

DRY DIGGINGS YIELD WEALTH

Unusual Water Supply is a Boon to Placer Miners of Josephine.

SELDOM SUCH HARVEST OF THE VIRGIN METAL

New Mill for the Tin Pan and Developing Equipment for the Huff Mine—Lucky Bart Still Plays in Luck—Gold Shipments.

(Special Dispatch to The Journal.) Grants Pass, Or., April 10. — The harvest of virgin gold is pouring in. Every day bags of yellow metal are brought in from the surrounding placers and passed over the banking counters for Uncle Sam's money. Much of it is expressed to the miners themselves to the San Francisco mint or the refinery at Selby. Because of the large quantity shipped out in this manner Oregon receives credit for but little more than half her real output of gold. The heavy and unceasing rains are proving a bonanza for the surface diggers, and they are making good this opportunity. There is from 8 to 10 feet of soft snow on the ranges, and this insures an abundance of water till June or July. Dry gulches and dry diggings that have been dry for years have an abundance of water this season and are being washed out by light pipes or by the old-time method of sluicing and richer. As these dry diggings are the richest diggings, the output of gold from this source is considerable and is the means of putting much ready money into circulation. As a result of the large amount of placer gold harvested here this year, lines will be uncommonly good in Grants Pass this spring and summer.

A railroad of machinery for the Tin Pan mine on Galls creek, in the Gold Hill district, is being hauled out for installation. The machinery consists of a 10-stamp mill, a concentrating plant and full auxiliary equipment for ore reduction. It will be in operation in a short time. The Tin Pan is the property of the Pacific American Mining & Milling company, composed of Pennsylvania capitalists. It is one of the best producers in the Gold Hill district and a regular shipper. It has a strong ledge of pay ore from 4 to 10 feet wide, opened by direct tunnel to a depth of 100 feet, and there is plenty of ore in the bins in sight to keep the mill busy from the start.

Lucky Bart Still Lucky.
The old Lucky Bart mine of the Gold Hill district, continues to be as lucky as ever. Another big brick was brought in from the mine and exchanged over the banking counter for coin by manager J. H. Beaman a few days ago. The Lucky Bart ore body is getting wider and richer with depth, and the property promises to remain a regular producer for many years yet. The Lucky Bart is operated under lease by Kirk & Hill.

The Huff mine, another Gold Hill property, is making a fine showing, and is being deeply developed. This property is located on Sardine creek. Its ledge is from 10 to 12 feet wide, the values running from \$10 to \$15 a ton. This was one of the properties purchased by the Hamme Mining company of Cincinnati, Ohio, and upon which the company is expending much money in getting it in shape to enter the producing class. It is being equipped with adequate development machinery. Mining and milling machinery arrived recently for this property and will be placed as soon as road conditions will allow.

Out of Sight.
"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that's been treated with Buckler's Arnica Salve. It's out of sight, out of mind and out of existence. Piles, too, and chilblains disappear under its healing influence. Guaranteed by Red Cross Pharmacy, etc.

COLLEGE Y. W. C. A. AT CORVALLIS

Larger Student Convention Than Ever Before Assembled in That Town.

THREE DAYS' SESSION TO BE OPENED FRIDAY

Long List of Colleges and High Schools Represented by the Hundred and Twenty-Five Delegates—Most Eminent Speakers.

(Special Dispatch to The Journal.) Corvallis, Or., April 11.—Friday morning will witness the opening of the state convention of the College Young Women's Christian Association in this city. It will be the largest student gathering in the way of conventions ever held in Corvallis. One hundred and twenty-five delegates, all students themselves, are to be in attendance, coming from the following colleges, universities and high schools: University of Oregon and Eugene High school, Willamette university, Drain normal, Ashland normal, Monmouth normal, Albany college, Chemawa Indian school, Dallas college, Philomath college, Minville college, Newberg college and High school, Pacific university and two city associations, Salem and Portland.

Some of the Notable Speakers.
Many prominent and brilliant speakers are to be present at this big convention, which promises to eclipse anything of the sort ever held in this city by any organization. Among the speakers are Miss Constance McCorkle, Miss Francis Gage, state secretary of the Y. W. C. A.; Mrs. W. G. Honeyman; Miss Francis Ison, city librarian; Miss Mary Montgomery, president of the Consumers' League; Mrs. Lola Baldwin, secretary of the Travelers' Aid; Mrs. M. R. Trumbull, secretary of the child labor commission; Mrs. G. Holmes-Lawrence, president of Holmes' Business college; Mrs. Reno B. Hutchinson, Miss Watson and Mrs. C. T. Tinker, all of Portland; Miss Julia Frazier, Pacific coast secretary of the women's board of missions of the Presbyterian church, San Francisco; President McGrew of Newberg, Dean Kimball of the Willamette Theological seminary and others.

