GREAT BRITAIN LOWERS CANADIAN POSTAL RATES

(Journal Special Service.)
London, May 1.—Beginning with this date and continuing for four years the postage on newspapers, magazines and trade journals between Great Britain and Canada is to be 2 cents a pound instead of 8 cents as heretofore. This preference shown to Canada over other British Colonies is admittedly for the purpose of enabling the publications of the United Kingdom to compete on a more equal footing with the papers and magazines published in the United States, which circulate extensively in Canada. If the experiment proves successful it probably will be continued beyond the four-year period SPINAL MENINGITIS

CLEAR CHANNEL

Government Engineers Will-Start Important Work in a Few Weeks.

CONTRACT FOR BARGES LET TO LOCAL BUILDER

Sternwheel Steamer Will Also Be Constructed at Early Date to Be Used in Connection With Government Improvement Work on Snake from the Bay City.

Improvement of the upper Columbia and Snake rivers will be commenced by the United States engineers at the earliest possible day. A contract for the construction of three large derrick barges has been let to Joseph Supple and bids for a stern-wheel steamer to ply on the Snake in connection with the work will be opened here soon. The steamer will tow the barges which are to be used in lifting boulders and snags from the river bottom,

Funds for this much-desired work have been set aside by the government and it was decided some time ago to have the channel made navigable from the upper Columbia to Lewiston and now the work is to be taken up in ear-The barges are to be completed in 80 days. They will be built at Ri-paris, whither Mr. Supple will send a big gang of ship carpenters. The stern-wheel river steamer will also be built

A great deal of work is being done in the several shipyards about the city. On the ways at Supple's yard are the new steamer J. N. Teal, being built for the Open River Transportation association, a number of barges for the Swift Packing company and the tug Lottle of the Tongue Point Lumber company. The Lottie will be launched tomorrow, and Saturday afternoon the steamer J. N. Teal will make her initial plunge into the Willamette.

The new steamer Weown will be launched this afternoon at the St. Johns shippard. The vessel has been constructed under the personal supervision of Captain Smith and contains the boiler and engines of the old steamer Regulator, which was burned at that place January 24, 1906. She

will be used for towing.
At the yard of the Portland Shipbuilding company in South Portland the steamer Bailey Gatzert of the D. P. & A. N. company will soon be ready for launching after having been almost

Captain Edwards, inspector of hulls, stated this morning that the law pro-vides that the guns must be tested once every quarter, but he believes the test should be prohibited in the harbor where damage may be done.

SEAMEN ENTERTAINED

Two Institutes Give Concerts to the Visiting Sailors.

Foreign sailors here in the harbor lacked not in entertainment last night, because both the new and old Seamen's institutes gave concerts. The new conern, known as the Portland Seamen's Friend society, held dedicatory exercises at 268 Flanders street, while the Seamen's institute gave its weekly concert at 100 North Front street. Both were

well attended. The program at the Portland Seamen's Friend society opened with an address by President E. Quackenbush. He gave a brief history of the society, which, although new at this time, existed and did much good work some years ago. It was organized 15 years ago and accumulated some money, with which the present organization was given its start

The concert at the institute on Front street was also good and largely attended.

TOWED IN MOONLIGHT

German Bark Tellus Makes Quick Run From Astoria.

The German bark Tellus arrived up at Columbia dock No. 1 at 6 o'clock this morning, having made the tow up the river since yesterday noon. The brilliant moonlight of the early hours this morning made this possible. Usually cargo ships in to anchor over night, but the Tellus plowed right along after the sun had dipped behind the western hills. Captain Prohn reports having some rough weather in rounding Cape Horn. but otherwise the voyage for him was uneventful. He sighted a partly dis-masted vessel, but could not make out her identity, and also ran close to the British bark Zinita, also bound for this port, a couple of times. The Zinita reached Astoria a few hours after the Tellus.

Including the cargo, which consists of whiskey, pig iron and general mer-chandise, is also a grandfather's clock from Scotland. The clock is consigned to William A. Macrae of this city.

NEGRO CORPORAL IS TRIED FOR MURDER

(Journal Special Service.)

Lawton, Okla., May 1. — Corporal Knowles, a member of the Twenty-fifth infantry, recently discharged from the service by President Roosevelt, will be placed on trial today before a general court-martial on a charge of attempt to kill Captain Macklin, one of the officers of the regiment. Macklin was shot and seriously wounded on December 21 last, at Fort Reno. The negro corporal was arrested shortly afterward, and has since been kept in close confinement at Fort Sill. The evidence against him is strong, although of a circumstantial nature. Knowles has persistently declared his innocence.

GIVE BRYAN DOLLAR DINNER AT NEWARK

Newark, N. J., May 1.—The People's lobby of this city has completed all arrangements for a dollar dinner to-night in honor of William J. Bryan. The demand for tickets indicates that there will be a large attendance. The dinner is to be a non-partisan affair, and Mr. Bryan will confine his remarks argely to the subject of initiative and referendum, which is one of the reforms demanded by the lobby.

THOMAS JEFFERSON UP FOR HORSE STEALING
