## TODAY'S MARKETS

As the Fruit Season Is Just Starting Is Is Well to Remind Growers and Shippers Not to Pack in Second-Hand or Dirty Packages.

# VIEWS OF WOOL

Dealers Not Eager to Purchase **But Growers Believe Pools** Will Sell High.

Today's market features:
Weakness in positry market.
Eggs are showing decline.
Walla Walla 'grass in bad shape.
Fine Northern Spy apples received.
Hubbard squash is in market.
Alligator pears appear again.
Arbuckle coffee down freight charge.
Creamery butter price maintained...
Shad price is it lower.
Potato market is in better form.
Dressed veal slightly weaker.
Wool market gathers weakness.
Continued weakness in strawherries.

Wool, Markat Gathers Weakness and dulimess in the Pacific coast wool market. Eastern
markets are not reflecting any improvement in
sentiment or price and this is causing even the
more builtuh of the trade to feel rather downcast. Sales of eastern Oregon wool made of
late have been at a decline of 1 to 2c a pound
from last year's figures and even at the lower
range the buyers are not very anxious bidders.
Some improvement in the interest is expected
with the early approach of the regular sales
days but manufacturers are not showing much
disposition to force their attention upon growers. The fact that buyers are not overeaged Wool Market Gathers Weakness days but manufacturers are not showing much disposition to force their strention upon growers. The fact that buyers are not overeaged to transact business except at their own figures has caused a larger per cent of the growers to enter the various pools so this fact may have some effect upon the market later. While dealers as a rule are not in favor of pools they generally concede that the pooled product brings a higher range of values than is obtained if individual growers enter the market. The reason for this is the much larger amount offered by the pools. Dealers want to buy in large lots and in many instances shade their regular profits if given a chance to take on a big block of stock.

Despite the lower range of values received for individual lots of wool, pool members are optimistic over the future. A Pendleton paper recountly said:

"That the growers will receive fully as good prices this year as last, is the belief of Kenneth Warner, one of the most prominent and best informed of the Umatilia county growers. The basis for Mr. Warner's belief is that in the Boston and London markets the prices are now as hig has they were a year ago, and as a result he declares there is no reason why Oregon growers should not fare as well as they did then.

"'Another reason why we should get good prices this year is the fact that the wool is lighter this rear than usual,' declared he, while discussing the subject this forence. "For example, I brought a band of 500 8-year-old mutton sheep to town yesterday. Their clips this year weighed practically the same as the clips from the same sheep two years ago, when they were yearlings. Under ordinary circumstances those clips this year should have been such that the wool is light and consequently it is worth more."

"In view of all the circumstances, Mr. Warner contends that prices will be all right this year in aptic of the bear talk of the buyers who have recently arrived upon the scene."

Weakhers in Poultry Market.

Some dealers have almost quit storing.

Creamery butter continues very firm, with
all creameries, both city and outside, reporting demand fully up to supplies at the present
range of values. Cold sterage operations heavy. Brief Notes of the Trade,

s stated in this report resterday the po-o market is gaining in firmness here owing the slightly improved conditions in the to the alightly improved conditions in the south.

Walls Walls 'grass of recent arrival has been of very poor quality and the result has been lower prices. Some very choice 'grass was reported in by the W. B. Glafke company from Springfield. Stock is of very fine quality and is packed in a very attractive way. George A. Dorris is the grower.

Arbuckle coffee is 15e per hundred pounds lower, with the opening of navigation on the great lakes. This is a freight decline.

Sugar market very firm, with refineries claiming a large increase in business.

The first Hubbard squash of the season is reported in his morning by Page & Son. It comes from southern California; 6 cents a pound. First Alligator pears also arrived in lift from Hawali. Large slass at \$6 a dozen.

Davenport Brothers are making a wonderful showing of Northern Spy apples from Mount Hood, which are in as good condition as when first picked. Not cold storage stock either. Perkins the grower. Price at \$2.50 a box.

Telephone peas rather scarce and prices are up. Regular peas Sc; telephone, 9c a pound. Shed price is le a pound lower.

