

MACHINES WILL SUPPLANT MEN

Western Union Officials Plan Use of Barclays in Event of a Strike.

HAVE FAITH IN NEW AUTOMATIC OPERATOR

Telegraphers' Places Will Be Filled With Invention of Vice-President of Company If Agreement Is Not Reached.

(Publishers' Press by Special Leased Wire.) New York, June 1.—Strike clouds which have been hovering over the offices of the Western Union Telegraph company for some weeks seem to have been almost dissipated tonight, and the surprising independence and indifference of the Western Union officials to the strike talk could be traced largely to the new machine for the transmission and receiving of messages which is rapidly being installed by the Western Union.

While the machine is not absolutely new and has been used experimentally for some time, it is said that its real value has not been made apparent until the present crisis.

Machine to Supplant Operators.
The machine, which is known as the Barclay, named after John C. Barclay, vice-president of the Western Union, and its inventor and former owner, obviates the necessity of trained operators, any person capable of operating any ordinary typewriter being qualified to use the machine, which, it is claimed, has greater accuracy and speed than can be possibly attained by the most skilled operator.

Business Expenses.
Mr. Barclay, who sold his patent to the Western Union, claims that the use of the machine will result in a 58 per cent reduction of operating expenses, while the efficiency of the service is increased 80 per cent. The saving in expense comes from the fact that girls, paid from \$6 to \$8 per week, can do the work of operators who average \$50 a week. The process is simple to look at. A message is typed off on what looks like an ordinary typewriter. Through this machine runs a tape and on this the letters of the Morse alphabet are impressed in dots and dashes. The tape is then run through an electrical machine by which these dots and dashes are transmitted to the receiving end of the line directly on a typewriter.

It is claimed that with 30 machines already installed in the New York office one seventh of the company's business is now conducted by the machines.

An order for 500 more "Barclays" has been placed, to be installed in offices over the entire system.

CONSPIRACY CASE UP TO DEFENSE

Kester - Kettenschalk Counsel Will Call Their First Witness Monday.

(Special Dispatch to The Journal.) Moscow, Idaho, June 1.—The government closed its case against Kettenschalk, Kester and Dwyer in the federal court this afternoon. The last witness was S. A. Tannahl, counsel for the defendants, who was called to prove that defendant Kettenschalk and Kester were officers of the Lewiston National bank and Robert the bookkeeper. The court had called attention to the fact that nothing had been placed in evidence to show that the defendants were connected with the bank.

Tannahl endeavored to say he knew of the relationship of defendants to the bank, but he believed one was president and the other cashier. Associate Counsel Moore said the case must be a weak one, since the government would resort to the unusual method of introducing defendant's counsel to help bolster up the government's evidence.

The defense will begin the presentation of evidence Monday morning, and has asked that Mary J. Harris, who testified for the government, be present then. An effort will be made to impeach certain parts of her testimony.

Several witnesses were introduced this forenoon for the purpose of proving conspiracy. Their testimony apparently failed to connect Kettenschalk and Kester with the purported crime, through it did implicate Dwyer.

Frank Morrison of Clarkston, Washington, testified that Dwyer had approached him in 1903 with a proposition to go into partnership. He said he had an arrangement with Kester to acquire timber and one fourth of all that was acquired would be his share. He declined the proposition.

BARON KUROKI SEES YELLOW MELODRAMA

(Publishers' Press by Special Leased Wire.) Chicago, June 1.—General Baron Kuroki, after a day's outing at Lake Geneva, returned to the city and tonight attended a theatre, where a distinctive type of American western melodrama is being presented with the usual accompaniment of plains, battles and make-believe bloodshed. Sunday night the Japanese ambassador's counsel will start for Seattle, whence they will sail for Yokohama.

FUNERAL OF VICTIM OF STAGE RUNAWAY

(Special Dispatch to The Journal.) Klamath Falls, Or., June 1.—Those injured in the disastrous runaway of the stage Wednesday, are getting along nicely and their injuries have proved less serious than at first thought. The funeral of the driver, George Galbreath, who was fatally injured, was held at Fox Valley yesterday. No one can tell the cause of the runaway. It was the worst accident that ever occurred on a Klamath stage.

