

### CANADA RAISES POSTAL RATES

Treaty With United States Expires at Midnight and Change Will Be Made.

### FIRST-CLASS MAIL IS NOT AFFECTED BY ACT

Circulation of American Newspapers and Magazines in Dominion Will Be Materially Reduced by Action of Authorities.

(Journal Special Service.) Ottawa, Ont., May 7.—The existing postal treaty between Canada and the United States expires by limitation at midnight tonight, the Dominion government having notified the Washington authorities of its desire to have the treaty abrogated. All efforts on the part of the United States to have the treaty renewed have failed, and tomorrow Canada will put into effect the new postal rates already decided upon. Second-class mail matter, including newspapers, magazines and books, is the only matter that will be affected by the change. On this class of matter coming from the United States, Canada will advance the rate from 1 to 4 cents a pound. The effect will be, according to all expectations, that the circulation of American newspapers and magazines in the Dominion will be considerably cut down. The principal reason advanced by Canada for the increase in rates is that the old rates were of far more benefit to the United States than to Canada, as the circulation of American publications in Canada was far in excess of that of Canadian publications in the United States. The real cause for the change, however, is probably to be found in the loud and continued protest of Canadian merchants that the advertisements of American merchants in the magazines and newspapers so freely circulated on this side of the border resulted in taking vast sums of money out of the pockets of Canadians and putting it into the pockets of merchants in the United States, to the consequent loss of Canadian merchants.

### GROWTH IN SCOPE OF HIGH SCHOOLS OF KESLO

(Special Dispatch to The Journal.) Kelso, Wash., May 7.—The board of education has selected the following teachers for next year: Principal, R. W. Smith, Misses Lucia Jenkins, Pearl Vall, Mabel Ruscher and Nellie Ramsey. Four vacancies yet remain. Under the direction of Principal Smith the Kelso schools have made good progress this year. The enrollment has greatly increased and enlarged facilities are required for next year. Plans are under way for the erection of a \$4,000 addition to the Washington building, an additional year is to be added to the high school course and two additional teachers will be employed for next year, one in the grades and an assistant in the high school.

### GAMBLE ON LIFE OF KEATING HEIR

Californians Form Pool to Buy Interest in Estate in Los Angeles County.

### WILL WIN IF MAN LIVES TWO AND A HALF YEARS

Capitalists Pay Eighty Thousand Dollars for Right Which Will Be Worth Two Millions at the End of Stated Period.

(Journal Special Service.) Santa Monica, May 7.—In hope of winning \$2,000,000, J. C. Steele, a former postmaster of Santa Monica, Ben Hunter, until recently city attorney, Robert M. Miller, secretary of the board of education, and A. W. McPherson, manager of the Edison Gas & Electric company, have risked \$80,000 on the life of Henry C. Keating, one of the heirs of the Keating estate, valued at nearly \$5,000,000. If this heir lives two and a half years, till the youngest inheritor becomes of age, the plungers will thereby hold clear title to land in Los Angeles county valued at more than \$1,800,000. If he dies within the time named the entire estate reverts to the other heirs of the estate, his brothers and sisters. Henry C. Keating, the heir, wants ready money, and he has taken the quickest means of realizing on his rich prospect.

### NO AGREEMENT WITH ELECTRICAL WORKERS

(Special Dispatch to The Journal.) Spokane, Wash., May 7.—Committees of the electrical workers and the electrical contractors have had a meeting but failed to come to an agreement on the demand of the men for a raise to \$6 a day. Many of the workers are intending to go into business for themselves.

Unknown in River at Spokane. Spokane, Wash., May 7.—The dead body of a man was dragged from the river yesterday by two soldiers at Fort Wright. The man could not be identified. He was about six feet in height and weighed about 190 pounds. He had sandy hair and mustache.

### GET THE OAKS HABIT

Thousands of People Entertained at the Pavilion Every Week. The big Oaks rink continues to be as popular as ever and hundreds of beginners are taught every week. Many that have been putting learning off all winter are now joining classes in anticipation of the summer season. The big Union band continues to please every afternoon and evening. General instruction is free at all times. Special lessons 50 cents, or six lessons \$2.50, including skates.

## Woodard, Clarke & Co. Canadian Money at Full Value

view today the labor commissioner said: "The trouble between the iron moulders and their employers extends over the entire Pacific coast. At present the men are receiving \$2.15 for a nine-hour day. They demand \$4 for an eight-hour day. I want to go on record as saying I consider their demands entirely just. Their work is physically hard, and as compared with other work of a similar character for which wages are paid, they are asking only what I consider they are entitled to receive. The cost of living has greatly increased in every direction, and my sympathy is with the men in this struggle."