Dressed veal is heavier arrival and price is easier in consequence. Hogs remain firm.

Hop market remains dull but trade is expecting an early improvement, owing to the peor condition of the yards, both in this state and in New York.

Trade pags the following prices to Front trade pags the following prices to Front with the condition of the yards, both in this state and to New York.

essers in Southern Spy and season arrived in from Hawall. Large sizes at \$6 a dozen.

Davenport Brothers are making a wonderful showing of Northern Spy apples from Mount Hood, which are in as good condition as when first picked. Not cold storage stock either, Perkins the grower. Price at \$2.50 a box. Telephone peas rather scarce and prices are up. Regular peas \$8; telephone, be a pound. Shed price is le a pound lower.

Dressed veal is heavier arrival and price is easier in consequence. Hogs remain from. Hop market remains dail but trade is expecting an early improvement, owing to the poor condition of the rards, both in this state and in New York.

Trade pays the following prices to Front street. Prices paid shippers are less regular commissions:

#### FRUIT IN DIRTY BOXES WILL BE CONFISCATED

HOPS 1906 crop-Prime to choice, Sc; me-

While but little violation of the law is thus far reported owing to the season just started, some shipments of strawberries are being received from Call-fornia in old, dirty boxes. Sev-eral crates of this kind were eral crates of this kind were dumped by local people during the past 24 hours and officials are about to start a crusade in this direction. The law regard-ing the use of fruit boxes the second time will be strictly en-forced this season. Growers and shippers will save money by shipping only in new boxes.

## WHAT DEALERS SAY

By Sherk & Graham Company.
Egg market shows a weaker
tendency with 18 cents being the
top price at the present time.
Local shipments are very heavy
and some eastern stock arrived
lately, all of which had a tendency to lower values.
Poultry market is also somewhat weaker with increased receipts. This is true with the
exception of young birds and
ducks and these are still in excellent request at top prices.
Dressed meats just about holding their own with no change in

ing their own with no change in

Potatoes are firmer and supplies are getting scarce. Very few eastern potatoes are arriving now and it is not likely that many more will be received. There is practically no stock on the market under 2 cents.

Weakness in Poultry Market.

There is considerable weakness shown in the poultry market today owing to the increase in arrivals during the past 24 hours. All lines show larger receipts and the high prices have kept the trade from making such liberal purchases. Prices are therefore shaded in a few instances but the general range of values remains unchanged.

Eggs are weaker with larger arrivals, while cold-storage operations are pot quits so heavy. Some dealers have almost quit storing.

Creamery butter continues very firm, with all generals.

basis.

HENRY BENTS BUYING HOPS.

(Special Dispatch to The Journal.)
Aurors, Ot., May 8.—The only buying in the hop markets of this section is what Henry L. Bents of this place is doing. This week he bought 200 bales of hops from Aurora, and St. Paul parties at 6½ and I cents. The hops are for immediate shipment to England. Rain is hadir needed in this section for all kinds of crops. The ground is so dry that it is impossible to cultivate hops. The big growers take a cheerful view of the outlook, and, while not anticipating any large prices this season, think the crop will bring a good reasonable price.

Rabbi Jonah Wise Creates Furore at Industrial Peace Association Meeting.

EXPRESSES SUSPICION REGARDING ITS OBJECTS

Pastor Nearly Puts to Flight Bird of Harmony-Others Take Floor and Speak in the Interests of the Organization.

Harmony folded its wings several times last night and started to fly away from the first annual meeting of the Oregon branch of the National Peace association. The gentle bird was scared in the first place by the address made by Rabbi Jonah Wise, who stated that he distrusted the motives of the organization which was formed here recently by P. H. Scuilin. The speaker also said that he was suspicious of the ends of the organization; that he would refuse to allow anyone to make conditions for him or to mediate for him. He further stated that, economically, the plan pro-posed by the association was not only insufficient, but inefficient.

