

Another Carload Anti-Trust MACHINES

\$60 MACHINES FOR \$25
PAY 50 CENTS A WEEK

Still One More Chance

On Wednesday of last week we unloaded another carload of the great Anti-Trust Sewing Machines—by actual count 215 machines. These we shall be able to close out on the same easy terms heretofore prevailing.

\$1 DOWN, 50c PER WEEK

This may be the last opportunity to secure this great machine on these easy terms, and we shall surely close them all out during the month of June.

GET YOUR MACHINE NOW

It is guaranteed for ten years and is of the same high grade quality of the machines sold by us during the past year. There are \$15.00 and \$20.00 machines on the market, but none are of the quality of the Anti-Trust Machine.

This machine forms the double lock stitch, making a stitch which appears the same on both sides of the goods. All of the automatic parts are simple in construction and lasting. This machine has proven itself to be superior to high price machines. It is simple to operate and has every modern improvement which is essential to the producing of the very best work. It has an automatic lift drophead stand, operated by mechanism of extreme simplicity. When table leaf is swung over for sewing, the head of the machine is automatically lifted to place and locked firmly. The design of the wood-work is new, artistic and well executed.

THE HEAD is unusually handsome, being finished in three coats of black Japan and elaborately decorated.

ALL THE WORKING PARTS are made of the best tool-hardened polished steel.

THE BED-PLATE is entirely without obstruction, setting into a recess in the machine table, thus bringing the surfaces flush with each other.

THE ARM is of the largest size, is strong and perfectly proportioned, the clear space underneath being 5½x8½ inches.

THE NEEDLE is straight, short and strong. It is held in place by a patented needle-clamp.

THE NEEDLE-BAR is round and accurately finished. The round form insures uniform wear at all points.

THE TAKE-UP is positively automatic and will control any kind or size of thread.

THE STITCH-REGULATOR controls the length of stitches and is operated by thumb-screw. One can produce easily from 6 to 32 stitches to the inch.

THE AUTOMATIC BOBBIN-WINDER will wind as accurately as a spool of thread is wound.

THE TENSION is of the latest improved disk type, is very simple and has a wide range of adjustment.

THE FEED is double and extends on both sides of the needle.

THE SHUTTLE is positively self-threading and is of large size.

Napoleon Wooden Bed Special

For the month of June we shall advertise weekly "Accommodation Sales," embracing specimens taken from our high-class stock, to which we hope to attract the general buyer's attention—customers who seldom or never darken our doors. We want all the people of Portland to know of the quality of the stock carried by Gevurtz & Sons, and we want them to know of the really great values we offer as compared to other furniture houses. We want you to know that "If it's furniture you want, Gevurtz sells it for less." You may easily prove that our reputation for low selling is well earned by inspecting our mammoth stock, every piece of which is marked with the price in plain figures. We always invite comparison. These are called "Accommodation Sales" on account of the easy, accommodating terms. During these sales the persons of very moderate incomes may furnish their homes with high-grade furniture pieces, so modest will be the weekly or monthly payment required.

The first on the list will be these handsome Napoleon or Empire Beds, in flaky quarter-sawn golden oak, birdseye maple or mahogany. The illustration shows the shape of these beautiful beds. Wooden beds are more popular than ever this year—keeping pace with brass beds in the race for public favor. The regular price of these beautiful beds is \$40.00, but our special price for this week will be only **\$27.50**

Three Days' Wicker Rocker Sale

Terms \$1.00 Down, 50c a Week

Here is an exceptional sale of Wicker Rockers, all owing to a fine lot of these rockers our eastern buyer was able to pick up. We give our customers the advantage of the saving we made, as we know they will prove to be a good advertisement for our house.

There are some extraordinary values in this lot of fifty. Take for example the rocker shown in the cut. This rocker is worth \$11.00, and is sold for that figure by any other furniture house in Portland, but owing to the great reduction in the cost to us we are able to offer it for only **\$5.00**

Monday, Tuesday and Wednesday

An \$11.00 Wicker Rocker \$5.00
Just Like the Cut for . . . **\$5.00**

There are other values—\$7.50, \$8.00, \$9.00, etc.—all likewise marked for \$5.00, for we

DRAINAGE MAY BE SEPARATE

Government Considering a Scheme for Division of the Reclamation Service.

IRRIGATION WILL BE IN CLASS BY ITSELF

Swamps and Arid Lands Require Different Treatment and Federal Experts in Each Line Will Have Own Department.

