

MAGNATES FOR FAIRBANKS

Wall Street Hostile to Roosevelt and Will Swing New York Vote to the Present Vice-President

(Journal Special Service.)
New York, May 6.—Town with Roosevelt and up with Fairbanks is the feeling in New York City. It is difficult for anyone from the interior to understand the bitterness of the anti-Roosevelt talk one hears everywhere in New York City among the more prosperous classes. There is no disguising this hostility to the president. It is by no means confined to the Morgans, Harrimans and men of millions.

The influence of Wall street in New York is profound. Magnates have sedulously fostered the opinion that the railroad policy initiated last year at Washington is directly responsible for the stagnation which has come upon the stock market and for the lower prices which have prevailed, with the consequent paralysis of the favorite industry of the whole of lower New York.

Hostility Hurts Taft's Boom.
The anti-Roosevelt feeling in New York City is reflected only to a minor degree on the state, but cannot fail to have influence on the position of New York with regard to the selection of the next candidate for the presidency. Present indications are that Roosevelt

would find it a good deal harder to get the endorsement of New York for a third term than has would that of Illinois and Missouri.

Hostility to Roosevelt has distinctly hurt Taft. There was a time when the big man of New York, those who are always called upon for campaign contributions, were led to believe that Taft surely would be the residuary legatee of the Roosevelt administration. That was before the president broke with Harriman.

Fairbanks or Cannon.
Wall street's hatred of Roosevelt was intensified when it was made apparent that he had abandoned Taft as the administration candidate and was prepared to resort to extraordinary tactics to secure the nomination for Taft. The result is that the corporation influence here is suspicious of Taft, although not actually hostile to him. Among the substantial element one finds that the favorite in the presidential race thus far is Fairbanks, with Speaker Cannon running a close second. There is no doubt that Fairbanks would be an acceptable candidate so far as moneyed New York is concerned.

TROOPS MAY END STRIKE

(Continued from Page One.)

bring the trouble to an end also were up early lining up their forces for peace.

In the plainest of terms President Calhoun of the United Railroads said today that he would rely on other powers than the San Francisco police to protect his company's property and enable it to operate its cars. He said: "I shall make no demand on the police for protection, as it is the duty of the police to grant that protection without formal request. I can only assure the people of San Francisco that I will run the cars. I will not enter into further negotiations with the union. Men who want to return to the service of the company may do so, but only as individuals and if they do not return, also, they will be discharged."

Will Preserve Order.
Governor Gillett, who is still in Los Angeles, declared last night, in an interview, that he would use all the power of the state to preserve order in San Francisco.

"In case of violence or trouble, General Funston, I believe, will write to Washington for orders," said Colonel W. A. Simpson, U. S. A., adjutant general of the division of California, and Funston's chief aide.

"It will take very little time, of course, to get in communication with Washington, and General Funston will probably await orders from the department before taking action. Only in case Governor Gillett appeals for our aid would the federal troops take the initiative."

"The United States marshal could ask our aid directly in case he found himself powerless to see that the funds were distributed on cars, and we would give him the assistance needed for that purpose. I think, though, that this will be done under direct instructions from Washington."

"There are plenty of troops in San Francisco and near by for any emergency. There is a regiment at Monterey and all the men needed can be brought here without any difficulty."

Troops at Bay City.
Troops stationed in San Francisco at present consist of three batteries of field artillery, nine companies of heavy artillery, four troops of cavalry, composing the second squadron of the Fourteenth regiment, a battalion of the Twenty-second regiment of infantry, two companies of engineers and four companies of heavy artillery. The artillery are all armed with rifles and drilled in guard duty, etc., the same as other troops, and could be used on occasions. The full strength of the various forces now stationed in San Francisco amounts to over 2,500 men.

Considerable interest was created yesterday by the unusual spectacle of United States troopers riding in pairs, killed daily. Until recently its capacity was only 80 daily. The party visited Washington for orders," said Colonel W. A. Simpson, U. S. A., adjutant general of the division of California, and Funston's chief aide.

FAIRVIEW FIRST STOP

(Special Dispatch to The Journal.)

