A merchant who is looking for certainty in advertising returns has missed his calling—for there is always a chance that some particular advertisement may fail of hoped-for results. The great English dramatist asked: "Can you look into the seeds of time and say which grain will grow and which will not?" Store ads are, in a measure, "seeds of time;" and while most of them will grow—an occasional one will not.

PLAGER MINERS SAVE

PLATINUM WITH GOLD

Deep Gravel Mine Cleanup Yields

Twenty Ounces—Special System Installed.

(Special Dispatch to The Journal.) Grants Pass, Or., April 15.—More than 20 ounces of pure flake platinum were cleaned from the sluices of the Deep Gravel mine recently, and this fine showing, together with that of the past two or three seasons, has led the management to install a special system for catching the platinum and the fine gold values. The system is now being placed by a special engineer of the Hendy company of San Francisco. The platinum is saved in connection with the placer placed mining work, and does not interfere with the gold operations. As platinum is worth \$34 an ounce, placer miners find it well worth their while to devote a little time and attention toward saving it.

BONAPARTE TO REVIEW

IDAHO INDICTMENTS

(Special Dispatch to The Journal.) Boise, Idaho, April 16.—United States District Attorney N. M. Rutck has left for Washington, where the indictments recently returned by the grand jury here are to be taken up with the department of justice. While some persons in Boise are insisting that the indictments were the result of a conspiracy on the part of federal officials here to bring about the downfall of certain individuals, it is pertinent to say that the investigations originated at Washington and the department of justice furnished briefs of the cases considered by the grand jury.

EARLY-BIRD FISHERMEN

FETCH UP IN COURT

(Special Dispatch to The Journal.) Astoria, Or., April 16.—Water Bailiff Settem yesterday arrested Anton Zanick and Joe Grogan for fishing for salmon in the Columbia river three hours before the season opened. The men were fishing in Westport slough at the time of their capture. Both had a hearing in the justice court yesterday afternoon and pleaded guilty. They were fined \$50 each and costs, the whole amounting to \$52.40, which they paid.

MAN ACCUSED OF THEFT

BACK TO FACE CHARGE

(Special Dispatch to The Journal.) Eugene, Or., April 16.—Bert Kelsay, a young man residing in Eugene, for whom arrest warrants had been out for several weeks on the charge of grand larceny, walked into Sheriff Fisk's office yesterday and gave himself up. He is charged with the theft of a check for \$248 from John Tunnell, a miller of Creswell. Soon after the loss of the check was discovered and it was learned that Kelsay had cashed it at Cottage Grove, the found man disappeared and is said to have gone to Washington. He says he knew nothing of the warrant for him being out until a few days ago, and he at once left for home to give himself up. His examination will probably be held today.

RESIGNS FROM MINISTRY

AT AGE OF EIGHTY-FOUR

(Special Dispatch to The Journal.) Eugene, Or., April 16.—Rev. D. E. Loveridge, who has been rector of St. Mary's Episcopal church for almost 20 years, has tendered his resignation, to take effect as soon as his successor is appointed. Bishop Scadding is expected here on Sunday, May 19, at which time it is probable the minister who will succeed Dr. Loveridge will be announced. Dr. Loveridge resigns on account of his advanced age. He is over 84 years old, and feels he is unable to perform the duties of his office. He is willing to give way to a younger and more active man. He will continue to reside in Eugene, looking after his fine vineyard and orchard between here and Springfield.

YOU ARE SAFE

So long as you stick to the Bitters because of their high record of cures back of it and besides there is our guarantee of its absolute purity. For your health's sake don't experiment with unknown remedies any longer.

Hostetter's Stomach Bitters

is known over almost the entire world as a safe and reliable family medicine and for over 65 years has given complete satisfaction. It cures

HEARTBURN, FLATULENCE, BLOATING, DYSPEPSIA, INDIGESTION, FEMALE ILLS or NERVOUS FEVER.

We urge you "ALWAYS" stick to the Bitters.

FOR PRESIDENT, JAMES INMAN

This Ticket Perennially in Nomination in Douglas County.

ONE VOTE CAST FOR TICKET AT LAST ELECTION

He Wants to Head Socialist Ticket This Time, With Ella Wheeler Wilcox—Platform Absolute Social Equality—Prince of Optimists.

(Special Dispatch to The Journal.) Roseburg, Or., April 15.—Undaunted by the fact that he received only one vote when he was a candidate for president in 1904, James Inman of Looking Glass, Douglas county, may always be depended on in dull seasons to add something to the giggling of the nation. He will again be a candidate for the presidency, this time running for the Socialist nomination.

Perhaps only a few people remember the meteoric rise of Mr. Inman during the last campaign. He remembers it himself, because he cast the entire Inman vote.

When he wants a woman and an equal suffragist as a running mate, and he expresses as his preference Ella Wheeler Wilcox, the poetess of passion. He does not doubt that Mrs. Wilcox will accept the invitation.