Program for the Three Days.
The program will open at 9 o'clock Friday morning in the college chapel. The program for the three days is in full as follows:

Friday—9 a. m., devotional, led by Miss McCorkle; Bible study, Mrs. Stacey; 11 a. m., meeting with students in chapel; greetings from President Gatch; response, Mrs. Honeyman.

Friday afternoon—8:30, devotional, Miss McCorkle; reports of association; address, "The Consumers' League," Miss Montgomery, Portland; "Child Labor," Mrs. Millie Trumbull, Portland; "Library Work as a Profession," Miss Ison, Portland; "Library Commission," Miss Marvin, Salem.

Friday evening in college chapel—Address, "Alien or American," Miss Julia Frazier, San Francisco; "College Women's Opportunities," President McGrew of Newberg college.

Saturday—9 a. m., devotional, Miss McCorkle; Bible study, Mrs. Stacey; reports of state officers; finance hour. Devotional, Miss McCorkle; Travelers' Aid, Mrs. Lola G. Baldwin, Portland; student conference, Mrs. C. T. Tinker; city conference, Mrs. Gertrude Holmes-Lawrence.

Saturday Evening Reception.
Saturday evening a splendid reception will be held in the Armory, the affair being very "well" and invitational.

Sunday morning the "Work for Women" will be presented in the various churches of the city. In the afternoon, "In the Domain of the Turk," an address to women only, by Miss Francis G. Gage, will be given in the college chapel. In the evening a union service of all the city churches will be held in the Armory. The convention address, "The Christian Athlete," will be delivered by Dean Kimball of the Willamette Theological seminary, and the farewell service will be conducted by Miss Gage.

THE PERFECT WAY.

Scores of Portland Citizens Have Learned It.

If you suffer from backache, There is only one way to cure it. The perfect way is to cure the kidneys. A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only. Are endorsed by Portland people. G. H. Springmeyer, expressman, of 1016 First street, Portland, Ore., says: "Exposure to rough weather and the jarring of my wagon brought on kidney trouble. My back ached almost constantly and the action of the kidneys seemed weak and the passages of the secretions too frequent. Doan's Kidney Pills came to my notice and I got a box and began using them at once. The pain in my back was soon relieved and the kidney secretions became normal. Two boxes of Doan's Kidney Pills brought about this result." (From statement made Feb. 28, 1903.)

CURED TO STAY CURED.
On Jan. 12, 1906, Mr. Springmeyer confirmed the above statement and added: "Since the time referred to in my former testimony I have not had a trace of kidney trouble. I have recommended Doan's Kidney Pills to many people and am always glad to do so." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—DOAN'S—and take no other.

Corvallis Hospitality.
Corvallis people will open their doors for the entertainment of these young student delegates and the town will be theirs to command during their sojourn here. Great plans are being made for the convention and the occasion promises to be one of the most successful ever held by the Y. W. C. A. in Oregon.

THE SKEWER LANGUAGE

Used in the Meat Business and Known to 50 Men in New York.

There are about 50 men in this city who know how to make meat skewers keep a record of their business transactions. These men are the representatives of the Chicago packers, who sell thousands of quarters of beef every day to butchers, says the New York Sun.

The work of these men is accomplished with great rapidity. Frequently they are making sales to a dozen butchers at the same time, and to record these sales in a book would not only consume a lot of time, but would be difficult, as all quarters of beef look alike.

