The bulk of the venire are farmers and ranchmen; they seem to seidom go to church; they read tittle of the newspapers and pay no attention to what they read; they have paid no attention to the views of President Roosevelt or Governor Gooding or Secretary Taft; they seemed to have lived "the world forgetting, by the world forgot." And the long, patient, utterly wearisonne examination of jurors has been carried on as much for the purpose of "educating" them as for any other purpose, and the only campaign of prejudice the examination has discovered has been that carried on by the Socialists.

There has not been lacking from that ampaign a certain sort of humor. It as been a kind of three-cornered duel. he campaigners have all proclaimed a The campaigners have all proclaimed a great love for the accused men and a deep hatred and contempt of each other. They represent, or misrepresent, the Socialists of the east, the Socialists of the middle west, and the Socialists of the Pacific coast. They despise each other and denounce the prosecution. They each proclaim that their own brand of Socialism is the only true brand, all other brands are sham. And they have been working for a year with they have been working for a year with great assiduity and no result whatever. Their campaign has been chaff in the

It has cost apparently a lot of money. The gentlemen carrying it on have threshed themselves into a feam of passion and excitement. And the silent, industrious farmers of Ada county have gased on in smiling wonder or listened in amused tolerance to the very fervid gentlemen who proclaimed that unless their views were adopted the union of states would toboggan to

No Campaign by State.

On the other hand it is proved every day that the prosecution has attempted no campaign at all against these men. Comments of the newspapers have been almost invariably discreet. Neither poparty has made the case an issue. At the last election Governor Gooding did not make it a political issue either. The answers of the jurymen being examined indicate quite clear ly that the Western Federation of Miners will not be "on trial" in this case; trades unionism will not be on trial; socialism will not be on trial. Any statement to the contrary may be accepted as misleading and unnecessary.

The charge is murder and the trial will be a trial for murder conducted by a judge who is an honorable gentleman. judge who is an honorance sound lawyer and a man of indepe ent character and courage. Ten men had been passed as possible jurors to hear the Pettibone case when court adjourned last night, and although these men are subject to dismissal, yet each side having a number of peremptory challenges it is probable that the jury will be completed within a very short time. The jurors temporarily passed are: A. J. kwing, carpenter; William Van Orsdale, grocer; Samuel D. Gliman, farmer; Walter Shaw, farmer; Allen Pride, farmer; D. W. Henry, carpenter; George H. Boise Ida, May 15.—The examination of jurors for the trial of Moyer, Pettibone and Haywood is showing more clearly every day the downright indifference of the people of Boise and Ada county to the insues of the case.
