TODAY'S MARKETS

Continued Quiet Is Shown in Hops Because of the Very Bearish Statements Sent Out by Local People to Eastern Connections.

VARIOUS PRICES RULE IN BUTTER

Second Grade Has Now Made Its Appearance in the Front Street Markets.

NOTHING BUT FIRST QUALITY FOR MONTHS

Some Best Stock Is Sold on Street as 27½c a Pound and Second Grade Is Quoted Everywhere at This Figure.

Principal market features today:
Sharp declines in butter.
Second grade creamery on market.
Syrup is showing a rise.
Lemons are advancing.
Orange market to go up.
Eggs are weaker and lower.
Hay market is in good shape.
Flour likely to rise soon.
California-Hawaiian advances sugar.
Poultry market very stiff.
Poorer grade dressed meats in.
Mexican tomatoes are lower.
Jobbers advance fancy spuds.
Onion market stiff but unchanged.

Sharp Declines in Butter.

As has been exclusively predicted by The Journal the butter market along Front street shows still another decline and the expectations are at this time that city creamery values will side downward the first of the week. Receipts of out-of-town creamery are very liberal, especially from Willamette valley points. The weakness of the present market is shown by the reentering of the second grade stock which has not been on the market for several months. The absence of second grade butter was due to the unusually heavy demand and light arrivals. Today second grade butter is quoted at 2½c decline from first grade price and it is asserted that there is absolutely no difference is the quality. The first grade of Albany was quoted last yesterday afternoon at 27½c as a cleanup value and this morning most of the out of town creameries seem willing to let go at that figure. Although most of them are quoting their best grade today at 30c it is stated that secret cuts in value are being made. However, it is the general impression of the trade at this time that all values will show a drop the first of the week.

Eggs Weaker and Lower.

With materially larger arrivals the egg market is weaker and lower today. Dealers say that arrivals during the past 24 hours have been increased fully a third. They likewise state that there is a great demand for egg cases at this time; county shippers asserting that if they had better supplies of cases they would ship more eggs. The lack of egg cases is causing shippers to send eggs to market in all sorts of packages and the breakage is very heavy on this account.

Chicken market is firmer with continued lack of fresh supplies and 15c is being easily obtained today for mixed lots. Fancy hens ½c higher than that.

Cheese market is very bare of supplies owing to the Tillamook boats being unable to reach that city on account of the adverse tide.

Poorer Grade Dressed Meats Arrive.

Milder weather has caused dressed meats to arrive in poorer shape and this has resulted in some concession in the price. The lack of quality is shown more in veal than in hogs; arrivals in the latter not being even liberal.

Onion market is stiff but unchanged today.

Mexican tomatoes are lower with wide range of quality and much more liberal arrivals. Values along the street today range from $1.75 to $3.00 a crate.

Jobbers are quoting an advance for fancy spuds; best stock today selling on the street as high as $2.25. Buyers are paying as high as $1.80 for best stuff although if a strictly fancy car could be obtained this price may be stretched. The second car of Minnesota stock was unloaded this morning. It was of good quality and sold at $1.85 and $1.90.

Hawaiian Company Puts Up Sugar.

Late yesterday afternoon the California & Hawaiian Refinery announced an advance of 20c in all grades of sugar owing to the sharp rise in the east and in other markets. This action was exclusively foretold by The Journal during the past week. This morning the Western company had not followed the rise and jobbers are therefore holding back quotations to the low mark.

Orange market is firmer and an advance is likely during the next few days.

Lemons have advanced during the past few days in the south and a like movement is expected here. Some jobbers already quoting a slight rise because of the increased cost.

Friction top syrup is advanced 20c a case today.

The trade pays the following prices to Front street. Prices paid shippers are less regular commissions:

Flour values are very firm all over the Pacific northwest and present prospects are that millers will be forced to quote advanced values despite their efforts to hold the market down. Higher wheat the cause. Hay and all millstuffs are firm.

Chicago was quite active today and the price see-sawed all through the session and closed ⅛c to ⅜c advanced over yesterday. Liverpool was quiet and closed unchanged to ⅛d up.

The bug situation is about the same in Kansas as it has been for some time past, but more people are beginning to take stock in the damage reports. With the same weather conditions as they had in Oklahoma and Texas, it looks as if there is to be a shortage in the crop in the two states.
