

FRAZER SCORES WIFE DESERTERS

Women Too Lenient—Husbands Should Be Made to Do Life Work for Families.

"When a man deserts his wife after she has raised a large family for him he ought to be compelled to work for them the rest of his life. Too many concessions are made by wives to husbands of criminal and depraved tendencies who have deserted their families for other women." In those words Judge Frazer in the circuit court this morning expressed a vigorous opinion as to the rights in property that a deserting husband is entitled to.

The judge was hearing the suit of Mrs. Hattie B. Moodie for a divorce from Andrew D. Moodie. Considerable property was owned by the couple and the court was informed that a settlement had been effected as to the property by which Moodie obtained several lots on the east side, while Mrs. Moodie was given several lots and \$1,500 in cash. Judge Frazer then said that deserted wives make too many concessions in property settlements.

The Hittans were married at Ellendale, North Dakota, in April, 1885, and have seven children—Bertha, aged 21; Andrew D., aged 19; Harold, aged 12; Eunice, aged 8; Walter, aged 7; Grace, aged 4, and Lois, aged 3 years. Andrew, the son, testified that his father deserted his mother in April, 1906, and told the boy afterward that he wanted no more of married life. Moodie had been running with other women, said his son. Divorce was granted and Moodie was ordered to pay his wife \$10 a month for the support of each of his minor children.

Four days was the length of time that was required for Rosa M. Root to tire of her husband, W. H. Root, according to his testimony in seeking a divorce. They were married at Vancouver on the fifth of last March, he said, and Rosa left him on the ninth, saying she did not want him any longer. A charge of infidelity was the basis of the application for a divorce, which was granted.

Dora H. Berninger was granted a divorce from William E. Berninger on the grounds of desertion beginning in September, 1903. They were married at Vancouver, Washington, in September, 1891.

METHODIST DISTRICT CONFERENCE ADJOURNS

(Special Dispatch to The Journal.) The Dallas, Or., May 17.—The district conference of the Methodist church, which was in session in this city for three days, adjourned yesterday noon. Comprising 37 charges, the district is under the jurisdiction of Presiding Elder Skipworth of The Dalles. The reports show a steady gain in membership during the past year and that Methodism was never in a more flourishing condition than at present.

MAYOR GOT COIN

power and turned over to the committee the authority to administer the affairs of the city. In this connection it was stated by Henry that no far as the prosecution is concerned the supervisors will not be forced to resign. The intimation that Chief of Police Dinan and President of the Board of Public Works Duffey will be ousted was followed by the rumor that they will quit office before the citizens' committee has a chance to kick them out.

Ruef arose early this morning after a good breakfast and was taken out for an auto ride by Mayor Higley. The tremendous strain of the ex-hon's laboring under is telling on him more palpably every day. When he walked down the steps of his prison to enter the automobile this morning it was with painful dragging of feet and he carried himself with an air of listlessness. His once jet black locks seemed to have grown white over night.

Sympathy for Ruef. Telegrams of sympathy continue to pour in on Ruef. Many were received this morning from women and several from old college mates. Ruef finds great strength and consolation in these expressions of sympathy, and intends to wave all of them. There is a continued softening of the sentiment against Ruef, even Henry, whom he hates with the deadliest hatred, showing a disposition to be magnanimous to the man whose spirit and power he has broken.

TRAMP DOG SAVES BOY FROM DROWNING IN SURF

Brown Collie Plunges Into Waves and Rescues Child From Angry Breakers Off Beach.

(Journal Special Service.) Los Angeles, May 17.—The remarkable intelligence and noble work of a vagrant dog, a brown collie, saved the life of Eddie, the little child of Mrs. J. S. Lawrence of San Francisco.

Mrs. Lawrence is visiting here with her child, who is 3 1/2 years old, and took him to Long Beach for the day, joining a party of friends. Playing on the sands, the boy toddled too near the water unnoticed and a breaker caught and dragged him under. Hearing a faint cry and a sharp barking the crowd saw the baby 100 feet out struggling helplessly. Before they could reach the water's edge the homeless dog jumped to the surf, swam out, caught the little one's dress in its teeth and started shoreward with its heavy burden. A timely breaker helped in the effort, and the dog deposited the boy at its mother's feet unharmed.

