

## Gloves and Art Goods

**WOMEN'S GLOVES THAT STAND THE TEST OF WEAR**

It is of great importance to us to sell good gloves. Poor gloves never built a good business. Think how many women depend on this Glove Store for right sorts of gloves, and the number who do grows greater each year. If the gloves were not right—were not stylish, good fitting, correct in shade and finish—in short, if the best gloves to be had at their several prices were not those at Roberts Bros.—our glove business would not keep on growing.

The Best In Quality

The Most In Value

## The Most Exceptional Values

IN NEW SPRING MERCHANDISE.

The store which studies the interests of its customers, striving to see how much, rather than how little, can be given at the equivalent of a certain price, is the one that succeeds nowadays. The knowledge that at such and such a place one can always rely upon quality; that, whatever the price quoted, investigation will probe it as low or lower than in any other house; that if the slightest dissatisfaction arises after purchase, goods may be returned; that courtesy is the attitude attending every stage of a shopping tour; that showing merchandise is considered a favor, whether a sale results or not—all these are points that, added up, count immensely in favor of the store that includes them among the cardinal principles of its policy. Such a store is bound to lead, and in every city, whether little or big, the store that most closely lives up to these principles is always foremost.
