THE OREGON SUNDAY JOURNAL, PORTLAND, SUNDAY MORNING, APRIL 28, 190

SIAM TO VISIT LONDON KING

By F. Liste Snell. Londoners are looking for-eagerly to the approaching of Phra Paramindr Malla alongkorn, the king of Slam, which is now timed for the mid-die of May. Eastern monarchs always more interesting to the d than European royalties,

ed than European royalties, storn rulers are different. They different. They wear gorgboun ent, And when they stir abroad don't smile and simper and jork heads like automatons when peo-theer them. No king can look dig-doong that. Dusky potentates an-hemage as a matter of course, and it with a lofty indifference as be-a men who regard themselves as a er order of creation--roal kings, and order of creation-real kings, and abeada.

is no sovereign in the world accustomed to receive more abhomage than his majerty of Siam, possesses a most imposing string of a Among other things he is su-as arbiter of the ebb and flow of a brother of the moon half-brother he sun, and owner of four-and-ity golden umbrelias. Whenever he s an airing in his own domain his iful aubjects prostrate themselves a passes by, no matter how muddy streets may happen to be. he pass

Wives Kneel Before Him.

Even the highest in the land, when sy approach his august presence, must o so on all fours. His favorite wives a set to kneel before him. His brothers billewise. So King Chulalongkorn is ot likely to be much impressed by a cowd that keeps on its legs before him ad shouts and waves hats and hand-schlefs at him. He won't bob his ad until his neck aches, as European ange are expected to do when they show semselves to the public. m the highest in the land, when

The national jeweler has a standing order for \$500,000 worth of jewelry to be delivered to the king every year, fibch of which is distributed among the favor-ites of his harem. But his own collec-tion of jewels and bijouterie far surtion of jewels and bijouterie far sur pass that of any of his consorts. With pass that or any of his consorts. With-in the last few years it has been en-riched by the purchase of many of the rarest and most costly gems that have appeared in the European market. His jewel repository is said to occupy the entire wall-space of the royal bedcham-ber which is itself, in many respects, a work of art. work of art.

Mantle of State Priceless.

This throne of state is see magnificence only to the m peacock throne of Persia. It is composed of gold and studded is clove stones. His mantle of he marvelous It is largely

clous stones. without doubt the most costly garment It is of great antiquity

lalongkorn's reus views nobody knows. But nemin-at least, he adheres to the state ion, which is a decadent form of im on which many sup en grafted.

The huge palace is girdled by a l rope which has been blessed by prisets, and is, therefore, supposed form an effective barrier against fiendiah host whose special prey-royalty and its multitudinous offen it is the Blamese custom to scare mone by demone, somewhat on the p in to scare hat on the p ciple of setting a thirt to eatch a thirt. The demons employed are huge and hid-cous offigies. The priests wanted Chul-alongkorn, when he ascended the throno, to parmit the erection of two of these monstrosities outside the palace gates. But they compromised on the holy rope. Opposite the naisce, on the western bank of the river, stands a temple of Dawn," which the king attends for public worship. The wardens are two giantic stone figures, male, and fe-male, wearing hightmare masks. And the king, skeptical though he may be se to their efficacy, deems it prudent to make an obelsance, when he passes them.

Second Visit to England.

Second Visit to England. He has visited England once before. That was in 1897. He wasn't feeling particularly comfortable at that time, for France was threatening to gobble up the biggest portion of his kingdom, and he didn't show himself much has public. It was supposed then that the chief purpose of his visit was to get England to block the French game. On that occasion he paid a visit to the green at Windsor Castle. He was as-signed to a magnificent suits of rooms on the first floor, which corresponds to what Americans would call the sec-and floor. But despite their sumptu-ous furnishing it became apparent that his dusky majesty was far from com-fortable in them. Then the truth leaked out.

out. It is customary in filam for the monarch to sleep at the top of the house, "nearest heaven," and that any-body should occupy apartments neares the realms of the blessed than himself did not accord with his notions of what was due to his rank and dignity. So he was shifted to an attle room and though of necessity, it was a far meaner spariment, he was more than pleased to make the change.

Wanted Corey's Fiancee.

Wanted Corey's Fiances. During his absence from Bangkok the grown prince, Bondatch Chowfa Vajira-vudh will officiate as regent. He was educated in England and is supposed to be a highly cultured young man. It may be regarded perhaps as proof of his acquisition of distinctly English tastes that he fell violently in love, a few years ago, with Mabei Gillman, the American actress, who was then appear-ms in the 'Casine Giri' in London. He wanted to marry her and make her his 'No, 1 queen' when he ascended the throne. She didn't fancy the posi-tion and subjected the love lorn prince to a deal of ridicule by publishing his The royal palace, originally constructed by European artisans, something over 100 years ago, internally presents over 100 years ago, internally presents a strange mingling of European and barbaric splendor. Chulalongkein has done much to modify the latter. No fewer than 20 rooms have been fitted up with Louis Quinse furniture spe-chally sent out from England. The great drawing room, in particular, has been dealt with in a most costly fash-ion, the furniture being in solid Span-ich mahogany and having the Siamese coat-of-arms worked upon each article. The royal white elephanits, which are always associated in the popular imag-imation with Slam, are not yet entirely a myth and a memory, inasmuch as four or five ponderous, drab-colored beasts may still be seen in the royal stables, but they are not now used for state caremonials.

tion and subjected the love lorn prince to a deal of ridicule by publishing his love letters. She is soon to marry Mr. Corey, the multi-millionaire president of the United States Steel trust. As his wife she will have a far better time no doubt than she would get as head of the crown prince's household. But she won't be able to wear bloomers. time no

