a little honey is put in to make them palatable, but not too sweet.

They will work wonders in your stomach, and make you feel fine and fresh. Your blood and breath will be purified. You will feel clean inside.

TUALATIN'S MEN WHO WILL MEET PENDLETON

Miller, Hoonan and Holmes Best of Twelve—Debate at Forest Grove in April.

(Special Dispatch to The Journal.) Pacific University, Forest Grove, Or., March 23.—Tualatin academy is to be represented in the Pendleton-Tualatin debate, which is to be held in this city some time in April, by Wilson Miller of Seattle, Junior Hoonan of Aberdeen and Thorngy Holmes of Bohalla, Oregon.

Miller graduated from the local school at Forest last year. He is the stepson of Major Clarkson. Although a first-year man in the academy, in the try-out of 12 speakers he won over several senior candidates. He is a member of the Gamma Sigma society.

Hoonan, the leader of the team, is the son of P. H. Hoonan, formerly of this city, but now in business at Aberdeen. He played quarter on the second football team last fall and alternated with Ferrin for the varsity position. He is a senior cad and a member of the Gamma Sigma.

Holmes is registered from Bohalla, Oregon, and is a member of the Alpha Zeta society, and played end on the academy football team last fall. This is his last year in the academy.

The debate will be on the question, "Resolved, That the United States government should subsidize its merchant marine." Tualatin will take the negative. The exact date has not been fixed, but will be near April 1.

OREGON STATE BAND ORGANIZED AT EUGENE

(Special Dispatch to The Journal.) Eugene, Or., March 23.—At a meeting of about 25 musicians in Davies hall in this city last night the Oregon State Band was organized. Officers were elected as follows: President, W. S. Bump; secretary and treasurer, F. N. McAllister; business manager, Alton Hampton. A committee on permanent rehearsal quarters was appointed, consisting of W. F. Gilstrap, F. N. McAllister and A. Svarverud. A committee on constitution and by-laws was appointed as follows: W. S. Bump, G. H. Terlington and S. E. Stevens. It was decided to engage L. C. Reed of Coifus, Washington, who is a composer and band leader of considerable reputation, as director of the organization, and he will be here within a few days to begin his work. J. J. Hughes, a noted clar-

GRAYS HARBOR LUMBER SHIPMENTS IN FEBRUARY

(Special Dispatch to The Journal.) Aberdeen, Wash., March 23.—Although the month of February was considered rather below the average in the matter of cargo shipments, the total shipments from Grays harbor, exclusive of the mills at Montesano, whose shipments could not be obtained, reached \$5,595,441 feet, including lath and shingles reduced to lumber measurements. Separately, the amount of lumber shipped by water was \$3,982,441 feet; lath, 10,389,896 pieces, and 3,851,350 shingles. These figures show that Aberdeen is still the greatest lumber-shipping port in the world. Of the amount sent from Grays harbor, only \$2,908,180 feet went from the mills of Aberdeen, and the remainder from Hoquiam and Cosmopolis, the latter place shipping but one cargo of 514,351 feet of lumber. Of the 68 full and partial cargoes dispatched, but two went for sale. The British steamer Dunerick loaded here for Santa Rosalia, Mexico, and the Western mill sent part of a cargo to the sound for a ship bound for Molokai, Peru.

M'KENZIE VALLEY LINE AT RIGHT OF WAY STAGE

(Special Dispatch to The Journal.) Eugene, Or., March 23.—The work of securing the right of way for the Willamette Valley company's electric railway from Eugene up the McKenzie valley to the Blue river mines will begin Monday. The survey has been completed to the power site, 22 miles east of Eugene, and the remaining 13 miles to Blue River City will be completed as soon as the right-of-way work is well under way. The company has assurances that there will be very little trouble to secure the right of way, as a
