vance Between Rise of Large

and Small Millers.

While the larger millers to-day advanced their values on flour 25 cents a barrel for all grades, there was a wide differ-ence in opinion among smaller millers as to the amount of their

rise. Some added 10 cents a bar-rel to their former figures while others placed 15 cents, others 20 cents and still others 25 cents in their former values. At

the new prices the market is firm. Export prices show an-other tremendous gain, large

GROCERS WILL HOLD PURE

Give Exhibit in Portland

Next September.

The proposed pure food show was the

main topic of discussion at the regular semi-monthly meeting of the Portland

Retail Grocers' association, held in Alisky hall last night. It was definite-ly decided to hold the show in Septem-ber, the exact date to be decided on

Secretary Merrich has been in correspondence with eastern men, who have managed such institutions, and has en-

gaged the services of a man experienced

in this line of work to take charge of

the Portland show. It is the intention of the association to interest women

clubs and other organizations in the enterprise. These having the matter in hand are confident that success can be

made of it and that it will prove of immense benefit to the general public, as well as to the pure food manufacturers,

Strawberries Are Not Near as Plentiful as Expected, and Result is That Values Are Being Held Very High in Wholesale Markets.

ODAY'S MARKETS

Potato Market Is Firmer With No Good Stock Selling Under Two-Cent Mark.

Toda's market features:
Flour 10 to the a barrel higher.
Sharp advance in potato values.
Hawkers complain of commission housesses are fractionally lower.
Chicksh market continues easy.
South is buying store butter.
Strawberries are scarce and high.
Orange market is quoted firmer.
More searcity shown in fresh salmes.
Dressed meat market is easter.
Looks like rise in sugar again.

morning the Front street ing \$2 for anything of good of local or eastern stock. This is was asking \$2 for anything of good quality whether local or eastern stock. This is pratically an advance of 10 to 15c per hundre pounds over the values they were willing accept a few days ago. The better feeling accept a few days ago. The better feeling not only noticeable here but a steady improvement in the undertone of the southern market is easily distinguished even at this distance. Because for the hetter tone and the advance scales here is the latest news of the growing mop in Celifornia, which is reported to be yen more backward than any of the trade habeen led to expect. New potatoes are a caree in the southern state that it is ver

scop in California, which is reported to be seen more backward than any of the trade had been led to expect. New potatoes are so scarce in the southern state that it is very difficult to obtatin supplies even at the sharp advance quoted there during the past week. Locally the supply of new California sounds is very small and dealers are holding the product stiff at 6c a pound and say they are merely exchanging dollars at that figure.

Hawkers Complain of Commission House.

Alleging that a commission house of Front struct owns a number of wagons for which it employs hawkers to sell its fruits at a salary of \$25 a week, the independent hawkers were much wrought up this morning and were in the pay of the other concern. This matter has attracted considerable attention from both the hawkers and the grocery trade. At one time the Retail Grocers association had its attention called to the matter unofficially and a committee was sent to make an investigation of the offending house. At that time soothing came of the inquiry but it is now stated that the subject will again be thrashed but before the association.

Strawberries Scarce and High.

Although the supplies of strawberries are fair, the volume of serivals from the south will not sillow of brokers giving commission men deliveries of more than a quarter of their grease. Gregon barries are in larger supply but are not yet of best quality. California fession at \$1.50, Dollars at \$1.50, commission had at 124c@15c a basket.

Caudifrower from the south is in rather poor shape and is selling at \$1.50 per doses.

Osunge demand very liberal with values sanging around \$3@3.75 per box.

Looks Like Riss in Sugar Again.

Conditions in the sugar frade are very firm

price on the street today.

Chickens are easier with more liberal arcivals and prices dust about the same.

Hop Market Promises Activity.

While no new business is reported in the sop market inquiries are showing a firmer bus in the east. There is a disposition emong gome of the bearish to send out false reports regarding the situation on the coast in the hope of further wrecking an already wrecked market. Present holders of hope on the coast are not showing much disposition to press that supplies on the market at this stage of the game.

Goldfield Company Loses Heav- Great Difference in Today's Adily in San Francisco-Clique la in Charge.

The eastern clique which is supposed to be engineering the present decline in Nevada shares has the situation well in its control from present indications. Goldfield and other Nevada issues lost heavily, holders seeming to sell whenever given the opportunity. In Sau Francisco today the value losses were very heavy. Goldfield Consolidated, which is said to be a holding company for the best mines there, lost \$2.75 a share today, the largest single decline made recently.

NEW YORK STOCK MARKET Rumor of Action Against Harriman

Causes Losses. Weakness in stocks in New York today was caused by rumors of drastic action against the Harriman roads to be taken by the attorney-general as a result of the investigation made by the interstate commerce commission. B. & O. was heavy on small lots in anticipation of another poor statement for April. London was heavy for Americans.