(Washington Bureau of The Journal.)
Washington, June 3.—Hundreds of thousands of acres of arid lands will be watered this summer by the government ditches. Even more extensively than was expected some time ago, when the progress of the reclamation service was reviewed, the reclaimed areas are to be cropped during the summer, as shown by the following list of projects on which the areas to be reclaimed will be partially available this year: Projects named the Williston, North Dakota, water to be turned on part of the lands July 5; Huntley, Montana, June 26; Minidoka, Idaho; Hondo, New Mexico; Carlsbad, New Mexico; North Platte, Wyoming; Nebraska; Garden City, Nebraska; Belle Fourche, South Dakota; Klamath, Oregon-California; Sunnyside, Washington; Leesburg diversion, part of the Rio Grande, New Mexico, project.
On some of these projects water will be used on lands under ditches which were bought by the government from private persons to be added to the government area, but in some the reclaimed area this year will be lands never before irrigated.
Every acre turned over to water users this year will bring back into the national irrigation fund from \$1.50 to \$6, or for each 100,000 acres from \$150,000 to \$600,000—enough to con-

struct a complete plant for the reclamation of another good-sized tract of useless land.
Discussion has arisen over the wisdom of assigning to the present reclamation service the task of draining the 60,000,000 acres of swamp lands proposed in the bill to come before the congress at the next session. It is claimed that by the time the drainage projects will be under way the irrigation reclamation bureau will have in its possession data invaluable for use in connection with the drainage work, and also that the reclamation of the arid lands will have progressed far enough to enable the bureau to take hold of the drainage projects without material interference with present enterprises or hampering the new work.
Others contend that a new bureau should be created, and that drainage is so radically different from irrigation that the two have no logical connection, that all data in the hands of the irrigation bureau could be transferred without difficulty.
It seems to be the general expectation that the drainage enterprises will go through, although members of congress in states interested will find that they need to exercise vigilance lest opponents succeed in defeating the bill.

WASHINGTON CUTS PRISON STRIPES OUT

Seattle, Wash., June 3.—Prison stripes will no longer be conspicuous at the state penitentiary, according to statements given out by members of the board of control in this city. Under the new rules prisoners will be graded according to their records and sentences. Each particular class will be given a different uniform, which will be of material easily identified as prison attire, but stripes will be abolished.
This Year's Ideal Vacation Trip.
Pennsylvania Lines excursion (tickets to Jamestown Exposition (Norfolk) sold daily during summer via New York and steamer down the Atlantic; via Philadelphia and "Cape Charles Route," including steamer trip across Chesapeake Bay via Old Point Comfort (Fortress Monroe); via Baltimore and Washington. Steamer from Baltimore down the Potomac River and Chesapeake Bay; rail through Richmond, or steamer down Chesapeake Bay from Washington; also via Columbus, Cincinnati or Louisville. Privilege of going one route and returning another, with stop-overs for side trips to Atlantic City and seashore resorts and to resorts in New England. For details write F. N. Kollock, District Agent, 218 Stark street, Portland, Or.

TAFT TO FIGHT FORAKER TO END

Ohio Battle Begins in Earnest and Will Be to Finish Between Enemies.

ROOSEVELT CUTS OFF FEDERAL PATRONAGE

Fire Alarm Senator Will Be Unable to Name Appointees in His State and Nick Longworth Will Settle All Questions.

Washington, June 3.—No secret is made here of the juncture of issues between the president and Secretary of War Taft in striving to obtain control of the Republican convention for the latter's presidential candidacy. A day or two ago President Roosevelt, Secretary Taft and Representative Longworth, Mr. Roosevelt's son-in-law, who lives in Cincinnati, Ohio, conferred at the White House, and thereafter announcement was made that seven postmasters were appointed in Ohio, and that Senators Foraker and Dick were not consulted, and would not be consulted in the future in any matter involving Ohio patronage.
This means that the administration has struck the final blow at the Foraker-Dick forces, for they will not hereafter be able to get a place at the "pic counter," as federal patronage is called. It is given out today that no senator who does not follow the behests of the president will have anything to do with the distribution of offices.
After this conference the news was given out with authority that Secretary Taft has refused finally and irrevocably to permit his indorsement in Ohio for the presidency to go in common with an indorsement of Senator Foraker for reelection. It is to be a fight to the death.
Senator Foraker's vote against the

rate regulation bill when it went to final passage, and only he and Senators Morgan and Pettus of Alabama voted against it, has never been forgiven by the president, and if truth were known, probably the people of Ohio likewise have not forgiven the offense.
It is suspected that, if the Brownsville inquiry were not in progress before the senate military affairs committee, of which Senator Warren of Wyoming is chairman, the chairman's recommendations would have short shrift with President Roosevelt. It is notorious that the president wants to have the committee report favorably to him, and it is also known commonly that certain investigations of federal

agents in Wyoming brought to light conditions not complimentary to Senator Warren and his friends.
No Hurry About Quinault Lands.
(Special Dispatch to The Journal.)
Aberdeen, Wash., June 3.—Colonel F. R. Archer, government agent for the allotment of lands in the Quinault Indian reservation, says the work will be finished in two or three months, as it is desired to give a final report at the next meeting of congress. As soon as all the land is allotted congress will decide what policy shall be followed in the distribution of the remainder of the land.
