

POLICE CAPTAIN TELLS OF GRAFT

Tells Grand Jury Police Have a System Organized for the Protection of Vice.

SAYS SOME ONE WILL BE SORRY FOR CHARGES

Captain Accused by Chief of Conduct Unbecoming an Officer Presents Documentary Evidence to Grand Jury—Will Use It to Defend Himself.

(Special Dispatch to The Journal.)
San Francisco, April 20.—Captain of Police John Mooney, who has been cited to appear before the board of police commissioners on charges of unofficer-like conduct, preferred by Chief of Police Dinan, is the star witness before the grand jury this afternoon. All yesterday afternoon he was in consultation with Deputy District Attorney Heney and submitted a great quantity of documentary evidence to substantiate the stand which he had taken in the suppression of vice in his district. This evidence he will afterward use in defending himself should he be brought to trial before the commission.

Captain Mooney says he is giving little concern to the charges which have been preferred against him, and that he will be prepared to refute every accusation made, and if the commission insists upon it he will show them that vice has been permitted to flourish in his district through the negligence of the officers in his command, who have not been attentive to their duties.

In speaking of the subject last night Captain Mooney said:
"The whole thing makes me laugh. I have no fear as to the outcome and when this grand jury investigation is concluded some one is likely to be sorry that the investigation was started or that charges were preferred against me."
Mooney was not prepared to say last night who will appear as counsel when he is called before the police commissioners next Thursday, but the very fact that he spent all of yesterday afternoon in consultation with Heney seemed to indicate that the prosecutor will defend the stand taken by Mooney. The police commissioners are unwilling to express any opinion on the case. President Leahy says that the investigation is a good thing. Mooney will make the charge before the grand jury that there is an organized system for the protection of vice by the police.

POLICE INSPECTORS ARE REDUCED BY BINGHAM

Seven Captains Promoted to Inspectorships in the General Department Shakeup.

(General Special Service.)
New York, April 20.—The most important shake-up that ever hit the city's police department occurred yesterday when General Theodore A. Bingham, the commissioner at the head of the entire police force of greater New York, reduced eight inspectors who were sent to command precincts, elevated seven captains to inspectorships and ordered the first of a series of transfers in the detective bureau. This is but the beginning of Bingham's work under the authority of the new legislative act to reform the whole police department. Other changes may be expected at any time.

Bingham, after booming commissioner, found himself hampered under the law as it stood and went to Albany and secured the passage of the new act. A large fund was raised by the inspectors to prevent this legislation, but an exposure prevented them from using it, and Bingham by his speeches aroused public sentiment in support of the bill. Inspector McLaughlin, who had been in charge of the detective bureau, was transferred to the unimportant West Chester station, known as "Gonville," and being very wealthy may resign. The political friends of Mayor McClellan, whose appointee Bingham is, have not been spared.

CHANGE IN PRESIDENCY OF PACIFIC COLLEGE

(Special Dispatch to The Journal.)
Newberg, Or., April 20.—President H. E. McGrew, with his family, left for Boise, Idaho, Wednesday, he having resigned the presidency of Pacific college. Prof. F. K. Jones will act as president the remainder of the school year.

MRS. M'LEAN VICTORIOUS

Mrs. Donald McLean, who has been reelected president-general of the Daughters of the American Revolution by an overwhelming majority.

GO OVER SITE OF NEW SEWERS

Councilmen and City Engineer Take Up Protest of the Vernon Residents.

OWNERS OF SMALL HOMES FIGHT ASSESSMENT

Declare Levy on Their Lots Is Too High. Considering That Ground Slopes Toward the Columbia Instead of Willamette.

On the invitation of George B. Frank and other representative citizens of Vernon a number of councilmen and city officials went in a body this morning to Vernon to investigate the circumstances regarding the recent protest entered by that community against the assessments levied for the proposed extension of the Irvington sewer.

Residents and property holders in Vernon declare that they will derive no benefit whatever from this extension. They also contend that the contour and slope of the ground favors a separate sewer which would drain the district north into the Columbia river instead of into the Willamette river.

The majority of the people who live in the district are small property holders who are struggling to build homes out of their savings, and the most of these homes are being paid for on the installment plan. The assessment for this sewer is \$2.40 for an average sized lot, which they contend to be quite a burden added to their already heavily laden shoulders. These property holders do not want any kind of sewer at present. They wish to be allowed to continue on their feet and then within a few years build a sewer to the Columbia.

