QUENCH CUSTOMERS' THIRST AND ARE TAKEN TO CITY JAIL

Evidently believing that it is exceedingly foolhardy for men to endeavor to maintain the example of the "ships of the desert" in abstaining from partaking of any liquid refreshment for long periods of time, three proprietors of "wet goods" establishments became philanthropically inclined yesterday afternoon and proceeded to ladle out "amplefoot" to their constituents in direct violation of the law.

TELLS TALE OF FIST AND THIEF Emil Johnson Says Bartender in Osborn Cafe Robbed Him After Beating Him. A particularly daring and brutal robbery was reported to the police yesterday afternoon by Emil Johnson, a roomer in the New York house, Union avenue and East Ash street, and as the result of an investigation by Detectives Jones and Tichenor Fred Schmitt, a bartender employed in the Osborn cafe, 21 Grand avenue, was taken into custody on a charge of larceny from the person.

OFFICERS CHOSEN BY U. C. T. AT SPOKANE (Special Dispatch to The Journal.) Spokane, Wash., May 4.—The grand council of the United Commercial Travelers of America for the jurisdiction of Washington, Oregon and British Columbia tonight elected the following officers: C. C. Miles, Seattle, grand conductor; T. R. Carlyle, Tacoma, grand page; H. I. Sumers, Spokane, grand general.

INDICTMENTS (Continued from Page One.) paid much more than the police. The grand jury worked for weeks and found a mine of corruption and graft, according to its members. Former Mayor Dunne has always been regarded as a paragon of civic virtue. His candidacy for judge has been on a "personal purity" platform in previous elections. The revelations in this light come as a distinct shock to his friends and the general public.

FIFTY THOUSAND MEN (Continued from Page One.) try has until labor been so affronted as by the president's denunciation of the men who are to go on trial next week. In saying this they do not even except the incident of President Cleveland's "government by injunction," when he sent federal troops to Chicago in 1894 to quell the A. R. U. strike.

WET OR DRY (Continued from Page One.) the river north of Marquam gulch. There will be no elections on the liquor issue called in any of the east side precincts along the river, nor between East Gillson and Division as far back as East Twelfth, nor in Lower Albina in precincts 55 and 56. G. L. Tuttle of the International Reform bureau who filed the petitions, said: "Should all the precincts involved in the election go 'dry' there would still be a larger number of saloons left in the 'wet' territory than are provided for by the Gray ordinance, which allows one saloon to every 500 of population."

SERIOUS WRECK ON SANTA FE

Two Enginemen Will Probably Die as Result of Disaster at La Junta.

RAILROAD OFFICIALS TRY TO SUPPRESS NEWS

Public Is Told That No Accident Occurred but Fact Remains That More Than a Score of Passengers Were Injured.

(Hearst News by Longest Leased Wire.) La Junta, Col., May 4.—The wreck of Santa Fe passenger train No. 8, the eastbound limited yesterday, 28 miles south of La Junta, has proved more serious than at first reported, despite the strenuous demands on the part of the railroad officials that an accident of any kind had happened. More than a score of passengers were more or less seriously injured and the two enginemen, Fred Broughton, engineer, and Roy Abbott, fireman, both badly scalded, will probably die. That there were no instant deaths seems little short of miraculous.

Passengers Injured. Among the list of injured is: Harold Cummings, Chicago; leg broken. Frederick Hughston, Chicago, traveling salesman; ankle fractured. Joseph Harding, Pittsburg; injured about head.

Commencement Time Is Coming

Give the Sweet Girl-Graduate a Piano

If you feel that only the best that money can buy is good enough for this last present to your daughter in her school days, give her a Steinway—the instrument referred to in the following item clipped from a magazine article by a great musical authority:

If She Isn't a Pianist Give her a player-piano. The same musical authority quoted above again writes: "Self-playing instruments perform technical miracles. The unerring ease with which these machines dispatch the most appalling difficulties has turned the current toward what is significant in a musical performance—touch, phrasing, interpretation. A child's hand can set spinning the Don Juan Fantasia of Liszt. The automatic piano has outpointed every virtuoso except Rosenthal in the matter of mere technique."

We have the incomparable A. E. Chase, the wonderful Melodiant Angulus, the Knabe and the Emerson Angulus, the Kingsbury, Ludwig and Herrington—in short, the most recent and perfect player-piano manufactured. We have developed the tremendous piano business which has made us the greatest Steinway dealers in the world and given us corresponding prestige in our other musical instrument connections, by giving the public satisfactory piano service. We sell these high grade instruments at the lowest possible price—and the same price to all customers—every day in the year. Come and see us—opposite the postoffice—hear our pianos and player-pianos, and make your selection at your leisure. Headquarters for Victor talking machines and records.
