GIVES STRAIGHT TALK TO BOYS

bor. It will never be a labor that is built up on the false basis of doing the least possible amount of work for the largest possible smount of work for the largest possible smount of work for the largest possible pay.

"No doctrine was ever so dangerous as this, now being taught by bad men, men who have never been able to gee beyond their own noses. Why, the very manhood of the laboring men is at stake. Character, the only pearl of great price in the possession of the workingmen, is in danger of being lost to him who can ill afford to lose it, because of this false and infamous doctrine of superficial economists, that duty of the laborer is to do as little work each day or hour, as possible. If work each day or hour, as possible. If work each day or hour, as possible. If ever the kingdom of God is to be found in a man, it is to be found in the willing worker who makes the most of all he is regardless of others.

s regardless of others.

"Figures show that the United States is the richest country in the world. Concreted into a mathematical expression our wealth has been put at \$110. 000,000,000. Such stupendous figures stagger the imagination, for they are far beyond the power of the scientists, much less the ordinary mind to grasp."

Professor Monaghan at Columbia Denounces False Doctrines of Labor.

Trines of Labor.

Professor James C. Monaghan, chief fi the bureau of consular reports at Washington, D. C., delivered an interesting address before the faculty and students at Columbia university this morning. Archibishop Christie was prosperous in the listory of the word. He said suits before coming that they were never so high, the hour of labor, at the present time, decolar the listance of the said are relocated and students at the present time, decolar the listance of the said and students at the present time, decolar the listance of the said and students at the present time, decolar the listance of the said and students are relocated in part:

"Wages were never so high, the hour of labor so fow, the comforts of the listance of the said are relocated in the listory of the world. He said suits before coming break are relocated in part:

"Wages were never so high, the hour of labor so fow, the comforts of the listance of the natives have gotten down to stime when labor is to take its place at the present time, decolar the listance are relocated to the said are relocated to the said are relocated to the said and the provential of the said are relocated to the said and the provential are the head of the distribution table, but the head of the distribution table, but that must be deucated, not ignorate, and is have signified were the said that the said are relocated to the said and the provential are the said and the said are relocated to the said and the said are relocated to the said and the said are relocated to the said and the said are said and the provential are said and the said and the said are said and the said are said and the said are said

WILL BECOME TOO OBNOXIOUS

In order to force the council to enact a good building law, Mayor Lane will let the Shepherd ordinance go to the legislative body Wednesday without his signature. In explanation of his proposed action the mayor said this morning that he wished to have the building laws revised.

"A veto of the ordinance," he said, "would have no effect. The council has passed it unanimously, and it would probably pass the ordinance over the or reenforced concrete construction.

UP AND COMING AGAIN

Ready to Do Petitioning All Over Again-Linn Granges in Favor of Armories.

Decide on Lawyers First.

Until the question of attorneys is finally settled it is considered probable that Thaw will not apply for release on bail. It is likely that the prisoner will get a set of lawyers who will work in harmony before another step is taken.

It may be more difficult to provide the large bail bond required than has been anticipated. Mrs. William Thaw's fortune is said to have been greatly depleted by her son's extravagance before he shot White and her heavy expenditures on Alis behalf since, and hereafter some economy will have to be exercised in the matter of Thaw's defense.

Mrs. Thaw's fortune being greatly impaired, she is hardly shie to give the bail alone. Thaw's other relatives are said to be unwilling to take chances on him, are old family frouble, in which Harry amtageonised his brothers in the disposition of the Thaw coke lands, stards in the way.

Mrs. Evelyn Nesbit Thaw went alone to the Tombs yesterday in an automobile. But Sunday is not a visiting day, and the prison rules, which had been relaxed in her favor during the triel, were enforced and she was not permitted to see her husband. She exchanged letters with him, however, waiting a long time for his lengthy response to her note and then writing to him

CANAL ZONE HAS NEW FORM OF GOVERNMENT

(Journal Special Service, 1 Washington, D. C., April 15.—All the municipal governments heretofors ex-sting in the isthmian canal sone are isting in the isthmian canal sone are abolished by the new regulations which go into effect today. The new order of things makes wholesale changes with a view to harmonizing the various parts of the sone and making more effective the machinery of government. The five municipal governments are replaced by four administrative districts which will be under the direct control of the canal commissioners. It is estimated that the total saving to the United States under the reorganized government in the zone will be about \$100,000 g year. The new regulations also provide several important changes in the marriage laws and the penal code of the zone.