The district has grown marvelously within the last two years. Faster than any other portion of the city, it will probably some day include a large population which will need the best sewerage facilities and it is a fact that from 100 feet north of Going street the land rises slightly to the north and east from East Seventeenth. The soil below the surface a few feet is gravel and cess pools are very successfully constructed. An abundance of Bull Run water will soon be provided.

The following councilmen accompanied City Engineer Taylor and Chief Draftsman Reuter on the tour of Vernon this morning: D. J. Kellisher, Frank S. Bennett, R. E. Menefee, A. N. Willis, J. P. Shanks and George D. Dunlap. Little expression was made among the officials regarding the condition. Mr. Reuter thought that a great amount of Vernon could be drained by the Irvington extension. Kellisher said that it was plain that the ground could be drained no other way except toward the Columbia and realized that the district would grow in a few years so that the Columbia sewer would be demanded.

A special meeting will be held Monday at 10 o'clock to which the property holders were invited to attend and present their side. Something definite will then be decided upon in regard to the proposed extension.

TIME IS THE TEST

The Testimony of Portland People Stands the Test.

The test of time is what tells the tale. The public soon find out when misrepresentations are made, and merit alone will stand the test of time. Portland people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

David Campbell, baker, at 221 North Seventeenth street, and living at 179 North Eighteenth street, Portland, Oregon, says: "Every word of the statement I made in February, 1905, concerning Doan's Kidney Pills is not only true, but having since been free from kidney trouble I am glad to state that my faith in Doan's Kidney Pills is stronger than ever. It is now five or six years since I began to suffer with a lame and aching back. I was so bad that I could not stand the pain when bending forward or straightening. I tried various remedies and began doctor's treatment, but whatever relief I found was only temporary and often I could not get any relief at all. Having read in my home paper from England that Doan's Kidney Pills were strongly recommended for such troubles I got a supply. Within a few days the sore back helped me so that I kept on with their use and when I had taken about four boxes not a trace of the trouble remained and I have had no recurrence since. I have told these facts in a testimonial published in 1905 and am very glad of the opportunity now to corroborate it."

For sale by all dealers. Price 50 cents. Foster-McMurrin Co., Buffalo, New York, sole agents for the United States. Remember the name—DOAN'S—and the no other.

HERMANN CASE BEING ARGUED

Court Adjourns Until Monday, When Prosecutor Will Finish—To Jury Wednesday.

(Washington Bureau of The Journal.)
Washington, April 20.—Instead of going to the jury today the case of the government against Binger Hermann will probably not be given to the jury before the middle of next week, because of the arguments taking considerably more time than was at first anticipated. Assistant District Attorney Adkins had not delivered half of his address when time for adjournment came last night, and he will be allowed to finish Monday, court having adjourned until that time from yesterday. Adkins, referring to the contention, that the copy books that Hermann destroyed con-

tained personal letters, admitted that it had been the custom among Hermann's predecessors to keep personal letter copy books, but asserted that Hermann had established a new record in the volume of personal letter-writing that had been done by a commissioner.

WOODMEN DEMONSTRATION AT SALEM THURSDAY

Salem, Or., April 20.—One of the largest fraternal demonstrations ever held here will be that of next Thursday night, when more than 500 Modern Woodmen of America will gather to initiate three score candidates. Large delegations are to come from Woodburn, Aumsville, Brooks, Chemawa and Silverton. Delegations from Portland are also expected. A gala day is in store for the Neigh-

borers, who are to be royally entertained by the local camp. Committees have been appointed to provide for the entertainment of the visitors. It is possible the meeting may be held in the opera house. At the close of the initiation a banquet will be served.

Marion's April Court Docket.

Salem, Or., April 20.—The docket for the regular April term of the circuit court for Marion county contains 53 cases, of which 24 are actions for divorce, 10 for forcible entry, seven to quiet title to real property and five actions on mandate from the supreme court. The remainder are of a miscellaneous nature. Owing to the absence of Judge William Galloway, who is holding court at Tillamook, Judge Burnett will be on the bench for the second department of the circuit court for Marion county.

EXCURSION TO BOISE MAY 6

Commercial Bodies of Portland Are to Join in Peaceable Invasion.

It is said a month's ordinary travel would be necessary for a Portland business man to secure the visiting time with eastern Oregon merchants that can be had on a single trip that is being arranged by the Portland Commercial club, the chamber of commerce and the board of trade, leaving this city Monday morning, May 6, and returning home Sunday, May 12. The entire cost of the excursion per man will be \$58. The excursion will extend to Boise, Idaho. On a short portion of the trip the Portland party will have eastern Oregon merchants for their guests. The excursion train will stop at every important point on the main line and Oregon branches of the O. R. & N. Co. The figure named as the cost of the trip includes 21 meals on the dining-car and a Pullman berth for the round trip. Any two parties can secure a section

TOGETHER. Those desiring to go are urged to notify Tom Richardson, manager of the Commercial club, within the next two days, and deposit \$25. Two thirds of the reservations have already been made and the number is limited to 75.