Lamenting and crying hysterically by turns, Mrs. Lawrence alternately kissed and hugged the canine hero, which showed the keenest delight, and the crying child. In a few minutes the collie plunged into the water again, struggled far out and brought back the baby's cap, which nobody had noticed was missing.

AFRAID OF PARALYSIS

A NERVOUS SUFFERER CURED BY DR. WILLIAMS' PINK PILLS.

The Medicine That Makes Rich, Red Blood and Performs Wonders as a Tonic for the Nerves.

Why are nervous people invariably pale people? The answer to that question explains why a remedy that acts on the blood cures such one troubles. It explains why Dr. Williams' Pink Pills for Pale People are also for nervous people. It is because of the intimate relation between the red corpuscles in the blood and the health of the nerves. The nervous system receives its nourishment through the blood. Let the blood become thin, weak and colorless and the nerves are starved—the victim is started on the road that leads to nervous wreck. Nervous people are pale people—but the pallor comes first. Enrich the blood and the nerves are stimulated and toned up to do their part of the work of the body. Dr. Williams' Pink Pills make red blood and transform nervous, irritable, ailing people into strong, energetic, forceful men and women.

Mrs. Harriet E. Porter of 20 Liberty avenue, South Medford, Mass., says: "I had never been well from childhood and a few years ago I began to have dizzy spells. At such times I could not walk straight. I was afraid of paralysis and was on the verge of nervous prostration. Then a neuralgia set in and affected the side of my face. The pains in my forehead were excruciating and my heart pained me so that my doctor feared neuralgia of the heart. I tried several different kinds of treatment but they did me no good. One day my son brought me some of Dr. Williams' Pink Pills and I found that they strengthened my nerves. I took several boxes and felt better in every way. My nervous neuralgia, even partial paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are invaluable in anaemia, rheumatism, after-effects of the grip and fevers and in sick headache, nervous neuralgia, neuritis, even partial paralysis and locomotor ataxia.

Your booklet, "Nervous Disorders, a Method of Home Treatment," will be sent free on request to anyone interested. Write for it today. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

FORCED TO RELINQUISH

(Continued from Page One.)

"Where did these talks take place?" "At different places. I remember we had several talks about it at the home of Thorwell Mullally."

"Did Calhoun discuss the franchise in detail?" "He did. He knew all about it."

"We know how some of the money was divided. But he can't tell us to cover the whole thing and explain it to us?"

"I can. The money drawn from the mint and changed into paper currency was given to me at the office of T. J. Ford. The first withdrawal of \$10,000 was changed into bills of small denominations—\$1, \$2, \$5, \$10 and \$20. We saw to it that the money was distributed to the supervisors when we got the different payments."

"How about the rest of the money? That meant there was about \$111,000 left. What did you do with it?"

"I divided it equally with Mayor Schmitz."

"Did he understand where it came from?" "He did."

"You are sure of this?" "Quite sure."

At the close of Ruef's statement the grand jury went into executive session. It is alleged, to prepare indictments against Schmitz, Calhoun and Ford. Most important developments are expected today.

NEW MODERN CREAMERY

Costly Equipment of Modern Type Being Installed by the Owners.

Portland will have a new sanitary creamery, one that promises to do things different from any other; one that will churn butter daily and sell it the same day that it is turned out. The establishment referred to is that of Brandes Brothers, a modern creamery at 127 First street, near Washington. Having been in the business for the past 10 years, Brandes Brothers propose to make the creamery one of the most modern. To churn butter and sell it fresh from the churn the same day is something new to the people of the northwest, said the manager this morning. He continued: "We have installed the very best and most improved type of machinery procurable among which are a 1,000-pound capacity churn, 500-gallon cream ripener, 600-gallon pasteurizer, two large sanitary refrigerators and many other modern appliances that go to make up an up-to-date creamery of the most improved kind. All butter will be wrapped in parchment paper and inclosed in airtight cartons. We will make it a point to handle only the very best of everything, and our aim will be to please with quality, service and satisfaction. This creamery will doubtless prove to be a great convenience to all, being situated right in the center of the hustling market district, as well as to those who live on the O. W. F. lines."