Greetings Exchanged—Fine Livestock Exhibit—O. W. P. Opens.
Troutdale, Or., May 6.—The first stop of the Portland business men's excursion was made at Fairview, where Rev. C. E. Crandall made an address of welcome. W. H. Moore responded for the party in a brief speech. H. G. Campbell, the well-known Portland capitalist, who has a fine stock farm here, exhibited his Belgian stud and a Spanish jack, imported thoroughbreds. The Fairview people anticipate the opening of the O. W. P. electric branch on June 1, which will greatly aid the development and growth of eastern Multnomah.

AT HOOD RIVER

(Special Dispatch to The Journal.)

Excursionists Take Trip Over Mount Hood Railroad.
Hood River, Or., May 6.—On the arrival of the Portland business men here today, they were met by a reception committee composed of the officers of the Hood River Commercial club and representative citizens, who, after exchanging greetings, escorted them to the train in waiting at the Mt. Hood railroad station. It was composed of two coaches and an observation car and was in charge of Charles T. Early, superintendent of the road. The visitors were taken on a tour of the big electric mill of the Oregon Lumber company at Dea.

On the return trip a stop was made in the center of the blooming orchards and the visitors had to get a view of them at close range. Returning to town the business men spent an hour or two visiting with Hood River merchants and at 4 o'clock continued on their trip.

FIRST MOVE OF DEFENSE

(Continued from Page One.)

The confession of Orchard was followed by the arrest of Steve Adams on a charge of complicity in the Steuenberg murder and his confession. It is upon the confession of these two men that the prosecution will depend to a great extent, though much other evidence has since been secured. The case of the defense will be helped by the fact that Orchard's mind has weakened since he made his confession and he probably will not be able to take the stand. Moreover, Steve Adams retracted the confession he is said to have made, so that it will not be of much value to the prosecution.

It is expected the Haywood trial will take at least a month. It will probably take a week or more to secure a jury. Upon the result of the Haywood trial will depend the prosecution's course in the case of the other defendants. If Haywood cannot be convicted it is not likely that any stronger case could be made against Meyer or Pettibone, as the evidence against the three is practically identical.

Haywood was the only defendant in court today. He followed the arguments with interest and looked none the worse for his long imprisonment. He consulted freely with his counsel during the entire session.

RIOT ACT IS READ

(Continued from Page One.)

remained in charge of his headquarters nevertheless. One of the troubles hanging over Reed's head is a suit for \$90 that was begun this morning. J. C. Braman is the plaintiff, charging that Reed purchased a large bill of goods and refused to pay for it.

C. A. Bell is attorney for Braman and he learned that Reed alleges that Mr. Devlin is indebted to him. Consequently attachment proceedings were begun this morning to prevent the present auditor from paying Reed the amount till Mr. Braman is satisfied.

Other troubles threatened against Reed are bills at various saloons throughout the city. A number of saloonmen are threatening suit against the politician for alleged unpaid bills, and allege that they also will attach any money that may be owing to him by Mr. Reed.

Mr. Reed has been very active politically and otherwise, in Portland during the recent past. He was placed in charge of the campaign against the equal suffrage amendment when it was being voted on here. During the last session of the legislature he was frequently seen about the capitol building, where he was lobbying for various bills.

At the beginning of the present municipal campaign a saloon man located in the slabtown district was arrested for keeping open after hours and set up the defense at his trial that the saloon was a saloon for the poor. Mr. Reed would not vacate the saloon when the time came for closing. After this case came up in court Mr. Devlin publicly repudiated his alleged manager, but Reed remained true to the man who was in charge of his headquarters during the close of the primary campaign.

CLOSE LID

yells of "Porrad in de aisle, please." He is one of the men who will wedge the platform and decline to move an inch to let a woman get off. He regards it as his inalienable right to be a hog and a hog he will remain.

The notices were received by the company from the printers this morning and are being placed in the cars. Many times the newspapers have called the attention of the company to the abuse of the smoking privilege. The anti-smokers, the women with delicate noses, are going to have their innings at last. But the stranger can no longer draw unfavorable comparisons between the car etiquette of Portland and that of any other city on the map.