A joint committee composed of five members each of the Commercial club, chamber of commerce and board of trade is in charge of the excursion arrangements, with H. L. Pitcock as chairman. The representatives of the various organizations are: W. B. Glafke, Julius Dirksheimer, F. A. Stichey, C. L. Mastick and G. M. McDowell, for the Commercial club; J. Thorburn Ross, Edward Newbegin, Sol Blumauer, Fred A. Ballin and C. D. Brunn, for the chamber of commerce; F. E. Beach, chairman, T. N. Stoppenbach, W. H. Harrell, Ed. M. Brown and M. Mortensen, for the board of trade.

TESTIMONY ALL IN IN DAKOTA INQUIRY

Case in Hands of Marine Inspectors for Decision, Expected Within a Week.

(Special Dispatch to The Journal.)
Seattle, April 20.—The final testimony of the officers of the Hill liner Dakota was submitted to the United States marine inspectors this morning and within a week a decision will be given out. All the evidence will be taken down and each point weighed before any decision can be reached. Chief Officer Joseph Roberts this morning testified that when the vessel struck Captain Francke said: "What's that?" Roberts replied: "She has struck, and struck hard." Roberts at once was ordered to take soundings. He found 12 fathoms under the bridge and 17 fathoms under the bow. He testified that the vessel tilted so rapidly that the pumps had no chance.

SILVERTON MILL MEN SUE PORTLAND FIRM

(Special Dispatch to The Journal.)
Silverton, Or., April 20.—Bro. or Brothers, who own a sawmill six miles southwest of Silverton, have commenced action against J. K. Gill & Co., of Portland, to recover a bill alleged to be due for lumber shipped to that firm in September and November last year. It is understood other lumber manufacturers in this vicinity will commence similar actions against Gill & Co. as soon as the case now pending is settled. L. E. Rauch and J. E. Hosmer of this city are attorneys for Lee plaintiffs.

TAKE STAND AGAINST BONDS FOR PARKS

South Portland Club Will Also Learn How Some Feel About Passes.

The Citizens' club of South Portland will hold a meeting tonight at Terwilliger hall, First and Sheridan streets. This is the first of a series of meetings planned by the people of South Portland for some time for the purpose of showing just how various public men stand in regard to the pass question. The issuance of \$1,000,000 in bonds for the purpose of purchasing parks for the city will also be discussed. The South Portland club does not take kindly to the proposal, for the reason that no sites for the parks have been selected. Members of the club state that had the sites been picked out first so that they would have known what the money was to be spent for there would have been no objection to the bond issue, but they do not like the idea of putting \$1,000,000 in the hands of three or five men and allowing them to buy any piece of ground to which they take a fancy. It is expected that the meeting will be a warm one.

PREFERRED STOCK CANNED GOODS. Allen & Lewis' Best Brand.

BAD WHISKEY SOLD

(Continued from Page One.)
been investigating very closely of late, with the result that I came here Thursday with a deputy from San Francisco to further pursue the matter. While we have found evidence of a damaging nature against about a dozen dealers, I will say just as a rule the revenue law is being closely observed.

"We are not at liberty to divulge the names of the parties caught refilling bottles having contained government stamped goods until the matter becomes public through the nature of the proceedings of the courts. The samples seized here will be submitted to the department in Washington and prosecutions will follow if our suspicions seem well founded. We, of course, make a test of the liquor before making a seizure, and rectified whiskey can easily be detected by the use of certain chemicals which will precipitate the coloring.

"It is a fact that few people really know good whiskey when they see it. Hence it is no difficult matter for an unscrupulous dealer to palm off poor stuff for straight goods. The bottle bears the government stamp and that is sufficient to convince the unsuspecting customer that he is getting the best there is. By refilling the bonded bottles dealers save from \$2 to \$3 a bottle."

Women May Disagree

On every other subject, but all who have used a

Gas Water Heater

Of the circulating type say that it is the greatest of conveniences. It is convenient on wash days, handy for bath purposes, and insures dish water at a moment's notice. If you are unfamiliar with the advantages, and the saving, when compared with other means of heating water, our salesmen will be glad to explain and demonstrate its workings. Once a user you will always be a sincere friend.
