Under Charter to Load Lumber at One of Mills on Lower Columbia River—British Bark Zinita Also Overdue and Object of Concern.

Considerable anxiety is felt for the safety of the old American ship Eclipse, which left San Pedro for the Columbia river March 15 in ballast. She was expected here several days ago and her charterer is said to be suffering a great inconvenience because of having made preparations to load her at a point on the lower Columbia river. It is said the bark was forced to pay demurrage on coals and other paraphernalia towed down there to be used in loading the vessel.