North Branch Falls Past Irrigation.
(Special Dispatch to The Journal.) Irigoin, Or., June 1.—By Monday noon, June 3, the trunk on the North bank railway will be laid to a point opposite Irigoin, and on the evening of that day, if all goes well, the track laying outfit will be west of Coolidge.

TRACTION COMPANY WILL PUSH WORK AT NIGHT

Scene of Night Work Along Front Street, Where Rails Are Being Laid by the United Railways.
Work all night for three nights is part of the plan of the United Railways for the construction of their Front street road in order not to interfere with the Front street merchants on busy days. The four blocks from Morrison to Oak streets, the heart of the wholesale district, was left for the last and the line was first completed from Oak street to the terminal yards and from Morrison to Caruthers street before work in the congested district was begun.

Friday is always the busiest day for Front street merchants. Accordingly work was not begun on the four blocks until Friday night. Then a force of 80 men and 11 teams was put to work and kept busy all night. They rested until yesterday afternoon, when they began again and worked all night last night. They are working today and will work all night tonight. By rushing the work through in this way the officials of the company expect to have the track laid and the street in condition so that pavers can begin relaying the pavement by tomorrow morning. The cement will have time to harden so the street can be used again by next Friday, when the next busy day comes.

This plan of doing the work was agreed upon after a consultation with the commission men and wholesalers on Front street, who said they preferred to have the four blocks done at once.

MONSTER PARADE OF LOCAL SCHOOL CHILDREN

Five Cup Prizes for Schools Making the Best General Appearance in Line.

Charles McDonnell, P. W. Custer and Professor Robert Krohn, who have arranged the details for the Thursday or "School Children Parade." Arrangements for the monster competitive parade on Friday have not been entirely completed.

The children's parade will be contemporaneous with the exhibit of the Rose society at the Forestry building, on Thursday, June 20, and will move at 2:30 p. m. from the corner of Park and Jefferson streets.

Five cup prizes will be awarded to the schools making the best general appearance. Three bands will be assigned at proper intervals in the long column. The judges will be General Owen Summers, Colonel C. U. Gantenbein, Colonel James Jackson, Colonel R. C. Gubits and Colonel George T. Willett. They will inspect the parade at various vantage points and the reviewing stand.

Squad of mounted police, Grand Marshal H. C. Campbell and staff. Officers and members of Rose society in carriages. Directors of school board in carriages.

Marching brigade of 25 companies of school children, representing 25 schools; maximum to any company, 100. Minimum 25.

Professor Robert Krohn, commanding and directing school brigade and drill squads.

Squad of 50 children in garland drill. Squad of 50 children in wreath drill. Alternating 5-minute exercises.

Rear guard platoon of police. Line of march—North on Park to Sixth to Pine, east on Pine to Fourth, south on Fourth to the reviewing stand on Salmon facing Fourth. Continue south on Fourth to Madison, east on Madison to Third and disperse.

SCANDINAVIANS HAVE NOT FORGOTTEN SLURS OF LONG AGO

Circulars signed by a committee of Scandinavians are being scattered about the city reminding the voters of the fact that 15 years ago Dr. L. M. Davis, candidate for councilman at large, delivered a few remarks in the city council, of which he was then a member, to the effect that it would not be advisable to let the street cleaning to contractors who would hire "niggers, Chinamen, Scandinavians and such riff-raff" to work on the streets.

The Scandinavians of Portland have not become reconciled, although Dr. Davis has expressed his sorrow at his ignorance, and Miss Edith Brown, the resolution adopted at a meeting protesting against the inexcusable conduct of the councilman.

Mr. Kelly is a Catholic and Miss Brown a Christian Scientist. After a hurried compromise it was agreed that Rev. F. F. Coyle, pastor of the Central Presbyterian church, tie the knot. The match was bitterly opposed by Miss Brown's parents.

BAN IS PLACED ON UNION MADE BEER
(Hearst News by Longest Leased Wire.) Washington, June 1.—The Brewery Workmen of America, having failed to carry out the orders of the Minneapolis convention, were expelled today by formal order of the American Federation of Labor from association with the organization.

The convention's mandate was that the brewery workmen should not admit to membership men from other branches of the industry such as firemen, engineers and teamsters.

The action of the convention has been ignored by the workmen and therefore President Gompers today revoked the charter of the United Brewery Workmen of America.

Beer manufactured by the expelled organization will hereafter be considered a non-union product.

