

MRS. WHITE LIVING QUIETLY

This picture is from a photograph of Mrs. Stanford White, wife of the man shot down by Harry K. Thaw. Mrs. White is living quietly in Cambridge, Massachusetts, and avoids all reports of the famous trial. It is said she will be compelled to ac-

company her all in order that the debts of the architect may be paid.

LANE MEN OFFER NO OBJECTION

Mayor's Supporters Hold Nothing Against Acts of Thomas' Friends, Says Murphy.

PLATFORM TOO SMALL FOR BOTH TO STAND ON

Declares Reames' Muck Rake at Democratic Meeting Dug Thomas' Political Grave and Latter's Candidacy Not Worth Talking About.

Discussing the local Democratic situation today, J. Hennessy Murphy said: "No objections came from Lane's supporters to the course pursued by Thomas' friends at the recent meeting of the two Democratic clubs, in so far as it related to the latter's pre-arranged program. It was apparent from the start that Thomas had committed the fatal blunder of using his official position as a shield to his political aspirations. If Thomas has political enemies they could not expect to see him in a more humiliating attitude than that of Thomas, the 'official' head and mentor of his party' affluently eulogistic over Thomas the candidate of his party."

Reames' Muck Rake. "The late Thomas Hayward once said he refused to reason with a man who seriously contemplated committing suicide. This was the temper of the meeting until Reames fished out his muck rake and became the life of the funeral. Thomas' candidacy is not worth while talking about, it's worth while to be manipulated in the official position that caused comment. After all, a Democratic candidate in this neck of the woods is a fiction of politics. He may believe in certain fundamentals of his party that has to do with the larger conduct of national government, but in domestic politics he is put up by his party as a man with all the attributes that appeal to his fellow citizens for the honest and efficient conduct of their domestic affairs—their city government. He is a Democrat in name and an independent in fact, for if elected to office he will be elected in the ordinary run of events by independent votes far outnumbering his own party vote."

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily giving in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in the advanced stages (no medicine will do that), yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hump-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption. Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. (Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

TAKES BIBLE FOR PLATFORM

Golden Rule Thomas Has Scripture Plank in His Candidacy Announcement.

George H. Thomas, who aspires to be the Democratic nominee for mayor, has delved into biblical lore to get the pith of his platform. The statement which has been made to accompany the name of the candidate on the primary ballot says: "If I am nominated and elected to the office of mayor of Portland I will during my term of office endeavor to do unto others as I would have them do unto me. GEORGE H. THOMAS." Mr. Thomas also, in a statement which he has prepared as an interview for the press, further outlines what his position is and what it will be during the campaign coming. He promises to bring Henry and Burns to Portland in the event of his election and delve with them into civic unrighteousness and fraud. "This," he says, "is no joke." He also announces himself as favoring promotion for merit in the city service. "My candidacy is opposed by the special privilege corporations and their newspaper organ," stated Mr. Thomas this morning. "My appeal for support is to all citizens who believe in our institutions and have faith in the plain people of whom I am one."

I believe in promotion based on merit in all municipal departments, and for the convenience of those who labor upon the docks let the arc light supplant the great darkness of the waterfront and there will be fewer murders and accidental drownings. "I have no administration to defend and will try to secure Mr. Henry and Mr. Burns to investigate conditions in Portland. They will be helped by me and no joke about it. All city election frauds, if any, will be punished. "I believe that property honestly acquired and all those who toil must have equal dignity before the law."

MAY ESTABLISH AN INDUSTRIAL BRANCH

Y. M. C. A. of Roslyn Contemplating Important Extension of Its Activities.

Edward Shearer, formerly of Portland but now living at Roslyn, Washington, is in the city conferring with George D. McDill, international president of the railway department of the Y. M. C. A. in regard to the establishment of an industrial branch of the association at Roslyn. Although Mr. McDill is identified with the railway work of the association, work he has been connected with the industrial department and was able to aid Mr. Shearer considerably in the settlement of questions pertaining to the work in his city. Mr. Shearer said that the association has 325 members at the present, most of them miners. It is for the purpose of securing new quarters for the association that Mr. Shearer consulted with Mr. McDill. Mr. Shearer was formerly connected with the local Y. M. C. A. and has a large number of friends who will be pleased to learn of his success as manager of the electrical department of the Northwest Improvement company at Roslyn.

BETTER TIMES COMING

Prophecy of N. W. Rountree of Rountree & Diamond, the Realty and Insurance Brokers. "In view of the railroad developments around Portland and the splendid advertising campaign carried out by the Commercial club, and the enterprise of the big newspapers, this city and state are being shown much partiality by home-seekers and investors," said N. W. Rountree of the real estate firm of Rountree & Diamond, when seen in his offices at Second and Stark streets. "The nature of our business having brought me into contact with large financial interests operating in the northwest, it is my opinion that there are better times to come than we have experienced. We have a number of important deals maturing and feel confident that those engaged in selling realty have enjoyed but a foretaste of the prosperity in store for them."

Advertisement for Railway Conference at Olympia Saturday. (Special Dispatch to The Journal.) Olympia, Wash., April 11.—There will be a conference in Olympia on Saturday between the railroad commission and representatives of the transcontinental railroads of this state, at which the rules and regulations proposed by the commission for the government of various railroad conditions will be finally settled. These rules were submitted to the railroads some time ago and various changes have been proposed by them. The entire subject will be settled at the conference Saturday. There is a strong probability that the National Association of Railway Commissioners will be asked to meet in Seattle in 1907, instead of 1907, as now planned. The matter of changing the date is under discussion by the railroad commission and the Seattle Chamber of Commerce. The meeting this year will probably be held at Washington, D. C.
