### WIDOW DEMANDS SUM OF TWENTY THOUSAND

Mrs. Nichols Asks That She Receive Damages Because Her Spouse Drank Himself Into Frenzy and Shuffled Off the Mortal Coil.

(Special Dispatch to The Journal.)  
Aberdeen, Wash., May 15.—One of the most unique civil actions ever instituted in the superior court in Chehalis county was commenced by Mrs. Lilia Nichols of Montesano, whose husband recently committed suicide by shooting himself through the head, after a prolonged spree.

The defendants of the action are William Maston, Harry White, the Aberdeen Brewing company, A. L. McLeod and John O'Hare, the three latter being located at Aberdeen. The complaint alleges that the defendants, who furnished liquor to her husband, are accountable for his death, and she seeks to recover damages in the sum of \$20,000, as well as a further sum of \$400 alleged to have been lost by Nichols at gambling.

She also asks \$1,000 from McLeod and O'Hare, the amount in which they are sureties on the bonds of the defendant saloon-keepers, Maston and White.

### TO IMPROVE RANGE ON FOREST RESERVES

(Washington Bureau of The Journal.)  
Washington, May 15.—An argument on improvement of the ranges of the west has been issued by the forest service.

Overcrowding of the grazing lands of the public domain has long been the cause of the creation of the national forests brought many of the ranges into very poor condition, and many stockmen have requested advice on possible methods of increasing the forage.

The bureau of plant industry of the department of agriculture and the forest service have just joined in cooperative work in investigating the best means to develop an increased forage crop in the over-grazed national forests.

Frederick V. Coville of the bureau of plant industry has been placed in charge of the work of making these investigations and will report to the forester in the matter. The fields in which these investigations will immediately begin are located as follows: Imnaha national forest, Oregon; Sawtooth national forest, Idaho; and Pike's Peak national forest, Colorado. The work in each locality will be in charge of a special inspector or special agent reporting to Mr. Coville.

### PLANS OF CONTRACTOR FOR ASTORIA SEAWALL

(Special Dispatch to The Journal.)  
Astoria, Or., May 16.—Mr. S. F. Mongin, a prominent contractor of Seattle, is in the city conferring with Manager Whyte of the chamber of commerce over the details of building the Astoria seawall. Mr. Mongin's plan, it is stated, is to level down the hills with a hydraulic plant which he calculates may be constructed for about \$20,000. He also explains that along portions of the city where it is not now considered desirable to construct a more expensive concrete seawall, he can construct one of brush mats that will last a great many years, or until the time is more propitious for the construction of a concrete wall. His plans are being discussed with much interest by all Astoria citizens.

### Grand Union Tea Co.

The opening of the Grand Union Tea company at 472 Washington street a few days ago marked an innovation in business circles. The store is located on the upper end of the business section of Washington street in the block east of the Heilig theater, a portion of the thoroughfare that has quite a number of bright new stores. The Grand Union Tea company occupies the largest store room in the new Lazerus brick and the zinc hardware and plate glass counters, the chests, shelving, and wall decorations are in thorough keeping with the pretentious store front. The management may be congratulated upon the up-to-date appearance of the place as well as upon the auspicious opening of the establishment. The institution is a branch of the Grand Union Tea company, of Brooklyn, New York, which embraces over a hundred stores in the United States.