John F. Shields overlooked the im-munity of the cloth and intimated that

if Dr. Wise did not relish the plan of the organisation he could withdraw his presence. Mr. Scullin stated that no man was competent to sit in judgment on his own case, while J. Hennessey Murphy was of the opinion that no man of good sense could question the mo-tives of the association.

Dr. Wise took the floor the second time after Mr. Murphy had finished, and stated that he had been misunderstood. He contended that a better condition for the laboring man could be brought about by eliminating the mismanagement of the labor union. He argued that there would have been no fatalities in San Francisco had the unions managed their men in the right way. "The laborer is entitled to what he asks," the speaker concluded, "but these demands can never he secured by the weaking. can never be secured by the weakling and charitable mediation suggested in

this organization."

Besides Dr. Wise, there were several other speakers. Judge A. L. Frazer outlined the work of the association in his address. He said that labor could in-jure its cause by insisting on increased wages raised to a fictitious standard through fore of combination. Such a course would kill the industry in any community where it was fostered, and the speaker used the shipbuilding industry of San Francisco as an illustration.
As a remedy for this evil the speaker contended that the association would

be a great blessing. Wallis Nash contended that it were wallis Nash contended that it were better for a disinterected party to assist in mediating differences between employer and employe before an acute stage of dissension had been reached. He thought that the Oregon branch of the association would be able to be immediately useful in harmonizing the differences between the Molders' union

and the foundry-owners.
Father J. H. Black, John F. Shields and W. E. Pitschke also delivered ad-dresses during the course of the even-ing. The following executive board was

Employers-T. B. Wilcox, C. F. Swigert, Paul Wessinger. Labor unions— H. C. Gurr, W. E. Pitschke, J. L. Ledwige. General public-Rev. J. B. Black, J. Hennessey Murphy, Dr. A. C. Smith. The board of directors was chosen, to The board of directors was chosen, to consist of the following men: Employers—C, W. Hodson, Fletcher Linn, T. B. Wilcox, Paul Wessinger, William Mac-Master, Samuel Connell, W. P. Olds, R. D. Inman and C. F. Swigert. Labor unions—W. E. Pitschke, J. A. Ledwige, R. A. Harris, W. H. Fitsgerald, P. McDonald, Harry C. Gurr, P. H. Kelly, C. H. Gram, W. McKenzie. General public—S. H. Gruber, Rabbi Jonah B. Wise, Rev. James H. Black, Dr. A. C. Smith. Rev. James H. Black, Dr. A. C. Smith, Rev. E. S. Muckley, J. Hennessey Mur-phy, J. B. Laber, E. C. Giltner and Judge Thomas G. Hailey. Judge Hailey was also chosen as the legal adviser for the association.

#### PLAN TONIGHT FOR CELEBRATION

Strong efforts are being made to bring a good-sized crowd of men who think and plan to the city hall tonight to take the first steps toward Port-land's Fourth of July celebration. Mayor Lane has called the meeting in Mayor Lane has called the meeting in response to the petition of a number of business men, and as today is May 8, it it time for the committees to be appointed and something definite accomplished. It has been suggested that the fireworks be displayed from a barge anchored in the river, so that one of the principal scenic features of the celebration may be easily witnessed by page hration may be easily witnessed by peo-ple on both sides of the Willamette. A day military parade is also expected.

Those who are working for this year's celebration want it to eclipse the biggest yet given in Portland, thus showing the growth of the city during the past two years. For this reason they ask for a large attendance in the council chamber, city hall, tonight,

#### NOTED EVANGELIST TO LABOR AT SALEM

(Special Dispatch to The Journal.)
Salem, Or., May 8.—Local Methodists are planning a big evangelistic campaign to open May 15 and to continue for several weeks under the auspices of the First Methodist Episcopal church, of which Rev. W. H. Selleck is pastor. The services will be conducted by Rev. C. R. Haudenschied of Chicago, who is said to be a revivalist of more than ordinary talent. The pre-liminary meetings of the liminary meetings of the campaign will begin Sunday evening. Various committees will be appointed later to plan for the campaign.

