

SOLDIERS WILL HONOR NATION'S DEAD HEROES

Third Regiment and Battery Hold Memorial Services at Taylor Street Church—Many Other Exercises Throughout City—G. A. R. Veterans Visit Schools Wednesday.

Annual memorial church services of the Third Regiment and Battery O. N. G. will be held at the Taylor Street church this afternoon at 3 o'clock. The following program has been arranged: Organ, "Andante" (Silva); Invocation, (Standing); responsive reading; hymn, "America"; prayer (Standing) Chaplain Henry A. Borden, G. A. R.; selection by choir, anthem with solo by Miss Inez Cumming, "Oh, When the Hours of Life Are Past" (Wellings); address, J. P. Kavanaugh; hymn, "Nearer, My God to Thee"; address, "Our Memorial" Chaplain William S. Gilbert, Third Infantry; contra alto solo, "And God Shall Wipe Away All Tears" (Sullivan); Miss Evelyn Hurley; taps by choir, audience standing; postlude, "First Movement of Fourth Sonata" (Gullman). Professor W. H. Boyer, choir director; Margaret Lambersen, organist.

HALF BROTHER OF LEW WALLACE IS NO LONGER COUNTY CHARGE

James Barton Ward, half-brother of General Lew Wallace and brother of Julia Ward Howe, who was sent to the county poor farm last Tuesday, remained a charge upon the county but a short time. He has left the poor farm and is now holding a position in the office of a physician named Simpson. Ward is employed as secretary and office attendant of Dr. Simpson.

WIDOW SENTENCED TO LIFE BEHIND BARS

Eastman, Ga., May 25.—Mrs. Sallie Feeney, a widow charged with the murder of W. P. Hargill, was found guilty today, the jury making a plea for mercy. The jury returned the verdict after an all-night deliberation. Her punishment will be life imprisonment. The defense, it is reported, will appeal the case. Hargill was shot to death by Mrs. Feeney in her home several months ago. She declared that she killed him in self-defense after he had made improper proposals to her.

COMBINED TO SECURE LARGE TRACTS OF COAL

Fake Entrymen and Women Conveyed the Lands to Corporation as Soon as They Had Secured Patents—Criminal Action Prevented.

(Heart News by Leased Wire.)
Denver, Colo., May 25.—Charged with concocting a scheme to defraud the government out of 9,000 acres of coal lands, worth over \$1,000,000, located in Routt county, Colorado, near the little town of Lay, the Wisconsin Coal Mining company, originally incorporated as the Wisconsin Fuel and Mining company, its officers, agents and a score of prominent Milwaukee people are made defendants in an equity suit filed in the federal court today for the recovery of the land, which, it is alleged, they secured through fake entries. The fake entries and women conveyed the lands to the corporation as soon as it was organized and they had secured patents from the government.

Branded as a Deserter.
From the London Evening Standard.
An army pension has just been granted to J. Tomlin of Nottingham, who is now 81, and his medals, granted for Sevastopol, have been replaced. It seems that he was invalidated home from the Crimea and granted a month's furlough. While enjoying his rest he was stricken with typhoid fever, but, being unable to read or write, did not acquaint the officers of his regiment with his misfortune or ask a friend to do so. The consequence was that when his furlough expired he was posted as a deserter, and while on his way to rejoin was arrested.

National Democratic Chairman Taggart is said to be feeling the pulse of prominent Democrats to discover whether he will stand any chance of reelection. Though he enjoys the confidence and friendship of many of the party leaders in the west and south, Mr. Taggart is not in the favor of William J. Bryan, nor the eastern Democratic leaders, and consequently there is believed to be very little possibility of his being again chosen to head the national committee.

ONLY CLOUD IS THAT PICKERS MAY BE SHY

Indian Contingent Has Not Shown Up Yet—Late Season Matures All Sections Together—One Hundred Crates Marked Season's Opening.

(Special Dispatch to The Journal.)
Hood River, Or., May 25.—What is considered by growers as practically the opening of the strawberry season here took place yesterday when 100 crates of berries were shipped out. From this on it is expected that berry shipments will increase very rapidly. A six weeks' season is looked for this year, with extremely high prices. Both the Fruit-growers' union and the Davidson Fruit company are in receipt of many more orders for berries than they can supply, and with a most profitable season assured the only thing that is now worrying the grower is the fact that pickers are scarce. The late season will bring some sections closer together that have heretofore followed each other, in ripening and create a greater demand for help. The usual quota of Indians has not put in its appearance yet, and growers are making efforts to communicate with them and hurry them here sooner than it was expected they would be needed.

White Salmon and Mosier are also short of pickers. While the latter will not market so many berries as usual this year, there is a shortage of help. More berries will be shipped from Mosier than in any previous year and word received from there is to the effect that 1,500 pickers and packers can be used.

Carrying Out Death Sentences.
From the London Daily Chronicle.
A correspondent is desirous of knowing which is the most common form employed in the carrying out of the death sentence. The probability is that most people, if asked, would at once say the gallows; yet this is far from being the case.
The favorite mode appears to be the guillotine, which is employed publicly in France, Belgium, Denmark, Hanover and two cantons of Switzerland; and privately in Bavaria, Saxony and also in two cantons of Switzerland.
The cherry gallows comes next in the running and is favored publicly in Austria, Portugal and Russia; and privately in Great Britain and the United States of America.
Death by the sword obtains in 15 cantons in Switzerland, in China and Russia publicly; and in Prussia privately. Ecuador, Oldenburg and Russia have adopted the musket, all publicly; while in China they have strangulation by the cord, and in Brunswick death by the ax, and by the electric chair in New York.