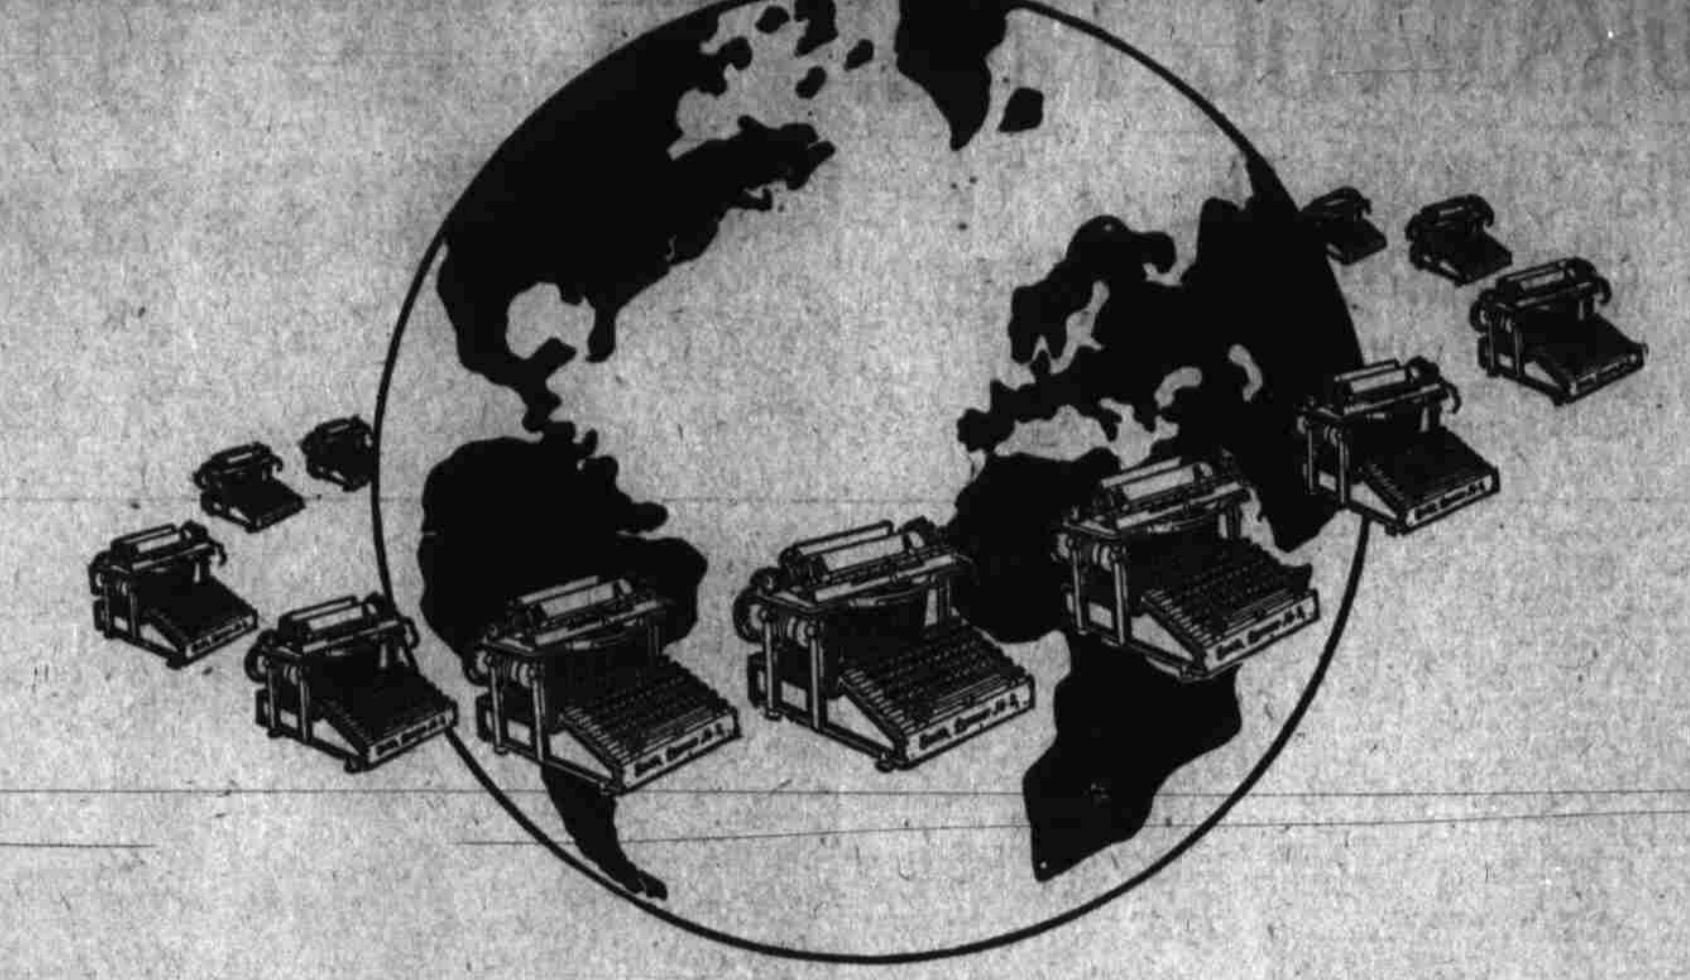

As soon as a sale is made the salesman sticks skewers into the quarter selected by the butcher. The skewers are placed in such a way that each butcher's purchases are easily picked out when the time comes for delivering them.

As some of the salesmen have as many as a hundred customers in a day it is evident that as many combinations of the skewers have to be formed. In no case are more than three skewers used on a piece of beef.

In one big icebox there were 20 rows of quarters of beef, with 47 quarters in each row. In each piece of beef were skewers, placed at various angles, straight up, two of them crossed and in every conceivable combination.

"I know by these skewers which piece belongs to," said the salesman. "Every beef house salesman has his own signs."

"This method of marking the meat serves several purposes in addition to that of saving time. A salesman from another house could not come in here and find out what my customers have bought by looking at the skewers, which would be easy enough if the meat had their names on it. "Neither can one butcher find out what quality of beef another is buying. I could make a thousand signs without using more than three skewers on any one piece of meat."