To augment his boom the Looking Glass farmer has issued a circular which he says is being sent to all important and thinking people all over the world. This contains the first plank in his platform. This is a long and strenuous argument in favor of admitting to the schools and to all other social privileges the Chinese and negroes. He very warmly commends the president for his pro-Japanese leanings, and intimates that Mr. Roosevelt was very wise in yielding to the demands of the negro and Japanese vote from Mr. Roosevelt by going him one better.

He threatens to follow up his circular with a series of pamphlets, to be distributed about a week apart. They will be entitled "Thanksgiving Proclamation," "Christmas Sermon," "Immortality," "The Acquaintance" and other equally interesting titles.

Another Inman was born in Pennsylvania 63 years ago, and says he has worked for next Carnegie and Rockefeller. He next lived in "Bleeding Kansas," where he called the soil and tilled his herds. Ten years ago he came to Oregon and settled on a small farm amid the vine-clad hills of Douglas, where he still resides in comfort and comparative affluence.

To the people of Douglas county, when they consider the matter seriously, which they seldom do, James Inman, socialist, philosopher and chronic card-punching president, is a psychological mystery. It is believed he is in earnest, and that his optimism holds him in such good stead that he really believes he will be a serious factor in the next national election.

Although he has had few educational advantages he is by no means ignorant and in the ordinary transactions of life is practically a mechanical genius in his sense. He is pretty hard to skin in agricultural and horse trading. Indeed, he is better posted on buccolics than on politics.

SPOKANE ENUMERATES UNINCUBATED CHICKS

Every One Confident of Result of Rate Hearing—Glowing Visions Rise.

(Special Dispatch to The Journal.) Spokane, Wash., April 16.—A number of prominent local business men, including H. M. Stevens, attorney for the chamber of commerce; A. M. Winston, attorney for the city of Spokane; De Laver, Wallace, expert accountant; C. H. Reynolds, civil engineer, formerly in the employ of the state railroad commission; F. H. McCune, expert rate man, and Levi Monroe, secretary of the chamber of commerce, left here Saturday for Portland to continue Spokane's fight for better freight rates.

Spokane presented its case to the commission some time ago in this city. The railroads presented theirs at Chicago, and now the final combat comes off at Portland, whereby Spokane will or will not be given a rate enabling her to compete with the coast cities. The railroads contend that for the amount of principal invested and the cost of operating, the present high rate is necessary to profit. The railroads are not making water competition their strong point, because Spokane has practically admitted everything they could attempt to prove.

Local prices have tightened this week, awaiting the outcome of the rate hearing. Jobbers and real estate men are watching, hoping that the city will be favored by the decision of the commission, property has been withdrawn from the market.

Said a prominent business man today: "If Spokane is favored by reduced rates, the city will become one of the largest jobbing centers between St. Paul and the coast. The population of the city will double in 10 years; eastern capital will come here for investment; Spokane will become the greatest commercial center in the west, for an inland town."

Enormous interest is being taken in this fight by all Spokane. It is the talk on the streets, discussed at all meetings or gatherings, and all are enthusiastic and confident they are fighting a winning battle.

BRAKEMAN BADLY HURT AT CENTRALIA

(Special Dispatch to The Journal.) Centralia, Wash., April 16.—Herman Speiser, a brakeman on the Centralia and Elma local, was severely injured yesterday afternoon by being caught between a flatcar and the engine while switching in the yards here. Dr. Dunmon, the company surgeon, was called and did all he could for the injured man, but was unable to say at once whether or not the injuries were fatal. Speiser was sent to the company hospital at Tacoma.

FIRE NEAR MEDFORD PROBABLY INCENDIARY

(Special Dispatch to The Journal.) Medford, Or., April 16.—A barn belonging to J. H. Neldemeyer, a well-to-do farmer living two miles west of here, was destroyed by fire yesterday morning, together with 100 tons of hay, five horses and several cattle. The fire is believed to have been of incendiary origin and the authorities are investigating. There was no insurance.

SPECIMEN CASES OF OREGON FARM PRODUCTS

(Special Dispatch to The Journal.) Woodburn, Or., April 16.—If the real farming conditions of this section were more widely known in the east there would be thousands more coming to Oregon regardless of whether there are special railroad rates or full fare, for the majority would pay for only one way and not want a round-trip ticket. Here are only a few instances of how farming in this vicinity pays, reference being made to recent sales of 1906 crops.

F. J. Anderson, 19 acres of potatoes, sold for \$1,048.

Martin Bergan, six acres of potatoes, sold for \$780.

Woodburn brothers, 1 1/2 acres of potatoes, sold for \$317.

Hernshaw Brothers, four acres of onions, sold for \$890.

Unnumerable instances can be given of big profits being made by producers in potatoes, onions, hops, clover seed and other products of the soil, and the future looks so exceedingly bright that farmers are preparing with renewed spirit to increase their production. The markets are all that could be desired.

Preferred Stock Canned Goods. Allen & Lewis, Best Brand.
