Kerrigan Describes the Great Final Struggle at the National Championship.

FRANK'S CONQUEROR IS A STAR PERFORMER

Despite the Reputation of the Newark Man the Yale Wrestler Puts Portland Entry Was Beaten.

of the game was present, and there lowers of the mat sport in Newark, especially. As most of the crowd present pecially. As most of the crowd present represented the Newark following, the feeling was intense in favor of the local men entered, and whenever they won a bout, as happened in one or two cases, the crowd went wild. And who could blame them? For as it has happened this Turn Verein has had more champions of national fame than my other organization in the county. Not a year has passed that the National Furn Verein of Nowark has not had a Not a year has passed that the National Turn Verein of Newark has not had a champion in one or two classes of the national wrestling championships. They have done more for the game and turned out more good wrestlers than any other athletic organization. On the walls of the gymnasium there are pictures of champions since the year 1878, all national champions. Curiously enough, they are all Germans. It is strange that there are not more Irish wrestlers than there are. Wonder why it is? Those that are in it seem to be a success at the game. In the case of O'Comell of Tale university, for init is? Those that are in it seem to be a success at the game. In the case of O'Commell of Tale university, for instance, he is no doubt the best man in the country today in the variety of holds over which he has command. He has been at Yale for four years instructing. In the meantime he is taking up the study of law and stands the highest in his class in this department. His knowledge of the game is remarkable. Only weighing 141 pounds stripped, he has thrown many chamable. Only weighing 141 pounds stripped, he has thrown many champions much heavier than himself. Still he is an exception and one of the few cases of a successful Irish wrestler. Of course, we could go back and enumerate many old champions of the game who were Irishmen, but none to speak of at the present day.

Germans are Superior.

The Germans are certainly in the majority in the wrestling art of self-stense. Such can be shown, for exthe case of the National Turn stop to show just how the finals in the ended on Saturday night

The first bout of the evening was the final in the 105-pound class, between Curris, the champion in that class since the St. Louis wrestling championships, when he won his first championship and ever since, and Taylor of the National Turn Versin in Newark. The latter won in the finals over Currie and proved one of the surprises of the evening, The first bout of the evening was the won in the finals over Currie and proved one of the surprises of the evening, although Currie had entered a previous match in the sume finals and was quite tired for his match with the Turn Verein man, the semi-finals taking place before the real bouts of the evening. Taylor was a little, short fellow of about 4 feet 10 inches, and had shoulders and arms large enough for a man of 145 pounds. His strength was remarkable and it was that which won for him, Currie showing the more science during the entire match, but of no ence during the entire match, but of no avail in the last bout of the finals, when Taylor held him down for the limit and won on aggressiveness. And yell; they literally screamed for the loc a man, for he had won over the natical champion in the 105-pound class and won the title for a year for his club and for himself. And not only in the 105-pound, but in the 115-pound class as well, did the local Turn Verein the Hauers last year's champion winwin, Bauers, last year's champion, win-ning it a second time over Septon of the St. George Athletic club in very

Dole and Mehners. And then the 125-pound final was in. Dole looked confident and so did dehners. They took their corners. It was more important to us now than any prize fight or football game. If I was worked up the Thursday night of the gentests I was even more so now. So was Frank, for this bout meant so much to us, particularly interested as we were now, for I had told them that if Frank had not drawn Dole at the heginning of the contests he would have won over Mehners surely, and I anxious for this bout to prove it In fact, we had it already arranged that if Mehners should throw Dole he was to take Frank on the next evening in the gym of the Turn Verein—a special

I Cured My Rupture

I was practically helpless and bed-ridden for many years from a double rupture. I wore incommenable different kinds of trueses and appliances. Some of them were tortures some positively dangerous, and none would hold the rupture in its proper place. The doctors told me I could not expect to have it entirely healed unless I would consent to a surgical operation. I fooled them all, however, and cured myself completely and permanently by a simple method which I discovered. Anyone can use it, and I will gladly sind the cure free by mall to anyone who writes for it. Fill out the coupon below and mail it to me today. I will send the cure by return mail, posipaid.

match—and Frank would have thrown him I'd bet. Mehners was perfectly willing, as he is always willing to wrestle anybody or everybody at any time. He is a good sport and a fine little fellow. His knowledge of the game and his care of himself has given him all the confidence in the world. And the peculiar fact about it is that he is a vegetarian. He never eats meat, smokes ner drinks and is always in condition. He can wrestle at 125, 120 or 116 if he likes. When he went into the match he was 122 pounds, three pounds under weight, and the only reason he doesn't go into the match at 116 is because he would rather give his son he doesn't go into the match at 115 is because he would rather give his club mate a show than enter in the same class with him. This certainly shows a magnanimous spirit and good sportsmanship. Why, the members of the association of Turners say he couldn't be beaten, and when we expressed the fact that wait until Dole got a hold of him, they just laughed. In spite of his great qualities he was to meet a man his equal. Both of a sanguine temperament, there were different guine temperament, there were different qualities in the two men. Not once did Him Down in Quicker Time That either one think he was to be beaten. They were the same national tendency

By H. W. Kerrigan.

