BAKER SAYS IT WAS EASTERN IGNORANCE

District Attorney Accounts for Hermann's Acquittal on This Sweeping Theory.

SAYS JURORS NOT ABLE TO ESTIMATE EVIDENCE

Hermann Gravely Expresses Wonder That He Could Be So Accused—Postponement of Benson-Hyde Trial Disgusts Witnesses.

(Washington Bureau of The Journal.) Washington, April 21.—"Not guilty." This was the verdict today of the jury in the case of former Representative Binger Hermann of Oregon, who has been on trial in criminal court No. 1 for the past ten weeks on a charge of destroying public records of the land office.

The act for which Hermann was indicted was committed in January, 1933, several weeks before he was removed from the commission of the general land office. The charge was destroying 35 letterpress copy books containing official records of the office.

Hermann admitted destroying the books but claimed they were private books and contained his personal correspondence and that it was the custom of the office to keep such books for the private use of the commissioner.

Eastern Jury Can't Understand. The government contended that the books contained official records and that they were destroyed by Hermann to cover up his connection with land frauds and thus do away with evidence that could be used against him. The jury, which met at 10 o'clock yesterday afternoon.

Aurora, Or., April 21.—For the past 22 months Charley Mattocks, the rural mail carrier on route No. 5, has been going some, and the other day he sat down and figured up how many miles he had traveled in that time. (Publishers Press by Special Leased Wire.) Cincinnati, Ohio, April 21.—Secretary of War William Howard Taft came into his home estate tonight and received a wonderfully warm welcome from his friends here in George B. Cox's ballroom. He said:

HUMANE SOCIETY WOMEN MOVE FOR JAIL CLEANUP

Their Petition and Sheriff Smith's Denial Show How Far Apart Folks Get.

(Special Dispatch to The Journal.) Seattle, Wash., April 21.—The jail investigation committee of the Humane Society through its attorney, this morning presented to Judge Morris of the criminal court a petition asking the judges of the superior court to prescribe set rules for the regulation of the jail, containing a provision for three or more female guards for the women prisoners. The petition itself and three supporting affidavits charge Sheriff Smith with gross neglect of duty and the guards with grave crimes against the women placed in their charge.

When copies were served on Sheriff Smith he made this statement: "I have repeatedly asked these women of the Humane Society to present to me the names of the guards they accuse with the names of the accused. They have promised again and again to produce this information but have failed to do so. These women will have to prove every word they have charged."

ATTORNEYS GATHER AT BOISE FOR GREAT TRIAL

(Special Dispatch to The Journal.) Boise, Idaho, April 21.—Clarence S. He will remain until the close of the Meyer-Haywood-Pettibone trial. He says the defense is practically ready for the case to open. The prosecution also says it is about ready. When Attorney Richardson arrives from Denver Monday all the attorneys for both sides will be here.

Sheriff Hodgins is making extensive preparations for the \$5 to \$6 newspaper representatives who will be here to report the trial.

The Loneliest Island on Earth. Which is the loneliest, most desolate and most inaccessible island on the face of the globe? Many people would doubtless plump for one of the Crozets, which were recently brought into notice owing to the wreck thereon of the Norwegian exploring ship, Catharina, and the subsequent rescue of the eastward crew by the Turakina, a British steamer dispatched from Cape Town for that express purpose.

But Hog Island, the westernmost of the group, and the one whereon the men spent most of their time, is by no means an undesirable place of residence, abounding as it does in hares and rabbits, penguins, albatrosses and sea elephants. Hog Island, in the same sense, is far more isolated as well as more barren; but it possesses, as does Hog, a shelter hut for castaways, and it is visited by whalers occasionally. So, too, is South Georgia, but it has no shelter hut, and as it is right out of the track of shipping, anyone unlucky enough to be cast away thereon would stand a very poor chance of ever getting off alive.
