Hull Bits Bandit With Book. At this juncture, Hull, whom the highwayman undoubtedly thought had been mortally wounded, stealthily made his way to the side of the coach, ing a large rock, he waited until the robber came to the door and then hurled the stone with great force. The rock struck the crock on the side of the head and felled him to the floor of the coach.

Angered and stunned by the blow, the highwayman turned, his revolver on Nevius and fired two shots. The bullets struck the unfortunate man in the back, ranging upward and coming out on the other side. Nevius pitched headlong from the car, and the crook then turned his attention to Hull. shooting twice at the motorman, one of the bullets shattering the bones of his right hand, the highwayman jumped to the ground and ran down the railway The fact that a freight train tracks. few minutes later leads the police to believe that the murderer may have made his escape that way.

Body Placed on Car. A man and his wife living near scene of the holdup, attracted by the shooting, rushed to Hull's assistance and aided him in lifting the body of the dead conductor to the car. Although suffering intense pain and almost insensible, Hull ran the car at full speed toward the city, and at East Twentyeighth street and Sandy Road met an outbound car in charge of his brother, J. E. Hull, and Conductor Klinger. The outbound car coupled on to the

The police were notified and in short time a score of policemen were on the scene. Officers were stationed on every road in the vicinity and telegrams were immediately sent to the peace officers of neighboring towns.

Manager Fuller has offered a ward of \$1,000 for the arrest and conviction of the murderer and this sum may be increased by the posting of ad ditional rewards by the city and state. Nevius, the murdered man, was unnarried and resided at 1 East Thirtieth street. # SAYS ROOSEVELT IS CAUSE OF WILD MARKET AUDIENCE GIVES

Enthusiastic Political Gathering Last Night at Hunter's Hall, Sunnyside.

An enthusiastic audience gathered at Hunter's hall, East Thirty-fourth and Yamhill streets, Sunnyside, last night to listen to Mayor Lane, Judge Pipes and other speakers. Between 300 and 400 were present. Short talks were also made by Robert Andrews, Democratic candidate for auditor, and A. A. Kadderly, candidate for councilman in the eighth ward.

"When my friend Mr. Devlin gets busy, something usually happens," said Mr. Andrews. "I learned this evening that my name on the official ballot has been placed fourth in the list of candidates for councilman at large, despite the fact that my name is first in alphabetical order. I suppose this is a mark of cordiality felt toward me by the auditor. At the top of the list printed, 'vote for three'-you can readily see what will become of me in

much an arrangement." Judge Pipes asked his auditors if hey wished to be ruled by machine polities and if they desired their property sold to corporations; he told them that they were called upon to approve or disapprove of the mayor's action in veto-ing the franchises that have come up within the last two years. "Politicians of both parties are fighting Harry Lane,

can you not see the significance?" When the mayor was introduced by Chairman Dr. J. C. Moore, who is a brother of Chief Justice Moore of the state supreme court, the hall was filled with applause from every section of its crowded space. Dr. Moore said in introducing the mayor that every physi-cian in the city was working for the mayor, because he had been tried and found not wanting—the test by which all physicians are judged by their brothpractitioners. Dr. Moore said although he was a Republican, his Republicanism cozed at every pore when Dr. Lane was running for office.

"Mr. Devlin has promised that he will advise his council judicially on all franchises and important measures," said Mayor Lane. "It is to be hoped that for the benefit of the people he will advise them better in the future than he has during the last eight or ten yearsJ'

The mayor was applauded frequently throughout the evening. He told how the vacation of nine city blocks worth from \$10,000 to \$15,000 depended on the result of this election. He also told how he had been hindered in his work by the auditor and the council.