WOODBURN IS TO BE LAW-AND-ORDER TOWN

City Council Blocks Out Program That Will Make the Lid a Rigid Reality.

(Special Dispatch to The Journal.) Woodburn, Or., April 15.—At the eeting of the city council Saturday night salaries were fixed as follows: Mayor and councilmen, \$18 per year, the ouncil to meet the first Tuesday of council to meet the first Tuesday of each month in regular session; recorder. \$120 per year; treasurer, \$25 per year; city attorney, \$100 per year; health officer, \$50 per year; marshal, \$50 per month; night watch, \$35 per month. Resolutions were passed looking to council action as follows: To uphold the mayor in the improvement of the streets and the inforcement of the laws; for an ordinance compelling saleons to

for an ordinance compelling saloons to remove partitions, screens and curtains during the hours when saloons are or-dered closed so that the public can have dered closed so that the public can have a full view of interiors; to pave, if the charter allows it, and if not, to macadamise, Front street and intersecting streets for one block west, at the expense of abutting property owners and to secure grades for cement walks, curbs and gutters; to drain, grade and macadamise Young, Lincoln, Hall and South Front streets at the expense of abutting properties; to prohibit the use of abusive, threatening or intimidating language on the streets under penalty language on the streets under penalty of \$10 to \$50 fine or 10 to 20 days imprisonment for the first offense and \$25 to \$100 fine or 30 to 90 days for the second offense; for a reward of \$25 for the arrest and conviction of any person the arrest and conviction of any person selling liquor within the city limits without a license; that the city attorney revise all ordinances to the end that the bad ones may be repealed and the

RAILROADS GIVE

(Continued from Page One.)

to Portland and shipped from here by the railroad to the said interior town. Spokane's contention is that the rail-road company should be compelled to base its distance tariff on the terminal rate that has been forced down by water competition. The coast cities naturally resist this encreachment on their natresist this engroachment on their nat-ural advantages in transportation fa-

CASTORIA The Kind You Have Always Bought Bears the Chart Hillithis

at work sorting over the registration cards and posting up the books. This work will take at least 10 days. A number of voters reached the clerk's office Saturday night after the

olitician expresses it.
It is expected that there will be

large number of sworn votes both on primary day and at the election in June. The activity of the candidates in securing registration shows that they will make a hard fight for as large a vote as is possible. Many voters were practically registered by different can-didates or their friends during the last few days of their friends during the mat-few days of the registration. Solicitous friends assisted the ignorant ones in determining their true addresses and in attending to the other little details of registration. Through their efforts the list of new voters was swelled materially.

sumed in effect that water competition has no vital effect in determining the through rate from Chicago to Portland. Indications are that the Spokane attorneys will depend for success mainly upon a showing they may be able to make that the present railroad companies are largely over-valued for the purpose of making a high basis for freight rates, and that these railroads could today be reconstructed at a cost that would permit much lower freight rates and fair dividends. The vital point to Portland commercial interests, in any such showing, is to maintain the natural Portland commercial interests, in any such showing, is to maintain the natural advantage possessed by this city in having water competition by ships around the Horn, and also by water and rail competition via the Tehauntepec railway and the American-Hawaiian steamship line, and other steamship companies operating via Panama.

It is said that whatever railroad rate Spokane may be able to secure from Chicago to that city, the logical rate to Portland must still be enough lower to enable the Portland distributor to ship to this terminal from Chicago

to this terminal from Chicago and then add the local rate to Spokane, and land his goods at the latter point as cheaply as they could be sent direct from Chicago to Spokane. To admit of any other result would, it is said, be to overturn the whole theory of rate making upon which the commerce of the country has been built up.