CONGRESSMEN IN A POWERFUL DROUNKEN REVEL STRANGE FORCE

Rev. W. P. F. Ferguson Makes Sensational Charge Against Politicians.

MRS. ROOSEVELT WAS GROSSLY MISTREATED

President's Wife Allowed to Ride Down Streets of Panama Bowing to Bad Women Whom She Thought Were Respectable.

(Hearst News by Longest Leased Wire.) New York, June 1.—Rev. W. P. F. Ferguson, editor of the Defender, says some pretty severe things about the congressional party which visited the isthmus of Panama recently. He says: "Speaking of the visits of congressmen, I may properly mention a few incidents that show the moral influence of such visits. I was in Colon when the steamer Panama arrived there in the early part of last month with a big party of congressmen. The greater part of the company appeared to be self-respecting gentlemen of whom any American citizen might properly be proud. There was, however, a minority contingent of a very different sort. These fellows rushed from the steamer, where, according to report, they had by no means been deprived of liquid refreshments, straight to the nearest bar. I found seven within ten minutes after the ship had arrived. They had doled out against the bar of the Universal, on Fifth street.

"Some of this same party of congressmen gave an exhibition of Anglo-Saxon civilization in this city by rough-housing one American disorderly house and drinking \$30 worth of champagne in another.

Elects From Giamili.
"Another congressman became so disgracefully intoxicated at the Tivoli while the party was here that he was ejected from that resplendent government ginmill and was forced to spend the night elsewhere. All whom I had referred to—and the matter was common talk for a week—considered the courage of the hotel management the only remarkable feature of the case. The matter was patched up the next morning."

In speaking of Panama he says: "One of the reasons why Panama gives at first the better impression than Colon is the fact that now the most of the vicious resorts have been forced to seek the seclusion of the side streets. This was not the case formerly. The center avenue, the leading street of the city, formerly was thronged with the most infamous houses. Mrs. Theodore Roosevelt, when she visited this city with her husband last November, rode down Central avenue, bowing right and left to the many women Americans, whom she doubtless supposed to be ladies of the city and wives of American gentlemen, but who were in point of fact one of the most remarkable aggregations of bad women ever assembled. The sight seemed to shock the powers that be, and an ordinance was passed by the Panama government of the city locating all dens of vice on side streets."

Children's Fete for Advancement
Institute Club of People's Institute Has Planned Wonderful Event For Worthy Cause.

The Institute club of the People's Institute is arranging for a wonderful children's fete, which will interest everybody in Portland, either as a participant or spectator. The funds derived from the fete will go to the various departments of the Institute, such as manual training, kindergarten, sewing and cooking classes, gymnasium and athletic work, and also to the children's playgrounds of the Institute club.

In Multnomah club grounds will be given Jessie L. Gaylor's Mother Goose opera for children, "Jack's Birthday, and Jack Bull," one of the most beautiful of entertainments.

Mrs. Gaylor's music is well-known to music lovers in Portland, while the rare things she has written for children have shown her to be most peculiarly adapted to it out a beautiful, consistent work such as children's operas should be. "The House that Jack Built" is as clever as it is beautiful, brimming over with fun and jollity. For the adults in the leading roles, Mrs. Gaylor has written some exquisite lyrics, and several bright "topical songs," and the music generally is of a very high order.

While written for the regular theatre stage, its scenes and setting are distinctly pastoral, and it is to have its first out-of-doors presentation in Portland. The temporary "stage" will be a bower of green and roses, with the historic "house" well in the foreground. From behind bushes and trees and rocks will come the fairy folk in flower garb, and Mother Goose will give them all a party because it is "Jack's Birthday, and Jack Bull," by Roy Blue and Jack and Jill will be there, as well as every other child of Mother Goose.

Mrs. A. E. Rooker, chairman of the children's department, and Mrs. Warren E. Thomas, chairman of the children's entertainment committee, will be in charge, with a large working committee under them.

Miss Margaret Martin of Chicago will have charge of the rehearsals and staging. Miss Martin has been identified with the opera from its first production, and her work is well known in the east, and also in southern California, where she has been engaged in presenting both Mrs. Gaylor's operas, "The Toy Shop" and "The House that Jack Built" during the last two seasons.

The grounds are to be donated by the Multnomah Amateur Athletic club.