BUTTE BOYS MINING SHARES WILL BE ADVANCED TO 15 CENTS ON MAY 5 \$105,000.00 the Same as Found by Robert F. Scott of the First National Bank of Portland

Robert F. Scott, for years a clerk in the First National bank, First and Washington streets, is now en route to Europe on a tour of the world, having relinquished his position on the first of April. The reason of Mr. Scott's departure from Portland, leaving a place in the great bank that he had filled for years, is told in few worlds. Shortly after the discovery of gold in Goldfield, Nevada, he became interested in that region, and took pains to post himself on its possibilities. Two posts ago, when the shares of the now world-renowned Mohawk mine almost went begging at 2% cents each, his faith in Goldfield prompted him to invest \$150 in its stock, and in March of this year he closed out his heldings at \$17.50 per share, receiving the handsome fortune of \$105,000 in spot cash. A few days later he resigned his position, put his affairs in shape for a prolonged absence, and on April 1 gave up his spartments at the Newcastle, Third and Harrison streets, where he had lived for previous seven years, and left the city on what he intends to be a trip around the world. His first stop was in southern California, from whence he intends to proceed to Mexico, then east via Niagara Falls to New York, from which about 40 years of age, at all times reticem, frugal in his habits, and he figures that he has means enough now to provide for his maintenance the rest of his life—and all on an investment of \$150. But you are probably now inquiring. "What of it? I am not interested in Mr. Scott." But you are interested in knowing that you may do the same thing Mr. Scott did. He didn't whine around and wonder if it would come out all right. Not a bit of it. Men around banks do not do business in that way.

He Would Have Worked 87 Years and 6 Months, at His Salary of \$100 Per Month, to Earn This Sum

As it is, it cost him six weeks' labor, for which he received a fraction less than \$3,000 per day-or almost as much per diem as he previously had received for 21/2 years' work.

THE BUTTE BOYS CONSOLIDATED MINING COMPANY, INC., HAS 100 ACRES OF GROUND IN GOLDFIELD JUST AS PROMISING AS THE MO-HAWK WAS AT THE SAME STAGE.

These five claims of 20 acres each were located by the Callahan brothers in the infant days of Goldfield. We induced them to permit us to organize a company to develop the property (they not having the means themselves and absolutely refusing to sell) by awarding them 75,000 of the million shares, and that this development might be thorough, ample and complete to raise the means, we placed stock upon the market at 10 cents per share, and never before in this city's history was the paper of a mining company sold so freely. Thousands of dollars have been paid into our treasury, and money is still coming in in great quantities, but our assays now show an ore so rich that we do not feel justified in longer maintaining our initiatory prices, therefore,

On Sunday, May 5, Our Shares Will Be Advanced To 15 Cents

And Butte Boys mining stock at 10 cents will forever be a thing of the past. We have told over and over again the money to be made in mining stocks when the proposition has been a legitimate one. In our case, it was most large-our acquaintances and friends that made our enterprise the unqualified success that it has been. We told them what we had in Goldfield. They believed us. They bought our shares and enabled us to proceed with great energy with the development of mine No. 4, where our first shaft is being sunk, and now we have sufficient funds on hand to carry out all our desires, the result of which we feel confident, will be the establishment of the fact that the Butte Boys will pay just as handsome profits as the celebrated Mohawk is paying now. Money in-vested in the stock of that mine has brought to thousands of others just as rich returns as that received by Mr. Scott.

Wouldn't You Like Some of This?

\$5 invested in Goldfield Mohawk shares at first hands would now be worth \$3,400.

\$10 invested in Goldfield Mohawk shares at first hands would now be worth \$6,800.

\$20 invested in Goldfield Mohawk shares at first hands would now be worth \$13,600.

\$40 invested in Goldfield Mohawk shares at first hands would now be worth \$27,200.

\$80 invested in Goldfield Mohawk shares at first hands would now be worth \$54,400.

\$100 invested in Goldfield Mohawk shares at first hands would now be worth \$68,000.

\$150 invested in Goldfield Mohawk shares at first hands would now be worth \$105,000.

\$200 invested in Goldfield Mohawk shares at first hands would now be worth \$136,000

\$400 invested in Goldfield Mohawk shares at first hands would now be worth \$272,000. \$500 invested in Goldfield Mohawk shares at first bands

would now be worth \$340,000. \$1,000 invested in Goldfield Mohawk shares at first hands woud now be worth \$680,000. \$2,000 invested in Goldfield Mohawk shares at first hands would now be worth \$1,360,000.

These Figures Are Absolute Truths

Shares may be turned into cash at any time, just as Mr. Scott turned his into money. The same rich harvest may be garnered by any one as was reaped by this bank clerk.

Shareholders of the Butte Boys Mine Will Be Having Like **Experiences Within the Next Two Years**

But if you want to take advantage of this offer, do so some day this week. Next week will be too late. If you cannot afford anything more, put a week's wakes into Butte Boys now, then later reap the big harvest that will result from the seed you have sown, even sparingly as you have done. Do not be content with life-long poverty. You don't have to be. Here is an escape from it, and we are perfectly willing that our friends shall share in the distribution of the wealth bound to come from the Butte Boys mine.

Make Checks Payable to the Company

Persons remitting money by mail for Butte Boys stock are requested to make all checks, express or money or-ders psyable to the Butte Boys Consolidated Mining Company, and NOT to any member of the company. This rule must be rigidly adhered to, in order that the books and accounts of the secretary may always be kept free from error.

WE HAVE THE CREAM OF ALL GOLDFIELD LOCATIONS, AND YOU MAY HAVE AN INTEREST IN IT IF YOU WILL