New York, April 2.—With Saturday night, March 30, came the finals in the national wrestling championships. The crowd was larger than ever and more enthusiastic, if possible. Every lover of the game was present, and there cestainly is a bunch crossent, and there ways he appeared too slow. But his knowledge of the gifne gave him the knowledge of the game gave him the confidence to watch and wait. Such was his game. And with it all he showed great coolness and daring, going haif way to his back to lay for an opening to watch and strike. Not like the paw of a lion or tiger, but like the slow, lithe movements of the snake crushing a rabbit in its folds.

Rushing as was his usual wont to

Rushing as was his usual wont, to intimidate his adversary, Mehners made at Dole. Moving like lightning, he at Dole. Moving like lightning, he seemed to just revolve around Dole, trying for an opening. For fully two minutes he kept this up. But Dole had anticipated this attack. He was as steady as a rock. Meeting one on-slaught after another, he was not to be drawn in or shaken off his feet. Mehners soon found this out, and even ushed him the more with many open-Mehners soon found this out, and even rushed him the more with many openings, but Dole was wary. He was biding his chance. Mehnars, as we had anticipated, had shot his boit. He had always succeeded up to this time with other men. He was clearly bothered. Dole was on top now and down. Like a snake did Mehners wriggle and struggle. It was simply great. Never did we see such a struggle. And it is only to be seen with small men who know every trick of the game, and move like cats. Even as it is in the boxing only to be seen with small men who know every trick of the game, and move like cats. Even as it is in the boxing game. It was good to look at. Now Mehners was on top, and such desperate efforts to do something, but Dole was like a rock—couldn't be moved. Up on their feet again. Three and a half minutes had passed. Dole was now trying for his deathly scissors hold. Yes, he had got him. No, he was loose. He had him again and then came the real struggle. Mehners was fighting for his reputation and championship. He had never been beaten or defeated. Just imagine! But now he was in his last struggles. Slowly but surely Frank Dole was getting his man. Mehners could not understand. Neither could his admirers. What was the matter with him? Another struggle. It looked like he would get out of it. It was the last effort. Slowly he succumbed, and being forced back, Dole being

the last effort. Slowly he succumbed, and being forced back, Dole being thrown from one side to the other by the struggies, but hanging on he relaxed all of a sudden.

The referee touched Dole and Mehners was defeated in four minutes and six seconds. And Frank in the previous match had stayed the limit.

Vance was on for the next hout and

Vance was on for the next bout and did himself proud, but he was no match in science for the other man, and went down in two minutes and thirty sec But he fought gamely, and we with him to the finish.

Signed Yesterday Calls for Two Games of Foetball.

AGREEMENT PROVES SATISFACTORY TO BOTH

On the Next Two Thanksgiving Days the Lemon Yellow Warriors and the Red and White Veterans Will Meet in Combat on Gridiron.

The Multnomah Amateur Athletic club and the University of Oregon have entered into an agreement to play their annual football games on Thanksgiving day of this year, and also next year. The two-year contract was signed by the club manager and C. N. McArthur.

the club manager and C. N. McArthur, the local representative of Oregon, yesterday, and the document calls for a game in 1907, and also one in 1908.

The same conditions will govern both contests. While the exact stipulations have not been made public, it is known that the club authorities are greatly pleased over the way that the negotiations turned. The club will receive a higher price for the field in both games, and will also have the entire proceeds of the grandstand should it be decided to charge an admission.

to charge an admission.

It may be that before next fall the club will have the much talked about and greatly needed new grand-stand. The present grandstand is only stand. The present grandstand is only an excuse. It is poorly situated, poorly built and affords the occupants no comfort whatever. A new structure that would accommodate say 4,000 or 5,000 people would be of great convenience to spectators, besides being a source of revenue for the club. The club dislikes to charge admission to the present grandstand on account of its many drawbacks, and for that reason the members are urging a new stand.

Now that Oregon and Multnomah have signed up for two years, the followers of both institutions will be assured that at least two star attractions in football

HOW I CURE WITHOUT DRUGS

A great many men are doping their stomachs with drugs, trying to overcome some chronic disease or weakness, and wonder what makes them so hervous, restless and unable to think clearly. They naturally blame the disease for it, but the trouble is really caused by drugsing.

Your stomach when it is working right, generates the power which runs every organ o power is elec-tricity. When your stomach, kidneys, liver or digestive organs get out of order it is because they lack the necessary elec-tricity to en-able them to perform their regular func-tions. The breaking down

tions. The breaking down of one of these organs nearly always causes other trouble. Nature can't cure them, because your body hasn't enough electricity to do the work; so you must assist Nature by restoring this electricity where it is needed. My Electro-Vigor does this while you sleep. It saturates the nerves with its glowing power, and these conduct the force to every organ and tissue of your body, restoring health and giving strength to every part that is weak. Electro-Vigor is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It removes the cause of disease, and after the cause has been removed nature will do the rest. It gives back to the nerves and organs the power they have lost, which is their life.

Electro-Vigor is a body battery, made of separate dry cells. It is easily, comfortably worn next to the body during the night, and gives out a continuous stream of that

strength building, nerve - feeding force which is the basis of all health. Electro-Vigor is not an electric beit—there is no charging to do—no vinegar or acid solutions to bother with.

It's easy and sure to be cured by Electro-Vigor, and the cost is not half an ordinary doctor bill. En Cin
