KINSELLA DOES GREAT WORK ON MOUNTAIN

Judge McCredie Gets Sick of Derrick and Wins President Cal Ewing to Transfer Him at Once—Beavers Are Shut Out.

Portland	13	23	.567

Portland has one good pitcher, anyhow. His name is Kinsella. Kinsella today for the Beavers yesterday. No, he didn't win the game. One man, even a pitcher, can't do that all by himself.

Kinsella allowed the famous sluggers from far to the southward only three scattering hits. And one of those might be taken away and transferred to the error column without the scorer making any mistake. Then the big boy on the mountain fielded his position in fine shape, and binged out one of the five safe ones credited to the Portland batter.

Umpire Derrick and "Shrimp" Schimpff lost the game for the Beavers. In the fifth inning Derrick made a decision which brought a thousand fans to their feet in howling protest before the echo of his voice had died away. It let in one run. In the sixth the Shrimp, who was playing short, made two wild throws, which resulted in two tallies for the visitors.

Those were all the runs counted. Three to one was the score. Carnes, who heaved for the visitors, kept his hits scattered and prevented a single Beaver from crossing the plate.

Decision in Last Straw.
Derrick's decision was the last straw and last night Judge McCredie wired to President Cal Ewing asking the latter to give him another umpire. Before Derrick's marriage last Monday, his decisions were such that it was necessary to stretch charity to the limit to refrain from roasting him. Since then, he had been worse and worse.

The umpire's particular offense yesterday was to call Cravath safe on first in the fifth inning. The Los Angeles right fielder hit an easy grounder, which was gathered in by Carlton. Kinsella covered first, taking the throw in plenty of time, but when Cravath reached Kinsella he gave the pitcher's arm a jerk, spilling the ball on the ground. Derrick did not see it and Dillon scored on the play. Here's the official score.

BEACH TO BE FAMOUS AS AUTO RACE TRACK

This Prediction is Made by Editor Moores—Fine Roads From Tacoma to Moolips.

(Special Dispatch to The Journal.)

Tacoma, Wash., May 25.—O. M. Moores, editor of the Hoquiam Daily Washingtonian, who has been spending several days in this city, says that the work on county roads that is now being done in Chehalis and Thurston counties, will give an excellent automobile track from Puget Sound at Tacoma, to Moolips on the ocean beach at the southern limits of the Quinault Indian reservation. In addition to giving auto-enthusiasts of the Sound cities excellent opportunities to make attractive country runs, Mr. Moores declares it is the only road of its length, which he compares at 134 miles, north of San Francisco, furnishing direct connection with an ocean resort. There is already a splendid hard road for automobile travel from Tacoma to Olympia and beyond almost to the western boundary of Thurston county. Gray's harbor people, who are enthusiastic over automobile, are promoting the repairing and putting in order the road down the Chehalis river valley to those cities and across the great forest region bordering the northern shores of the harbor to the ocean. When the road is fully completed it will be less than a day's ride from Tacoma to the ocean in an auto. Mr. Moores says that the broad hard ocean beach makes an excellent track for racing, and he predicts that the beach in the vicinity of North Beach will become famous for its auto races.

Senator Pollock, a prominent autoist of the Harbor country, has offered to furnish a clubhouse site for Tacoma and Seattle autoists on a cliff overlooking the Pacific ocean.

FIFTH ANNUAL REGATTA IS BEING ROWED TODAY

Picked Crews From All of America's Largest Colleges in Competition.

(Journal Special Service.)
Philadelphia, Pa., May 25.—When the first race in the fifth annual regatta of the American Rowing association was begun this morning over the national course on the Schuylkill river a large crowd of rowing enthusiasts lined the banks and occupied every point of vantage on the cliffs and at the finish line. Every indication pointed to the contest being the most successful yet held off by the association. In the various events the picked crews of Yale, Cornell, Pennsylvania and other big colleges, together with representatives of the leading boat clubs of New York, Brooklyn, Washington, Baltimore and Philadelphia, will contest for honors. Without question the schedule contains the names of the best rowing talent in the United States. It is the first big regatta of the year, and this fact explains the large number of entries and the enthusiasm manifested. All the races are for one mile, 650 yards, straight away. Probably the most interesting is being shown in the race for junior college eights. Twelve races are on the program, and it will be late in the afternoon before the final event is decided. The 11 events are scheduled as follows:
First single scull, for the Farragut challenge cup; second single scull, first double scull, for the Schuylkill challenge cup; first four sculls (contested), for the pair-oared shell; first four-oared shell, for the Puritan challenge cup; second four-oared shell; first eight-oared shell, for the Stewar's challenge cup; second eight-oared shell, for the Puritan challenge cup; first eight-oared shell, for the New England challenge cup; interscholastic eight-oared shell, for the Franklin challenge cup; second eight sculls (cotepeped).

