Socialism from the Bible standpoint

LOOK AHEAD

The man who succeeds in life is the man who looks ahead and plans for the future. He realizes the fact that money is an absolute necessity if he intends to rise in the world. A little study convinces him that only through a bank account can he attain future prosperity and he plans his actions accordingly. A small sum will suffice for the opening of a bank account and it leads to all good things in a financial way. It establishes credit, insures the learning of business methods and the respect of business men. Open an account with this bank today and lay the foundation of a fortune. A savings account which draws 4 per cent compound interest is a quick road to success. Try it. \$1.00 will open an account.