E. J. Pierson, chief engineer of the Chicago, Milwaukee & St. Paul ratiway's extension from Butte to the coast, was placed on the stand by Attorney Don.

extension from Butte to the coast, was placed on the stand by Attorney Donnelly to corroborate evidence given by Bunn at Chicago. Mr. Pierson gave figures and general estimates from memory to show the original cost of the Northern Pacific and the cost of reproducing it today. No exact figures were given and nothing was brought out to show the total cost per mile.

Mr. Pierson was for 12 years employed as engineer or superintendent on the Northern Pacific lines, prior to his employment by the Milwaukes. He said let of the currency. He held that posi-

mployment by the Milwauke the cost of engineering work for a rail-road is usually estimated at \$ per cent of total cost of construction, and cost of contingencies is figured at 10 per cent. Average yardage of earth moved in building a line is from 35,000 to 37,-

000 yards per mile.

A railroad roadbed improves with age.
he said, on account of the settling and
solidifying, and the development of
weak spots and their repair. For pres-

The grading, tunneling and bridging, exclusive of right of way and steel, in Heligate valley, from Missoula to Garrison, would average about \$42,600 per mile. On 22 miles on the west slope of the Bitter Root mountains, the cost would be \$125,000 per mile. He could give no estimate of the average cost of the line clear through the country.

Tomorrow morning J. N. Tesl, representing Portland commercial interests, will put witnesses on the stand to show the effects of water competition on the through rates from the east to this city, and other facts tending to prove Portland's unassailable advantage as a Pacific coast distributing point.

WIFEBEATER BREAKS OUT

Cottrell Also Alleged to Be a Bigamist—He May Avenge His Horsewhipping.

(Special Dispatch to The Journal.)
Winlock, Wash., April 15.—E. C. Cottrell, the Winlock wife-beater, escaped
from the county juli at Chehalis Friday night That Cottrell is also a biga-mist recent events indicate. Marshal mist recent events indicate. Marshal Roundtree has received a communication from a woman in Los Angeles, who claims to be Cottrell's wife, and the sheriff has received a letter from another woman in Montana, who makes the same claim. The marshal here has sworn in several deputies, as it is thought Cottrell may seek revenge on those who horsewhipped him some time ago.

DAUGHTERS OF AMERICAN REVOLUTION CONVENE

The registration clerks are now hard at work sorting over the registration cards and posting up the books. This work will take at least 10 days.

A number of voters reached the clerk's office Saturday night after the doors had been closed and the registration declared to be officially a thing of the past. These men failed to gain admittance to the registration room, and as a consequence will be compelled to swear in their votes on election day.

Affidavit voting will be a serious operation at the coming primaries and election. Politicians on every hand express the intention of keeping a close watch on all sworn votes and voters in order to see that no fraud is committed. Each candidate is planning to have a representative at every voting place to watch after his interests. If this plan is followed out the voter who has failed to register and wishes to swear in his vote will have to run a veritable gauntlet of examiners.

"Every man will have to know just exactly what he wants before he makes any affidavit," is the way one prominent politician expresses it.

It is expected that there will be a located the registration continental congress of the Daughters of the American Revolution convended in this continental congress of the Daughters of the American Revolution convended in this city today with about 1,000 delegates and alternates in attendance from all the states of the union.

The congress will be in session throughout this week and promises to be one of the most interesting in the history of the society. Today was given over to the formalities incident to the over to the formalities incident to the over the formalities incident to the over the formalities incident to the over which there was an address of welcome by the president-seneral, Mrs. Donald McLean. The apointment of the necessary committees and other business of a routine nature occupied to the remainder of the sension. The reports of the officers will be presented to morrow.

Chicago, April 15.—Dr. Daniel E. Pearsons, millionaire and benefactor of small colleges, celebrated his 87th birthday today. Many years ago Dr. Pearsons became convinced that it is the wisest course for a man of means to be his own administrator and to dispose of a large share of his property in his own lifetime. Acting in accordance with this idea the aged philanthropist has helped nearly 19 institutions, in 24 states, the endowments, including the amounts raised in order to meet Dr. Pearsons' conditions, reaching a total of about \$15,000,000. Dr. Pearsons still has several million dollars which he expects to distribute among the small colleges before he dies. The doctor is a native of New England. In 1857 he came west and soon accumulated a large fortune in the real estate business in Chicago.

MEETS BROTHER