The consolidated team won from the first Nationals Thursday afternoon by a score of 5 to 4, in what is considered the best game played in the Bankers' league this season. The winning team played an errorless game.

FIVE UMPIRES USED IN ONE BALL GAME

An interesting game of baseball was played at Nineteenth and Belmont streets Thursday between the Hawthorne Juniors and the Crescents. The Hawthornes won the game in the twelfth inning by the score of 3 to 2. The feature of the game was the pitching of Hyde. Five umpires were used, but none gave satisfaction. The teams lined up as follows:
Hawthorne Jrs.—Crescents.

Chapin, ss. Carlyle
Berg, 1b. Keyes-McKean

FRANK WINS IN STRAIGHT FALLS

Multnomah Club Wrestler Defeats Northwest Champion in Double Quick Time.

BOUT VERY CLOSE AND EXCITING NEVERTHELESS

Decision Against Taylor Roscoe Is Met With Much Criticism—Tony Merta Beats Lou Francis in Hurricane Preliminary—Other Events.

It took just 13 minutes and 15 seconds for Edger Frank Multnomah's crack wrestler, to lower the colors of the 125-pound champion of the northwest, Frank Venables, last night. At the entertainment held in the club gymnasium Frank beat Venables in two straight falls. The first being scored after 7 minutes and 56 seconds on the mat, the second in 4:18. Though Frank clearly demonstrated his superiority over the man who won his laurels at Spokane last month, the match was by no means as one-sided as the brevity of the bouts would suggest. Both bouts were extremely exciting and to a lay observer it seemed that there were many times when the local champion was compelled to put forth his most strenuous defensive efforts to prevent both his shoulders from touching the mat at the same time.

Yenables is built more after the type of the boxer than of the wrestler. He is long and lithe, but very quick, strong and clever. Both men went into the first bout in extremely aggressive style. Now on and now the other was on top and their great work brought repeated applause from the crowded benches. There was not the slightest choice between the two men until four seconds before Frank scored his fall.

The fall itself was a peculiar one. Frank on his face, Frank turned his opponent face upward above him. Both men were interlocked back to back for a few seconds then Frank gradually slipped Venables' shoulders from his own back until they touched the mat. The second bout was fully as exciting, but Frank was never as much in danger as he was in the first. The local champion's wonderful knack of suddenly turning the tables scored him the second fall. Venables had the upper hand and apparently slipped his advantage for a moment when Frank overcrushed his shoulders to the mat and the match was won.

Taylor Roscoe, a slender infant from Seattle, figured in the other "main event" in a boxing bout with George Henry, a red-headed youth of Multnomah. Neither knew anything worth mentioning about the boxing game and neither should be allowed to perform before a paid admission audience. The boys were willing, however, and did the best they could. Honors were even at the end of the third round and Referee Ed Johnson ordered a fourth, but the boys were still even, so the crowd thought, but Johnson gave the match to Henry. Though it might be supposed that the decision would be popular, it was not, and the crowd yelled its disapproval. Following the entertainment prominent members of the club expressed their sentiments on Johnson's decision in no uncertain terms.

In addition to the inter-club events there were two boxing bouts of the exciting nature between Multnomah boys. A boxing bout between Tony Merta and Lou Francis, at 120 pounds, went to four rounds and was a hurricane affair from Frank's audience. Both men showed themselves to be very game. They fought each other to a standstill in every round and when the end came they were covered with blood. Merta was in a bad way in the second round, but his grit pulled him out and he secured the decision in the fourth, the referee stopping the fight just before time for the song. The other boxing bout was between

How I Restore Nerve Force

Every organ of your body is governed by a network of nerve wires. These nerves convey the power which runs the human machine. This power is called nerve force. Nerve force is nothing but electricity. The reason any organ becomes weak is because the nerves which control it lack electricity, or nerve force, the motive power of your body. This lack of nerve force is shown by weakness of any kind, whether in the stomach, liver, kidneys, heart or other organs.

Electro-Vigor is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It gives back to the nerves and organs the power they have lost, which is their life.

Electro-Vigor is not an electric belt. It is a dry cell battery, and makes its own power. It is
