Committee Plans to Erect a Huge Electric "Welcome" Sign at Union Depot.

In arranging for the great Rose Car-nival the press and publicity committee is preparing to publish a handsome envelope-size card on which will be printed information in regard to the flesta and the meeting of the Oregon Development league. The card will be mbellished with rose-buds and leaves. It is desired that all business houses in the city and every one else send out these cards to their correspondents. The cards will soon be ready for distribution and those who desire to aid in the publicity work are requested to send their names at once to room \$20 Swetland building, announcing at the same time the number of cards they will be able to use.

We, together with Foster & Kleiser, will arrange for the hanging of the sign with-

I believe that the publicity commit-tee should take this matter up, and should order the sign, as the expense connected with the operation of the sign is nominal and the value received by the people of Portland from adver-tising will certainly more than repay the outlay. I earnestly hope that this proposition will be taken up and that we will be able to install the sign, as above described, at as early a date as