FOR EAST SIDE

United Clubs Plan to Carry on Spring House Cleaning After Election.

The discussion of charter amend-ments by the United East Side clubs was concluded last night. A hig move-ment that will engage the time of the clubs after the coming election was also launched. Francis I. McKenna sent a communication accompanied with a check for \$25 toward a fund of \$1,000 to be used in cleaning and beautifying the east side.

The clubs represented were enthusias-tic over the matter, and as soon as the business now before the clubs can be finished, which will be after election. the matter of beautifying the entire east side will be earnestly taken up. For the present it was continued.

The clubs will probably not held another meeting before election. So far the united clubs have indorsed the

improvement of streets by districts, the bond appropriation for a new struc-ture to replace the Madison bridge and the bond appropriation for the constructhe bond appropriation for the construc-tion of a new conduit to Bull Run.

The park measure which provides for the voting of a large sum to build parks in different parts of the city, as well as several large parks, was in-dorsed last night, as also the proposal that the city should own docks which should be constituted public moorings.

The club passed up the \$800 liquor ordinance, taking no action either way. The same indifference was manifested toward the salary referendum, the acts creating a board of engineers and a free employment agency and the act provid-ing for the annexation of new terri-

The Chicago wheat market was entirely in control of the professional element today. The market opened 1% to 1% lower than the closing bid of yesterday, are flucuated upward and downward a haif point at a time all day, gradually easing off and closing 2% to 2% of under yesterday. Foreign markets were firm. Weathern conditions improved greatly in the middle west and in Canada. The act providing for dry mains and fireboat was condemned, although the a fireboat was condemned, although the clubs were in favor of the latter. The two provisions could not be separated, so the whole enactment was condemned. The club discussed the dry main feature thoroughly, but it was the general opinion that the proposition is impracticable and unnecessary. It was the opinion also that the old fireboat, George H. Williams, if remodeled and equipped so that it could "move a little faster than a saw log," might de for faster than a saw log," might do for

The opposition to the park scheme that loomed up at a previous meeting was noticeably absent, and under the convincing argument of J. T. Gregg of Woodlawn, melted away entirely. This was one of the important matters on which the club had been doubtful, and the indorsement last night is considered significant by the friends of the meas

was reported that the cremator site in the central east side residence district had been abandoned to the great gratification of the clubs and that the crematory on the present site would be remodeled and enlarged so as to handle satisfactorily all the garbage of the city.

Home Bonds—Home Stock

From the double standpoint of safety and income, I strongly advise the purchase of HOME TELE-PHONE BONDS. Around present prices, \$87.50 to \$90.00, these bonds net 6 per cent to investors.

If you want to speculate and double your money within eighteen months and secure a permanent dividend-payer, buy the HOME TELEPHONE STOCK; it will sell around \$80,00 within the time mentioned. Watch the new Home Telephone Directory grow and these securities advance.

Men's Diseases Cured stay Cured

Different doctors have different ideas in regards to cures. Some call a suppression of symptoms a cure. They dose for drug effects and claim that nothing more can be done. But the real aliment remains, and will bring the real symptoms back again, perhaps the same as before, but very likely leave the patient in a much worse condition. I claim that nothing less than complete eradication of disease can be a real cure. I treat to remove the disease, and not merely the symptoms. I search out every root and fibre of an aliment, and I cure to stay cured.

"Weakness"

I not only cure "weakness" promptly, but I employ the only treatment that can possibly cure the disorder permanently. It is a system of local treatment entirely original with me, and is employed by no physician other than myself. This may seem a broad assertion, but it is just as substantial as it is broad. So-called "weakness" is but a symptom of local inflammation or congestion, and a radical ours is merely a matter of tion, and a radical ours is merely a matter of restoring normal conditions throughout the organic system, and this I accomplish thoroughly and with absolute certainty,

You Pay When

Varicocele Cured Without Cutting

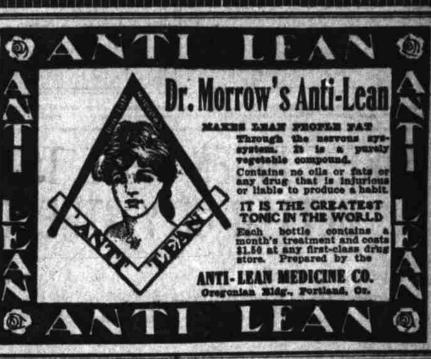

The time was when every man afflicted with varicocle had no che other than to allow the disease to go on undermining his power and her or submit to a surgical operation. Now he can choose a thorough oure by painless treatment. I cure varioccele in one week, and it is seldom necessary that the patient be detained from his business even a single day, method is original with myself, and is the only safe and successful treatment for varioccele ever devised.