GREAT ACTRESS

(Continued from Page One.)

terday for England and Carow, who remained here to attend to personal business matters, says he will follow her this week.

Miss Terry is 59 years old, and some time ago was reported to be a grand old lady. She is six feet tall, broad-shouldered, with ruddy, clean-shaven, handsome face. Carow, who is a native of Indiana, has been an actor for eight years. He became acquainted with Miss Terry two years ago while playing in England. She is to continue her career on the stage. This is her third marriage.

The Italian consul at Panama has advised his government that Italian emigrants tend to go to the isthmus to work on the canal, on account of the large percentage of deaths among the workers.

STOP WOMAN AND CONSIDER

First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ills than any other one medicine known. It regulates, strengthens and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life.

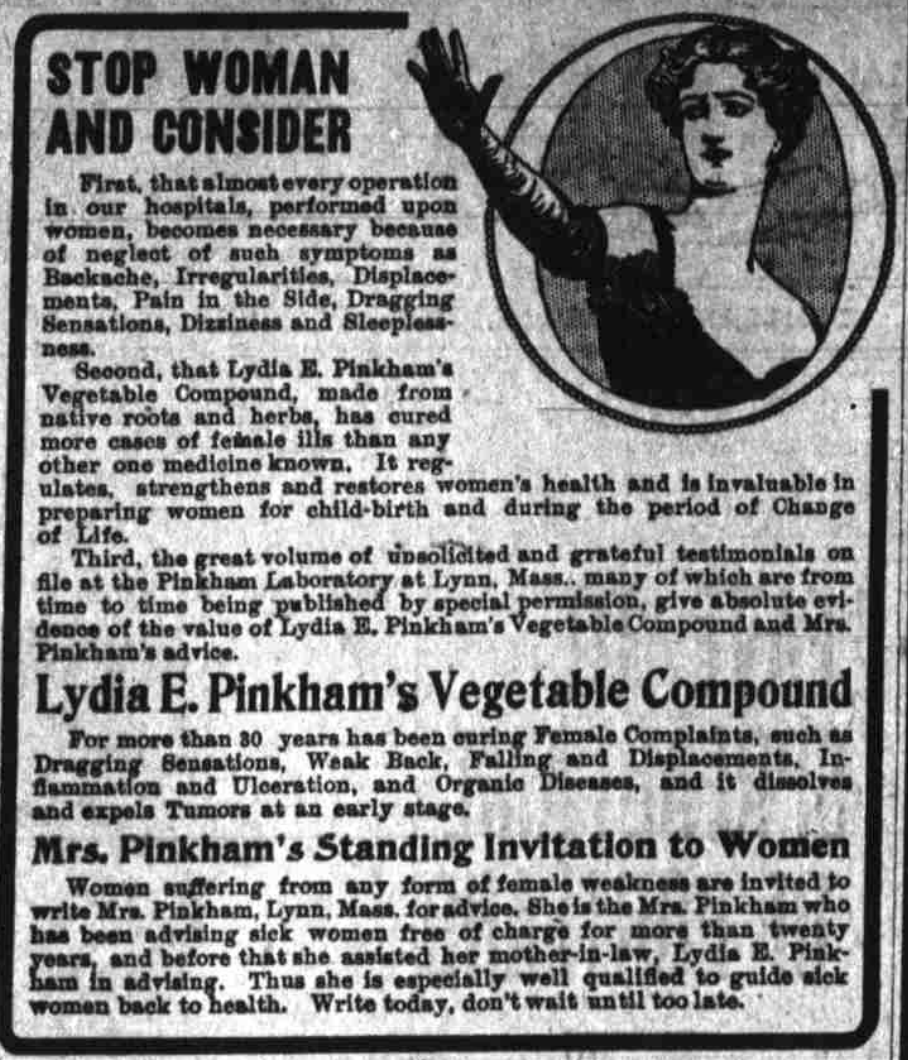

Third, the great volume of unolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Lydia E. Pinkham's Vegetable Compound

For more than 30 years has been curing Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and Organic Diseases, and it dissolves and expels Tumors at an early stage.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health. Write today, don't wait until too late.

that he has not gathered all his bills in, so that he would not be able to make an estimate at this time.