WHEN a country becomes civilized it demands typewriters. When it becomes posted on comparative values it demands

The Smith Premier Typewriter

The fact that the Smith Premier Typewriter is used in every civilized country on the globe is not so important as the further fact that the demand increases year after year.

The reputation of the Smith Premier is world-wide. World-wide use has made it so.

GRANTS PASS OUT FOR FACTORIES AND PAYROLL

Box and Door Company Secured and Cannery is to Be Landed Next.

(Special Dispatch to The Journal.) Grants Pass, Or., April 10. — The Grants Pass Commercial club is concentrating its efforts on the establishment of new enterprises in Josephine county, with the end in view of de-

Cures Biliousness, Sick Headache, Sour Stomach, Torpid Liver and Chronic Constipation. Pleasant to take

ORINO Laxative Fruit Syrup

Cleanses the system thoroughly and clears sallow complexions of pimples and blotches. It is guaranteed

veloping the natural industries of this section and creating a larger payroll. It has practically completed the preliminary work of placing a new box and door factory here, which will employ nearly 100 men. This factory will occupy a site of 10 acres purchased by the club and will be placed and operated by a California corporation. The purpose of this factory is to manufacture building, sash and door material, as well as box material for Oregon use primarily.

The club is now at work on the establishing of a cannery in this city. The proposition is well under way and the necessary funds as a bonus have been subscribed. A committee appointed by the club is now making a canvass of the farming districts to secure a guarantee of fruits and vegetable products for canning. Apples, peaches and pears will be canned, also tomatoes, corn and other vegetables. The railroad company, through its representatives, has made a special rate to the club on canned goods of 80 cents per 100 between Grants Pass and Portland; the old rate was 90 cents per 100 between these points. This low rate has been made both on fruit and tin cans.

The Commercial club has decided to use its efforts and funds toward the establishing of enterprises of this sort, rather than toward the scattering of literature, feeling that there is urgent need of developing the resources of the county for the sustenance of the present population.

Largest Building Stone.

The walls of the Acropolis at Baalbek are truly called Cyclopean. The famous Triton, the largest stone ever used in building, measures respectively 48, 64 and 82 feet in length, each block weighing about 750 tons. How these huge masses were accurately placed in position 30 feet above the ground is a problem which modern science, with all its appliances, leaves yet unsolved. Above them are Arab fortifications. The quarries whence these gigantic materials were obtained are among the most interesting features of Baalbek. Here may still be seen the method of work of the ancient quarrymen, stones vertically hewn lying almost ready to the hand of the builder. One of these stones, to which the Arabs give the name Hajar-el-Houtia, measures 59 feet in length and weighs 616 tons. M. de Saucy calculates it would take the united efforts of 40,000 men to put this huge block in motion. This quarry is now used as a necropolis by the inhabitants of Baalbek.

Largest Leather Belt.

In the equipment of the Dempsey Lumber company's new sawmill at Tacoma, Washington, is the largest single leather belt in the world. It is 94 inches in width, three-ply in thickness and weighs just 2,000 pounds. The belt is 114 feet long. It took the centers of the hides of 225 steers to make it and each piece of this leather was separately stretched before being placed in the belt. In putting the belt together no pegs, rivets or fastenings of any kind were used except cement of the best quality, and the pieces were cemented together under a hydraulic pressure of 350 tons.

MEN TREATED AND CURED
Best Service! Lowest Charges! Cures Guaranteed
Who are afflicted with NEURALGIC DEBILITY, or falling strength, commonly called "LOST MANHOOD," Exciting Irritation, Pimples, Lame Back, Inflammation of the Bladder and Kidneys, Highly Colored Urine, Impotency, Dependence, Failing Memory, Loss of Ambition, Mental Worry, or suite of nerves and overwork; Piles, Flatula and Hemorrhoids or other weak uses, which absolutely unfit them for Study, Business, Pleasure or Marriage. We cure, no pay. Blood Poison, contracted or hereditary; Rheumatism, Gonorrhea, Scabs, Swellings, Discharges, Gonorrhoea, Gleet, Stricture, Enlarged Prostate and Hypertrophy, Hemorrhoids, Eczema, and Constipation, Herpes, Resonance, Chaperon.

Said Kornelia Kinks, "De Lord be thanked, I've found de shoe with which I'm spanked." She nailed it down so tight, they say, It's lying there this very day. "You'll never touch me more," said she, "Unless they spank the shoe with me."

Don't punish yourself by trying to eat foods that don't agree with you. "Korn Kinks" agrees with everybody, and tastes good to young and old. Fine corn, flaked and malted, digestible and full of strength and energy. Try it for a pleasant surprise. Your grocer has it—only 5c.
