**TO FIGHT QUARANTINE AGAINST WASHINGTON**

State Veterinarian to Appear at Salem Tuesday Before Sheep Commission.

(Special Dispatch to The Journal.) Olympia, Wash., May 4.—At the instance of the Wenatchee Wool Growers' association of Walla Walla and others interested in the sheep business Governor Mead has instructed Dr. B. B. Nelson, state veterinarian, to go to Salem, Oregon, to resist the proposal of the Oregon sheep commission to establish a sheep quarantine against Washington, Nevada and California. Governor Chamberlain of Oregon has set May 7, at 8 o'clock p. m. as the time for hearing the application of his sheep commission for the quarantine.

The Washington sheepmen are up in arms at the proposal. They assert that the general health conditions of sheep are good in this state, whatever they are in Nevada and California, and that a general quarantine would be unnecessary and of great injury to the sheep industry in this state. Dr. Nelson is thoroughly familiar with conditions here and can present the state's case.

# CAMPAIGN CANARD IS HIT HARD

### Ananias and Sapphira Thrown Clear in the Shade.

To the Democrats of Portland: It has been published from the pen of Mr. John Van Zante that the "Democratic Campaign Committee" had no right to send circulars advising registered voters, as the said committee was self-appointed, and that at least one member of the committee aforesaid did not sign the circular. This is deliberate calumny and as proof of this each and every signer of the circular in question has heretofore attached his respective name.

The Democratic Campaign Committee is composed of members of the county center committee, the Bryan Democratic club and the Multnomah Democratic club, the chairman or presidents of which appointed the said members of the said committee.

Mr. George H. Thomas' candidacy for the majority is being supported by a large majority of the Democratic voters of this city as the result will soon attest. The county Democratic central committee notes the Bryan Democratic club, the chairman or presidents of which appointed the said members of the said committee.

# MAGNATES TO BE POOLED BY JURY

### Henny and Burns Plan to Indict Calhoun and Mullally Before Day is Ended.

**BELIEVE THEY KNOW ALL ABOUT BRIBING OF RUEF**

Officials of United Railways Called to Testify Yesterday but Statement of Holbrook is Relied Upon for Conviction.

(Journal Special Service.) San Francisco, May 4.—Patrick Calhoun and Henny Mullally are to be indicted in connection with the overhead trolley franchises of the United Railroads, if plans of Henny and Burns are realized, on the outcome of the testimony which will be completed before the grand jury today.

Henny and Burns have amassed evidence which leads them to believe that both Calhoun and Mullally are cognate with the bribes paid Ruef and the supervisors to secure the franchise for the United Railroads.

Confident of the conclusive nature of the evidence of graft, the prosecutors sprung a surprise yesterday when they called Calhoun and Mullally before the grand jury. Both received subpoenas while at luncheon at 3 o'clock in the afternoon and repaired shortly afterwards to Native Sons' hall in an automobile.

Although both refused to answer questions this does not change the situation in the least as their own evidence would have weight for or against their indictment. The evidence of Charles Holbrook, who is one of the dummy directors of the company, is considered very strong against Calhoun and Mullally. Beyond this fact he knew nothing about its use. If final action is not taken on this case today by the grand jury the end will surely come Monday.