It is the same with the other candidates, Zimmerman and Kellaher. A. L. Barber, the nominee for city auditor, places his expenses at \$300, but O. E. Miller has not yet computed his expenses and would not give an estimate.

Wozlein Gets Off Cheaply.
J. E. Wozlein, the nominee for city treasurer, places his bills at \$125, but computes that by the time the June election is over they will mount up to fully \$500. He had no opposition at the primaries.

In the race for councilman at large John Annand places his expenses at \$100, Thomas Gray at \$150, and M. J. Driscoll at \$25. R. A. Preston, in the first ward, estimates \$85 for himself, while W. A. Storey put his at \$60. In the fourth ward Rufus Holman says \$150. In the fifth ward W. J. Corbett estimates \$200 for his share of the fun, while J. F. Boothe put his at \$250.

Mann Destroys Evidence.
"I have destroyed the evidence," said John M. Mann, candidate for councilman in the Sixth ward. "You cannot get any story out of me. All the money I put into the campaign could be made into a war for a shotgun. Find out what Belding spent and I will tell you what I spent." Mr. Belding could not be located, so that the estimate from the ward is necessarily somewhat vague.

Using these sums given as a basis from which to figure, it will be seen that the campaign cost the candidates between \$2,370 and \$10,000. Common belief, however, has it that the sum total given in reality falls very far below the real mark.

Large Sum for Good Cheer.
The story is told that \$500 was spent in one night in the interest of one candidate for office during the past week. According to the story, the sum was given to a saloon man in the north and with the expectation that it be distributed among the various saloons for the purpose of bringing good cheer to the thirsty voters of the district. The whole sum was spent in one place, however, which caused a great grief in the hearts of those purveyors of liquid argument who did not get in on the deal.

Altogether it is possible that when all the candidates make up their itemized list of campaign expenses the total would amount to some \$10,000, and that sum is for the primaries alone, circumstances being such that an equal addition to the circulation of the coin of the realm will be made during the coming 90 days.

ACCUSED GOVERNOR TO FACE FEDERAL COURT
(Journal Special Service.)
Washington, May 6.—The case against Governor Crawford of South Dakota, charged with illegally filling land patents, has been referred to the department of justice. Commissioner-General Ballinger of the land office stated that the bureau has completed its work on the case after canceling all the patents filed by Crawford.

ARITHMETIC AND FOOD
School Children Must Be Well Fed.
A young girl in Newport says no one has a better right to speak of Grape-Nuts than she.

"I was in school, but in poor health, until Mamma began to give me Grape-Nuts food. I began to improve at once, both mentally and physically, and I improved so in my work at school that I got 100 in arithmetic, and during that time I gained 8 or 4 pounds in weight and am still gaining.

"There is no one who has a right to recommend the food more highly than I. Mamma neglected to supply it for about three weeks, and I began to fall in health, so I commenced the use of the food again, and now I don't intend to do without Grape-Nuts."

It is well for parents to know that Grape-Nuts food contains selected elements from the grains, prepared and cooked in such a way as to present these food elements so that they can be quickly digested and assimilated; the phosphate of potassium obtained from the field grains and contained in Grape-Nuts unites with the albumen of food to quickly rebuild the gray matter in the nerve centers and brain.

It is of the greatest importance that growing children and students be given food that sustains both brain and nerves. "There's a Reason." Read the little book, "The Road to Wellville," in plain.

Pabst Blue Ribbon Beer is Healthful

Because it is brewed from Pabst Eight-Day Malt and choicest hops.

Malt is made from barley—the most nourishing of all grains.

The Pabst Eight-Day Malt Process gets all of these nourishing properties out of the barley-grain, and the Pabst Brewing Methods retain them all in

Pabst Blue Ribbon
The Beer of Quality

which is therefore richer in food values than other beers. In addition, it has the exquisite flavor of the choicest hops, with all of their tonic properties.

Pabst malts for food values. Pabst brews for health qualities. The name Pabst guarantees both purity and excellence.

When ordering beer, ask for Pabst Blue Ribbon.

Made by Pabst at Milwaukee
And bottled only at the Brewery.