#### I Am Never in Doubt

I am never in doubt as to what the results from my treatment will be. Day after day for sixteen years I have been curing case after case of the several diseases peculiar to men. No case comes to me now, the like of which I have not treated scores of times in the past, and I can always say definitely whether I will be able to effect a permanent cure. I never hold out false hopes or make promises that I cannot fuifil, and you can rely absolutely upon and you can rely absolutely upon any encouragement I may be able to offer you. If I promise you a cure, a cure will follow.

#### "Weakness"

I cure functional weakness in men. I know of no other physician curing this aliment. Most doctors treat wrongly. They give stimulants and tonics. These things can't cure. "Weakness" is a symptom of prostatic disorder, and the treatment must be local. This is a truth that I myself revealed. I have perfected the only system of local treatment that cures "weakness." A few doctors over the country claim to cure by the same method, but their treatment is only an imitation of the genuine "Josien" method. The genuine so here and is administered by its originator. Don't hope to find it elsewhere.

Specific Blood Poison

No dangerous minerals to drive the virus to the interior, but harmless, blood-cleansing remedies that re-move the last poisonous taint. MY FRE IS ONLY

## You Pay When

#### I Never Guess

Experiment or take chances of any Experiment or take chances of any sort. I attempt to cure only those diseases that I have been curing for the past sixteen years, and I believe I am justified in saying that I have learned all rhout them. Were I lacking in knowledge pertaining to my specialty I would never have attained my present success, nor would I today be recognized as the leading specialist treating men's diseases. If afflicted, you can depend upon it that the service I offer you is the service you need, and is service such as can be rendered by no other physician.

My practice is the largest because I invariably fulfill my promises.

#### Varicocele

Under my treatment the most aggravated cases of varicocele are cured in a few days' time. There is no pain, and it is seldom necessary that the patient be detained from his occupation. Normal circulation is at once restored throughout all the organs, and the natural processes of waste and repair are again established. If you are afflicted with varicocele, consult me at once. Delays can but bring on aggravated conditions and nervous complications and involve the general health.

### **Contracted Disorders**

When

In the treatment of disorders I offer a service such as no other physician can render. The remedies I employ have a most thorough and positive action in cleansing the membranes of all infection and suiduing all inflammation. My manner of application insures absolute thoroughness, and removes every possibility of relapse or a chronic stage. My cures are not only thorough, but are accomplished in the briefest time possible.

OUR FEE CONSULTATION FREE **ALL CURES** 

In Most Cases

No Pay Unless Cured

In claiming that we treat our patients unlike, and more satisfactorily than many physicians and specialists, we compare the results we usually accomplish within a short period of time with what others have failed to do after treating the same patients for months and years.

We have been successful in treating the diseases below because of study and practice, making a speciality of our work; they consist of disorders of the skin, nerves and blood, and originate from various canses which are as important to be understood by a specialist as to know how to treat the trouble, from the fact that unless the course is known, the treatment cannot be properly directed.

DOST WAIT—No sensible man should wait. He should realise that the longer he delays the more the parts affected will weate away. Don't live and linger, DEAD to the joys of health, when we have a good care for your various waits and weakness and can make you a happy, manly man with mental and physical powers complete. We cure without outling. Come for one visit. We cordially invite consultation. We cure after others fail.

OLD MEER with chronic Kidney and Bindder Trouble, Difficult Urination, Enlarged Prostate Gland, Smarting, Burning, etc., should call at once for quick relief.

OBSTRUCTION—It is usually due to strong injections, injuries, instruments improperly used, etc., if suffering from urinary obstructions of recent date or long standing, consult us and get cured right. No cuttin

The Scientific Treatment of Weakness

Dosing the system with powerful stimulants and tonics in an effort to restore functional vigor can have but one final result: The condition is rendered worse than before. "Weakness" is merely an indication of a low form of inflammation in the prostatic gland, and this inflammation is but aggravated by stimulating remedies that excite temporary activity. We employ the only scientific and fully effective treatment for "weakness," which effects a permanent cure by restoring the prostate gland to a sound and healthy state. We obtain complete results in every case we treat.