GOVERNMENT TO CALL IN LARGE DEPOSITS

(Hearst News by Longest Leased Wire.) Washington, June 1.—It is reported at the treasury department this afternoon that the secretary of the treasury will recall at an early day \$40,000,000 or \$50,000,000 which were placed in national depositories with the understanding that the deposits were only temporary.

It is admitted among those who discuss this proposition that while the action will not affect the market, it may have the effect of raising interest rates for speculation. Officials who talk on the statement in the absence of Mr. Cor-

teleyou, say that the object of the proposed withdrawal is with a view to meet any stringency this fall.

SUMMER CONCERTS AT PORTLAND RESUMED

The Portland hotel orchestra commenced its outdoor concerts last evening, Herr Waldemar Lind, conducting. The music was of a high order and greatly appreciated by the guests as well as the crowd that gathered on the sidewalk in front of the hotel. The concerts mark the opening of the summer season and will continue to well toward next fall.

Professor F. T. McIntyre, a well-to-do scientist of this city, has created sensation in the hypnotic world through delving down in the realms of nature's mysteries he has discovered a delicate but powerful system that seems destined to revolutionize the theories of the most noted authorities on Mind Force. Some people look upon him as a man possessing a strange power, for he has told them how to influence people far and near and to heal themselves and others of their ills as if by magic. He tells them how to project their thoughts, develop a powerful mentality and build up the mechanism of the body and brain. Doctors and magnetists who have tested the workings of his new discovery admit that it surpasses anything in the history of psychic power.

In explaining the method Professor McIntyre says: "I am convinced that everybody can accomplish the things I have done if they understand the system. It would be the same for every man, woman and child in this country. I have sent free illustrated pamphlets to people in many parts of the world, which explain many of the things I have discovered, and I find they can do the same wonderful things I have done, and have every one try the wonders of this new discovery. The letters received from persons who tried it are the same. Many are loud in their exclamations of surprise and wonder. I have sent these special power pamphlets to you, and receive many fine presents and enjoy working for the uplifting of mankind and the betterment of the world. I will send a copy of my free book to every person who writes me without any charge whatever."

Professor McIntyre has a basketful of letters, from people in many parts of the world. They are all praising him. Mr. James Kubal, a prominent business man of Chicago, writes the following:

"I never dreamed such things possible. If I had only known this sooner. This system has made a different man of me. I am all that I want to be and make more money through the use of this system than I can in my business. It has brought back my sight. I can see without glasses, and work without them, too. It has overcome my backwardness and I can now handle my customers in fine shape. I did not know it was so simple and so easy. I think your system wonderful."

Mr. Eugene Devenson, Baton Rouge, La., writes: "Having tried your system I unhesitatingly pronounce it to be and to do all you claim for it."

Rev. E. G. King, pastor Christian church for children, Lake, Cal., writes: "I cannot recommend your system too highly, and I am willing to answer any inquiries in regard to it."

Dr. H. L. Lounsbury, Wheatly, Ontario, Canada, writes: "I have thoroughly investigated the methods and inventions of Professor McIntyre, and can say that his system is scientific and surpasses anything in the line of therapeutics that has come to my notice."

Fred S. Brett, Apartado 285, Guadalupe, Mexico, writes: "I have done wonderful things in influencing people with this system. Have had over 50 persons under my control, and compelled them to do anything I wished. I advise everybody to try it. This system is truly marvelous."

This free book is full of startling explanations and pictures, showing that any one can master, in a short time, the power to control and away the minds of others. It describes the strange phenomena of Paralysis, Hysteria, Stigmata, Mystic Healing, Psycho and Suggestive Therapeutics, Personal Magnetism and a combined, simple system of reading the characters of others, though thousands of miles away. It gives you the key to the development of the inner or dormant forces of concentration, force of character, will power, memory, determination, ambition, enthusiasm, inspiration, continuity of thought and the ability to throw off the evil effects of disease and dependency.

It is, indeed, one of the most amazing, interesting books of the age, brimming with interest from cover to cover, and all who receive free copies of it can be thankful. It points out the way to financial and social success; it reveals astonishing facts that have been overlooked by the public for many years.

If you wish a free copy of this wonderful book write a postal or letter to Professor F. T. McIntyre, Dept. 1640, No. 128 West Thirty-fourth street, New York, N. Y.

If no one will be disappointed. It is sent by mail, postage paid, absolutely free.
