

Squad of Mounted Police on the Way to Inspection.

of the cohorts of Imperia Caesar in the heyday of ancient Rome covered themselves with more glory or attracted greater attention than Portland's 125 peace guardians at the semi-annual inspection yesterday. It is safe to assume that no other municipality of like size can boast of a finer ody of peace guardians than the Rose City. The 125 bluecoats in whose hands rests the protecting power of the lives and property of Portland's citizens in their march to and from the armory yesterday proved a revelation to the taxpayers whose impression of the police department is gained from the individual patrolmen whom they occasion-ally meet or the adverse comments of those who run afoul of the law.

It was the plan of Chief Gritzmacher to hire a band of eight pieces and parade through the principal streets of the retail section of the city so all might have an opportunity of seeing Portland's finest, but the powers that

be willed otherwise.

The annual police parades in all of the large cities of the Union are stellar events, and although this city is regarded as having entirely inadequate po-lice protection, yet the chief felt that not even New York has better appear-

MAYOR LANE SPEAKS FINAL WORD TO PEOPLE

Two Years' Service to Prevent Municipal Graft and Corruption Has Given Him Many Enemies-Interests Once Ready to Take Him Up, but Fight Him Now.

this time a candidate before you for re- declin honored me two years ago, I deem it not improper to make a brief state-

ment of some matters which I hope will be of value to you.

In what I say I shall state plainly the motives by which alone I have been governed in my administration of your affairs, and make clear and beyond all affairs, and make clear and beyond all question what you may confidently rely upon from me in the event that you decide to again entrust me with them. By way of parenthesis, I will say that I believe that a deep obligation rests upon you to exercise great care in the selection of those whom you place in positions of trust over you and that no consideration, other than the proper administration and conservation of the rights of the people as a whole should govern in such selection.

To the People of Portland—Being at As a candidate at the last election I the use of your property. Insidious is time a candidate before you for redeclined to allow myself to be hampered with any pledges or promises to the ability and talent which smell out any interests which were inimical to and hunt down the rights which belong yours, and the only promise which I to you. Heavy is the pressure and al-did make was the one which I made most irresistible the force which bears to you, that I would at no time depart from that rule, nor have I done so. At this time having again declined to allow myself to be bound or hampered, in any manner which would operate to restrict my usefulness to you, or my respect for myself in the event that I was elected to office, and having been accepted as a candidate upon that platform, I am before you asking for your indorsement on the broad ground that absolute and unswerving devotion to the people's interests as a whole, regardless of the claims of any and all others, is the

plain duty which every public servant owes to you and is the only platform

LOT of people condemn the Edison Phonograph without hearing it. They think they know what a Phonograph is. They may, but they do not know what the Edison Phonograph is, because if they had heard it they would long to possess one.

Ideas based upon crude and imperfect talking machines must not be applied to the Edison. The Edison Phonograph is the one that was invented by Thomas Alva Edison, and is made in the great laboratory at Orange, where Mr. Edison does his daily work. If there were anything he could do to make the Edison Phonograph better, he would do it. The fact that he is willing to let it go out with his name upon it is proof that he considers it good. If it is good enough for Mr. Edison, it ought to be good enough for you.

Why don't you hear it—there's a dealer in this town—before you make up your mind?

National Phonograph Company 75 Lakenide Ave., Orange, N. J.

Dealers with established stores wanted to sell Edison Phonographs in every town not covered.
